Grade 7
Art

TEACHER EDITION

Unit 1 The Elements of Art
Unit 2 Modern Art and Architecture

A VenvLearning family homeschool curriculum

How to use this Teacher Edition

This book holds everything needed to teach the course: unit overviews, a plan for every lesson with what to say and do, the student lesson with Try It answers, and answer keys for every workbook page, weekly check and unit test.

- Daily routine (about 45–55 minutes): Look and Talk 5 · Learn and Demonstrate 10 · Create 25 · Reflect 5.
- Say: lines are a suggested script. Use your own words.
- Two lessons a week, then the Sketchbook Check (about 15 minutes), then corrections or a project.
- Each plan's Pacing row and each unit's pacing guide give the week and lesson order. Set the days to fit your own calendar.

Contents

The Elements of Art 4

Lesson 1.1: Looking Closely: The Four-Step Critique 6

Lesson 1.2: Line and Mark-Making 10

Sketchbook Check 1: Critique and Line — Answer Key 13

Lesson 1.3: Form and Light 14

Lesson 1.4: Proportion and the Human Figure 17

Sketchbook Check 2: Light and Proportion — Answer Key 20

Lesson 1.5: Color Theory and Color Schemes 21

Lesson 1.6: Value, Contrast, and Chiaroscuro 25

Sketchbook Check 3: Color and Value — Answer Key 28

Lesson 1.7: Composition: Thirds, Leading Lines, and Balance 29

Lesson 1.8: Revision, Critique, and the Artist Statement 32

Unit 1 Review — Answer Key 35

Unit 1 Portfolio Review — Answer Key 36

Modern Art and Architecture 37

Lesson 2.1: Surrealism: Dreams and the Impossible 40

Lesson 2.2: Surrealist Techniques: Collage and Chance 44

Sketchbook Check 1: Surrealism — Answer Key 47
Lesson 2.3: Abstract Expressionism: Action Painting 48
Lesson 2.4: Color Field Painting 52
Sketchbook Check 2: Abstract Expressionism — Answer Key 56
Lesson 2.5: Rhythm and Geometry: Kandinsky and Mondrian 57
Lesson 2.6: Abstraction from Nature: O'Keeffe and Alma Thomas 60
Sketchbook Check 3: Abstraction — Answer Key 64
Lesson 2.7: Twentieth-Century Architecture: Form Follows Function 65
Lesson 2.8: Modern Art Portfolio and Artist Statement 69
Unit 2 Review — Answer Key 73
Unit 2 Portfolio Review — Answer Key 74

UNIT 1 · TEACHER OVERVIEW

The Elements of Art

Critique, line and mark-making, form and light, proportion, color schemes, chiaroscuro, composition, and the artist statement.

Skilled artists combine sharp eyes with deliberate choices. In this unit you'll learn a professional critique method, build drawing skills (mark-making, light logic, proportion), use color theory and dramatic value, plan strong compositions, and finish a revised work with an artist statement.

Big ideas

- Critique art using describe, analyze, interpret, judge.
- Use contour, gesture, and value techniques; render light on forms.
- Apply proportion, color schemes, and chiaroscuro.
- Plan compositions, revise with critique, and write an artist statement.

Standards

Code	Standard
NCAS VA:Cr1–3	Generate, develop, and refine artwork.
NCAS VA:Pr5	Prepare work for presentation.
NCAS VA:Re7–9	Perceive, interpret, and evaluate.
NCAS VA:Cn11	Relate art to context.

What students should already know

- Grade 6 art basics.

Materials for the unit

- Drawing paper; graded pencils (2H, HB, 4B); fine pens; charcoal
- Color media

- Flashlight or lamp
- Measuring tape and mirror
- Portfolio folder

Pacing guide

Teach the lessons in order, then give the week's check. Set the days to fit your own calendar.

Week	Order	Lesson	Title
Week 1	Lesson 1 of 2	1.1	Looking Closely: The Four-Step Critique
Week 1	Lesson 2 of 2	1.2	Line and Mark-Making
Week 1	End of week	Check	Sketchbook Check 1: Critique and Line
Week 2	Lesson 1 of 2	1.3	Form and Light
Week 2	Lesson 2 of 2	1.4	Proportion and the Human Figure
Week 2	End of week	Check	Sketchbook Check 2: Light and Proportion
Week 3	Lesson 1 of 2	1.5	Color Theory and Color Schemes
Week 3	Lesson 2 of 2	1.6	Value, Contrast, and Chiaroscuro
Week 3	End of week	Check	Sketchbook Check 3: Color and Value
Week 4	Lesson 1 of 2	1.7	Composition: Thirds, Leading Lines, and Balance
Week 4	Lesson 2 of 2	1.8	Revision, Critique, and the Artist Statement
Week 4	Before the test	Review	Unit 1 Review
Week 4	End of unit	Test	Unit 1 Portfolio Review

TEACHING THIS UNIT AT HOME

Look at The Migration Series together online and talk about how it connects to the Harlem Renaissance reading in ELA.

UNIT VOCABULARY

critique	Structured discussion of art.
hatching	Parallel lines for value.
chiaroscuro	Strong light-dark contrast.
analogous	Neighboring colors.
rule of thirds	Placing key elements on thirds.
artist statement	Explanation of an artwork.

LESSON 1.1 · TEACHER PLAN
Week 1 · Lesson 1 of 2

Unit 1: The Elements of Art

Lesson 1.1: Looking Closely: The Four-Step Critique

Student goal	I can analyze an artwork using describe, analyze, interpret, and judge.
Objective	Students apply the four-step critique.
Standard	NCAS VA:Re7, VA:Re8, VA:Re9 — Perceive, interpret, and evaluate artwork.
Pacing	Unit 1, week 1, lesson 1 of 2
Time	About 45 minutes
Materials	Online access to The Migration Series, drawing paper, workbook Lesson 1.1
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Can art opinions use evidence?
Learn and Demonstrate	10	Introduce the elements and principles. Model a four-step critique on one panel.
Create	25	Critique Practice.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Jumping to judgment.
- Describing with interpretations (“sad”) instead of facts.

SUPPORT

- Sentence frames for each step.

EXTEND

- Compare two panels' compositions.

STUDENT LESSON 1.1 · WITH ANSWERS

Lesson 1.1: Looking Closely: The Four-Step Critique

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 1.1 in this book with your teacher.
- [ ] Do the Create activity: Critique Practice.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.1, Part A.
- [ ] Complete the rest of Workbook Lesson 1.1 (Parts B–D).

LOOK AND WONDER

Why do people disagree about whether an artwork is "good"? Can an opinion about art be supported with evidence?

Art critic Edmund Feldman described a four-step method that moves from facts to opinions, so judgments rest on evidence:

Describe: what do you see? (facts only) → Analyze: how are the elements and principles used? → Interpret: what does it mean or express? → Judge: is it successful? Why?

Practice on The Migration Series (1940–41) by Jacob Lawrence, a set of 60 small paintings about the Great Migration of African Americans from the rural South to Northern cities, the same history you read about in ELA. Lawrence used a limited palette of bold, flat colors and repeated shapes, so the whole series reads like one story. Many panels can be viewed online through the Phillips Collection and the Museum of Modern Art, which each own half of the series.

STEP BY STEP · CRITIQUE ONE PANEL

Choose any panel from The Migration Series.

1. Describe: list figures, objects, colors, and words in the caption.
2. Analyze: find repeated shapes, strong diagonals, or the limited color palette.
3. Interpret: what feeling or message does the panel express about the migration?
4. Judge: does it communicate that message well? Give evidence from steps 1–3.

Look for: A judgment that grows from description and analysis is persuasive, even if others disagree.

CREATE · CRITIQUE PRACTICE

Can you support an opinion about art with evidence?

You need: internet access or an art book; drawing paper.

1 Choose one Migration Series panel.

2 Write two sentences for each critique step.

3 Make a quick thumbnail sketch of the panel's composition (just the main shapes).

Record: your four-step critique and thumbnail.

★ KEY IDEA

Describe, analyze, interpret, judge: build opinions about art on evidence.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Which critique step lists facts only?

Answer: describe

2. Which step explains meaning?

Answer: interpret

3. What did The Migration Series depict?

Answer: the Great Migration of African Americans from the South to Northern cities

Workbook Answer Key · Lesson 1.1

#	Question	Answer
1	Which critique step lists facts only?	describe
2	Which step explains meaning?	interpret
3	What did The Migration Series depict?	the Great Migration of African Americans from the South to Northern cities
4	A structured discussion of art	critique
5	Name two principles of design.	e.g. balance, contrast, emphasis, rhythm
6	Write your four-step critique of one Migration Series panel.	Answers vary; each step must be present and judgments supported by evidence.
7	Thumbnail of the panel's main shapes.	Simplified composition sketch.

#	Question	Answer
8	Why does the critique save “judge” for last?	So the opinion is based on careful looking and analysis instead of a first impression.

LESSON 1.2 · TEACHER PLAN
Week 1 · Lesson 2 of 2

Unit 1: The Elements of Art

Lesson 1.2: Line and Mark-Making

Student goal	I can use contour, gesture, hatching, cross-hatching, and stippling to describe form and value.
Objective	Students use line techniques for form and value.
Standard	NCAS VA:Cr2 — Organize and develop artistic work.
Pacing	Unit 1, week 1, lesson 2 of 2
Time	About 45 minutes
Materials	Fine pens, pencils, drawing paper, workbook Lesson 1.2
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Black lines showing light?
Learn and Demonstrate	10	Demonstrate each mark-making technique.
Create	25	Mark-Making Value Studies.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Uneven spacing that makes muddy values.

SUPPORT

- Practice strips with guide lines.

EXTEND

- Make a stippled portrait of a pet.

STUDENT LESSON 1.2 · WITH ANSWERS

Lesson 1.2: Line and Mark-Making

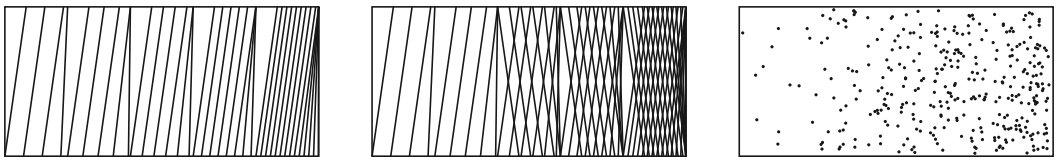

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 1.2 in this book with your teacher.
- [ ] Do the Create activity: Mark-Making Value Studies.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.2, Part A.
- [ ] Complete the rest of Workbook Lesson 1.2 (Parts B–D).

LOOK AND WONDER

How can a drawing made only of black lines show light and shadow?

Line can describe edges, movement, and even value. A contour line traces edges slowly. A blind contour, drawn without looking at the paper, trains your eye to see. A gesture drawing captures movement in seconds. To build value with line, artists use hatching, cross-hatching, and stippling.

hatching cross-hatching stippling

The German artist Albrecht Dürer (1471–1528) was a master of hatching in engravings and woodcuts. In his woodcut Rhinoceros (1515), patterns of lines create both texture and value, even though Dürer never saw the animal; he worked from a written description and a sketch by someone else.

CREATE · MARK-MAKING VALUE STUDIES

Which technique makes the smoothest value change?

You need: fine black pen or sharp pencil; drawing paper.

1. Draw three rectangles divided into five boxes.
2. Fill one with hatching, one with cross-hatching, and one with stippling, light to dark.
3. Draw a 2-minute blind contour of your hand.
4. Draw your hand again, looking, and shade it with one technique.

Record: the three value strips and two hand drawings.

★ KEY IDEA

Line can describe edges (contour), movement (gesture), and value (hatching, cross-hatching, stippling).

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What is hatching?

Answer: parallel lines that create value

2. Which technique uses dots?

Answer: stippling

3. Why do blind contours?

Answer: to train your eye to look closely at edges

Workbook Answer Key · Lesson 1.2

#	Question	Answer
1	What is hatching?	parallel lines that create value
2	Which technique uses dots?	stippling
3	Why do blind contours?	to train your eye to look closely at edges
4	Quick drawing of movement	gesture
5	Layered hatching in different directions	cross-hatching
6	Three value strips: hatching, cross-hatching, stippling (5 steps each).	Even steps from light to dark in all three.
7	Shaded hand drawing.	Accurate contour; value with one technique.
8	Which technique would best show rough tree bark? Why?	Cross-hatching or hatching that follows the bark's direction shows rough texture and dark grooves.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 1.2

About 15 minutes

Sketchbook Check 1: Critique and Line — Answer Key

Answers

#	Question	Answer
1	The four critique steps in order	describe, analyze, interpret, judge
2	Parallel lines that create value	hatching
3	A quick drawing of movement	gesture
4	Make three boxes of value: hatching, cross-hatching, stippling.	Three techniques shown clearly.

LESSON 1.3 · TEACHER PLAN
Week 2 · Lesson 1 of 2

Unit 1: The Elements of Art

Lesson 1.3: Form and Light

Student goal	I can render a form using a consistent light source with highlight, midtone, core shadow, reflected light, and cast shadow.
Objective	Students render forms with consistent light.
Standard	NCAS VA:Cr2, VA:Cr3 — Develop and refine artistic work.
Pacing	Unit 1, week 2, lesson 1 of 2
Time	About 45 minutes
Materials	Objects, lamp, graded pencils, blending tools, workbook Lesson 1.3
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Flashlight and ball.
Learn and Demonstrate	10	Demonstrate the five parts of light on a sphere.
Create	25	Still Life with One Light.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Outlining forms with dark lines; shading the edge evenly.

SUPPORT

- Value finder: a card with a hole.

EXTEND

- Render an egg on white paper (white on white).

STUDENT LESSON 1.3 · WITH ANSWERS

Lesson 1.3: Form and Light

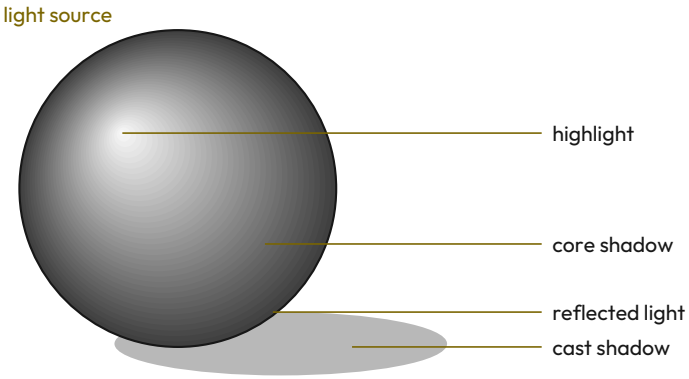

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 1.3 in this book with your teacher.
- [ ] Do the Create activity: Still Life with One Light.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.3, Part A.
- [ ] Complete the rest of Workbook Lesson 1.3 (Parts B–D).

LOOK AND WONDER

Shine a flashlight on a ball in a dark room. Where is it brightest? Where is it darkest? Is the edge of the shadow side completely black?

Realistic drawing depends on light logic: every form in a picture is lit from the same direction. On a sphere, value changes gradually from the highlight through the midtones to the core shadow. Near the edge of the shadow side, light bounces back from the table as reflected light. The darkest dark is usually the cast shadow right where the object touches the surface.

CREATE · STILL LIFE WITH ONE LIGHT

Can you render three forms lit the same way?

You need: a ball, a box, and a can or cup; flashlight or desk lamp; pencils (2H, HB, 4B if you have them); blending stump or tissue.

1. Arrange the objects and light them from one side in a dim room.
2. Lightly draw their shapes and the cast shadows.
3. Squint to see the value groups; shade from light to dark.

4 Check: is the light coming from the same side on every object?

Record: your rendered still life with the light direction marked by an arrow.

★ KEY IDEA

Keep one light source. Render highlight, midtone, core shadow, reflected light, and cast shadow.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Where is the darkest part of a cast shadow?

Answer: where the object touches the surface

2. Why is reflected light dimmer than the lit side?

Answer: it's bounced light, not direct light

3. What goes wrong with two light directions?

Answer: the forms look flat or confusing

Workbook Answer Key · Lesson 1.3

#	Question	Answer
1	Where is the darkest part of a cast shadow?	where the object touches the surface
2	Why is reflected light dimmer than the lit side?	it's bounced light, not direct light
3	What goes wrong with two light directions?	the forms look flat or confusing
4	Brightest spot	highlight
5	Shadow thrown onto the table	cast shadow
6	Render a sphere and a cube lit from the upper right. Label the five parts of light on the sphere.	Consistent light source; five labeled parts.
7	Why do artists squint at their subject?	Squinting blurs detail and makes the big value groups easier to see.

LESSON 1.4 · TEACHER PLAN
Week 2 · Lesson 2 of 2

Unit 1: The Elements of Art

Lesson 1.4: Proportion and the Human Figure

Student goal	I can use proportion guidelines to draw a face and a standing figure.
Objective	Students apply proportion guidelines.
Standard	NCAS VA:Cr2, VA:Cn11 — Develop artistic work; relate art to cultural and historical context.
Pacing	Unit 1, week 2, lesson 2 of 2
Time	About 45 minutes
Materials	Measuring tapes, mirrors, pencils, workbook Lesson 1.4
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Heads tall?
Learn and Demonstrate	10	Show the Vitruvian Man; demonstrate face and figure guides.
Create	25	Measured Portrait and Figure.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Drawing eyes too high; heads too large on figures.

SUPPORT

- Pre-marked figure templates.

EXTEND

- Draw a figure in action with foreshortening.

STUDENT LESSON 1.4 · WITH ANSWERS

Lesson 1.4: Proportion and the Human Figure

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 1.4 in this book with your teacher.
- [ ] Do the Create activity: Measured Portrait and Figure.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.4, Part A.
- [ ] Complete the rest of Workbook Lesson 1.4 (Parts B–E).

LOOK AND WONDER

How many of your head-heights tall do you think you are? Guess, then measure with a partner.

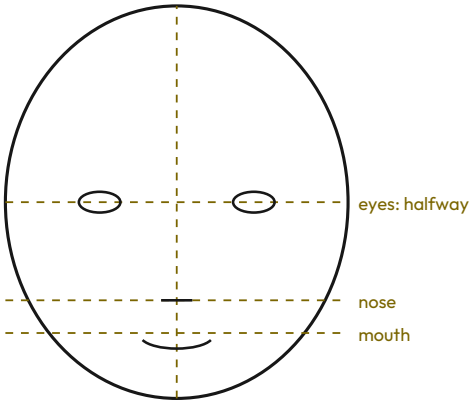

Artists have measured the body for thousands of years. Around 1490, Leonardo da Vinci drew the Vitruvian Man, a figure inside a circle and a square, based on the Roman architect Vitruvius's ideas about ideal proportions. Today artists often use the head as a unit: an adult is roughly 7½ heads tall (fashion and comic illustrators often stretch it to 8 or more).

On the face, the eyes sit about halfway down the head.

The bottom of the nose is about halfway between the eyes and the chin; the mouth is about a third of the way from nose to chin.

The tops of the ears line up with the brow; the bottoms with the nose.

On the body, the hips are near the halfway point, and the fingertips reach mid-thigh.

CREATE · MEASURED PORTRAIT AND FIGURE

Do proportion rules match real people?

You need: pencil; measuring tape; mirror; a partner or a photo.

1. Measure a partner's head height and total height; divide to find “heads tall.”
2. Draw a proportional face with guidelines from the mirror.
3. Draw a standing figure 7½ heads tall using stacked ovals as a guide.
4. Compare the rule with your measurements.

Record: measurements, the face, and the figure.

★ KEY IDEA

Use the head as a unit: eyes halfway down the head, an adult about 7½ heads tall. Measure real people to test the rules.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. About how many heads tall is an adult?

Answer: about 7½

2. Who drew the Vitruvian Man?

Answer: Leonardo da Vinci

3. Where do the ears line up?

Answer: between the brow and the bottom of the nose

Workbook Answer Key · Lesson 1.4

#	Question	Answer
1	About how many heads tall is an adult?	about 7½
2	Who drew the Vitruvian Man?	Leonardo da Vinci
3	Where do the ears line up?	between the brow and the bottom of the nose
4	Rules for ideal proportions	canon of proportion
5	Eyes are about ___ down the head.	halfway
6	Partner's head height (cm)	Answers vary.
7	Partner's total height ÷ head height =	Answers vary (about 6.5–7.5 for teens).
8	Proportional figure, 7½ heads tall, with head-unit marks.	Correct head units; hips near middle.
9	Why might a teen measure fewer “heads tall” than an adult?	Heads are proportionally larger in younger people; bodies grow more than heads.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 1.4

About 15 minutes

Sketchbook Check 2: Light and Proportion — Answer Key

Answers

#	Question	Answer
1	Name the five parts of light on a sphere.	highlight, midtone, core shadow, reflected light, cast shadow
2	An adult is about how many heads tall?	7½
3	Render a sphere with a light source from the left.	Consistent shading and cast shadow to the right.

LESSON 1.5 · TEACHER PLAN
Week 3 · Lesson 1 of 2

Unit 1: The Elements of Art

Lesson 1.5: Color Theory and Color Schemes

Student goal	I can describe hue, saturation, and value, and use color schemes to create mood.
Objective	Students apply color theory and schemes.
Standard	NCAS VA:Cr2, VA:Re8 — Develop artistic work; interpret meaning.
Pacing	Unit 1, week 3, lesson 1 of 2
Time	About 45 minutes
Materials	Color media, workbook Lesson 1.5
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Warm sunsets, calm oceans.
Learn and Demonstrate	10	Teach hue/value/saturation; demonstrate desaturating with a complement.
Create	25	One Image, Two Moods.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Confusing analogous and complementary.

SUPPORT

- Color wheel to point at while choosing.

EXTEND

- Find each scheme in film posters.

STUDENT LESSON 1.5 · WITH ANSWERS

Lesson 1.5: Color Theory and Color Schemes

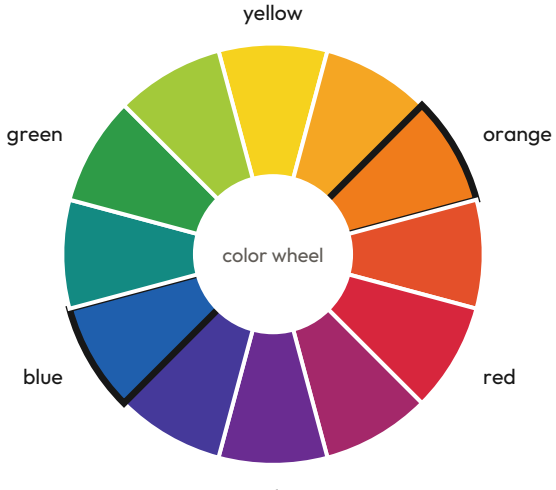

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 1.5 in this book with your teacher.
- [ ] Do the Create activity: One Image, Two Moods.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.5, Part A.
- [ ] Complete the rest of Workbook Lesson 1.5 (Parts B–E).

LOOK AND WONDER

Why do sunsets feel warm and oceans feel calm? Is it the color, or what we associate with it?

Every color has three properties: hue (its name), value (light or dark), and saturation (bright or dull). Mixing a color with its complement lowers saturation, making it duller or grayer. Artists choose color schemes to set a mood.

Blue and orange are complements: opposite on the wheel.

Scheme	Colors	Effect
monochromatic	tints and shades of one hue	unified, calm
analogous	3–4 neighbors (yellow, yellow-green, green)	harmonious, natural
complementary	opposites (blue and orange)	high contrast, energetic
split-complementary	one hue + the two neighbors of its complement	contrast with less tension
triadic	three evenly spaced hues (red, yellow, blue)	lively, balanced
warm / cool	reds, oranges, yellows / blues, greens, violets	warm advances; cool recedes

CREATE · ONE IMAGE, TWO MOODS

How does a color scheme change meaning?

You need: colored pencils, markers, or paint; two copies of a simple line drawing.

1. Draw a simple scene (a house and tree) and trace it twice.
2. Color one in an analogous warm scheme.
3. Color the other in a complementary or cool scheme.
4. Write the mood of each.

Record: both versions and a sentence about how mood changed.

★ KEY IDEA

Hue, value, and saturation describe any color. Color schemes control harmony, contrast, and mood.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Complement of red

Answer: green

2. Analogous colors are...

Answer: neighbors on the wheel

3. How do you lower a color's saturation?

Answer: mix in its complement (or gray)

Workbook Answer Key · Lesson 1.5

#	Question	Answer
1	Complement of red	green
2	Analogous colors are…	neighbors on the wheel
3	How do you lower a color's saturation?	mix in its complement (or gray)
4	A color's name	hue
5	Brightness or dullness of a color	saturation
6	Triad including red	red, yellow, blue
7	Split-complement of blue	blue with yellow-orange and red-orange
8	Analogous to violet	e.g. red-violet, violet, blue-violet
9	Do warm colors seem to advance or recede?	advance
10	Your scene in two color schemes (side by side).	Correct schemes and a stated mood for each.
11	Which scheme would you use for a poster about a calm library? Why?	Analogous cool or monochromatic blue: harmonious and calm.

LESSON 1.6 · TEACHER PLAN
Week 3 · Lesson 2 of 2
Unit 1: The Elements of Art

Lesson 1.6: Value, Contrast, and Chiaroscuro

Student goal	I can make a nine-step value scale and use strong contrast (chiaroscuro) for drama.
Objective	Students control value and use chiaroscuro.
Standard	NCAS VA:Cr2, VA:Re7 — Develop artistic work; perceive and analyze.
Pacing	Unit 1, week 3, lesson 2 of 2
Time	About 45 minutes
Materials	Flashlights, objects, charcoal or pencils, workbook Lesson 1.6
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Lighting in movies.
Learn and Demonstrate	10	Demonstrate a 9-step scale. Discuss Caravaggio and Rembrandt.
Create	25	Dramatic Light Study.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Not going dark enough.

SUPPORT

- Value finder card.

EXTEND

- Photograph a still life in dramatic light and draw from the photo.

STUDENT LESSON 1.6 · WITH ANSWERS

Lesson 1.6: Value, Contrast, and Chiaroscuro

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 1.6 in this book with your teacher.
- [ ] Do the Create activity: Dramatic Light Study.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.6, Part A.
- [ ] Complete the rest of Workbook Lesson 1.6 (Parts B–D).

LOOK AND WONDER

Watch a scary movie scene with the sound off. How does lighting create the mood?

A value scale is a ruler for darkness. Artists train by making even steps from white to black, then use that control to model forms.

white black

Italian painters of the Renaissance and Baroque periods used chiaroscuro to make figures look solid and dramatic. Caravaggio (1571–1610) pushed it to extremes, called tenebrism: in The Calling of Saint Matthew (about 1600), a beam of light cuts across a dark room and lands on the faces of the men at the table. Rembrandt later used warm, glowing light against deep shadow in his portraits.

CREATE · DRAMATIC LIGHT STUDY

How does strong side lighting change an object?

You need: one object (a mug, an apple, a toy); flashlight; dark paper and white charcoal or chalk, or pencil on white paper.

1. Make a nine-step value scale.
2. Light your object from one low side in a dark room.
3. Draw it, pushing the darks very dark and saving the lights.
4. Compare with a drawing of the same object in flat, even light.

Record: value scale and both drawings.

★ KEY IDEA

Control value with even steps; strong light-dark contrast (chiaroscuro) creates drama and solidity.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What does chiaroscuro mean?

Answer: light-dark

2. Which artist is known for tenebrism?

Answer: Caravaggio

3. How many steps in the class value scale?

Answer: nine

Workbook Answer Key · Lesson 1.6

#	Question	Answer
1	What does chiaroscuro mean?	light-dark
2	Which artist is known for tenebrism?	Caravaggio
3	How many steps in the class value scale?	nine
4	Even steps from white to black	value scale
5	Extreme chiaroscuro	tenebrism
6	Nine-step value scale.	Nine even, distinct steps.
7	Dramatic light study of one object.	Strong contrast; clear light direction.
8	How would The Calling of Saint Matthew feel different with even lighting?	Less dramatic; the moment of being called would lose emphasis.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 1.6

About 15 minutes

Sketchbook Check 3: Color and Value — Answer Key

Answers

#	Question	Answer
1	Complement of yellow	violet
2	Three colors evenly spaced on the wheel	triadic
3	Italian for light-dark	chiaroscuro
4	How to dull (desaturate) a color	mix in its complement
5	Nine-step value scale.	Nine even steps.

LESSON 1.7 · TEACHER PLAN
Week 4 · Lesson 1 of 2

Unit 1: The Elements of Art

Lesson 1.7: Composition: Thirds, Leading Lines, and Balance

Student goal	I can plan a composition using the rule of thirds, leading lines, emphasis, and asymmetrical balance.
Objective	Students plan compositions with design strategies.
Standard	NCAS VA:Cr1, VA:Cr2 — Generate and organize artistic ideas.
Pacing	Unit 1, week 4, lesson 1 of 2
Time	About 45 minutes
Materials	Drawing paper, workbook Lesson 1.7
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Movie posters.
Learn and Demonstrate	10	Analyze The Great Wave's composition.
Create	25	Four Thumbnails.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Detail-heavy thumbnails.

SUPPORT

- Thumbnail frames pre-drawn at 2 × 3 inches.

EXTEND

- Re-crop a photo three ways to change the focal point.

STUDENT LESSON 1.7 · WITH ANSWERS

Lesson 1.7: Composition: Thirds, Leading Lines, and Balance

STUDENT'S ASSIGNMENT

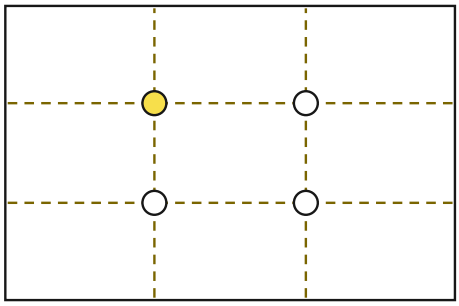

- [ ] Read Lesson 1.7 in this book with your teacher.
- [ ] Do the Create activity: Four Thumbnails.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.7, Part A.
- [ ] Complete the rest of Workbook Lesson 1.7 (Parts B–D).

LOOK AND WONDER

Where does your eye go first in a movie poster? What tricks get it there?

Strong compositions guide the viewer. The rule of thirds places the focal point near one of four crossing points instead of dead center.

Leading lines (roads, rivers, arms, edges) point the eye to it. Asymmetrical balance keeps the picture interesting, and negative space gives the subject room to breathe.

In The Great Wave off Kanagawa (about 1831), Katsushika Hokusai builds a powerful asymmetrical composition: the giant wave fills the left and top, its claw-like crest leads the eye across to tiny Mount Fuji, and the boats curve along the wave's path. The small mountain balances the huge wave.

CREATE · FOUR THUMBNAILS

Which composition tells your idea best?

You need: pencil; drawing paper.

1. Choose a subject that matters to you.
2. Draw four thumbnails: centered, rule of thirds, strong leading lines, and lots of negative space.
3. Shade each in three values (light, middle, dark) only.
4. Pick the strongest and write why.

Record: four value thumbnails and your choice.

★ KEY IDEA

Place the focal point thoughtfully, lead the eye to it, balance asymmetrically, and use negative space.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What are leading lines?

Answer: lines that guide the eye to the focal point

2. What balances the great wave in Hokusai's print?

Answer: small Mount Fuji (and the boats)

3. Why value-only thumbnails?

Answer: to test the composition's light-dark pattern before color

Workbook Answer Key · Lesson 1.7

#	Question	Answer
1	What are leading lines?	lines that guide the eye to the focal point
2	What balances the great wave in Hokusai's print?	small Mount Fuji (and the boats)
3	Why value-only thumbnails?	to test the composition's light-dark pattern before color
4	Empty space around objects	negative space
5	Different elements with even visual weight	asymmetrical balance
6	Four value thumbnails of one subject; circle the strongest.	Four distinct compositions with three values each; reasoned choice.
7	Find leading lines in a photo you've taken or a poster. Describe them.	Answers vary.

LESSON 1.8 · TEACHER PLAN
Week 4 · Lesson 2 of 2
Unit 1: The Elements of Art

Lesson 1.8: Revision, Critique, and the Artist Statement

Student goal	I can revise a work using peer critique and write an artist statement explaining my choices.
Objective	Students revise with critique and write artist statements.
Standard	NCAS VA:Cr3, VA:Pr5, VA:Re9 — Refine work; present and evaluate.
Pacing	Unit 1, week 4, lesson 2 of 2
Time	About 45 minutes
Materials	Drawing materials, workbook Lesson 1.8, Unit 1 Review
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Museum labels.
Learn and Demonstrate	10	Model a critique and a statement.
Create	25	Final Piece and Statement.
Reflect	5	Share statements; Next: Unit 1 Portfolio Review.

COMMON MISCONCEPTIONS

- Statements that only describe, without choices or meaning.

SUPPORT

- Statement template.

EXTEND

- Display the work at home with its statement.

STUDENT LESSON 1.8 · WITH ANSWERS

Lesson 1.8: Revision, Critique, and the Artist Statement

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 1.8 in this book with your teacher.
- [ ] Do the Create activity: Final Piece and Statement.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.8, Part A.
- [ ] Complete the rest of Workbook Lesson 1.8 (Parts B–D).

LOOK AND WONDER

Have you ever read the small card next to a painting in a museum? What makes one interesting to read?

Develop your best thumbnail into a finished piece. Midway, hold a short critique using three prompts: I notice… (description), I wonder… (a question), What if… (a suggestion). Then revise.

Finish with an artist statement of 75–150 words: what you made, the elements and principles you used and why, what you changed after feedback, and what you want viewers to feel or think.

STEP BY STEP · ARTIST STATEMENT STARTER

A charcoal drawing of a grandmother's hands

1. What: “This charcoal drawing shows my grandmother's hands holding a quilt square.”
2. How: “I used chiaroscuro and a rule-of-thirds composition, with the quilt's lines leading to her hands.”
3. Revision: “After feedback, I darkened the background so the hands stand out.”
4. Meaning: “I want viewers to see how hands carry family stories.”

Look for: Clear, specific, and personal.

CREATE · FINAL PIECE AND STATEMENT

Can you finish, critique, revise, and explain a work?

You need: your chosen thumbnail; drawing paper; your choice of media.

1. Develop the thumbnail into a final work.
2. Hold a critique with I notice / I wonder / What if.
3. Revise.

4 Write your artist statement.

Record: your final piece and statement for the portfolio.

★ KEY IDEA

Critique with I notice / I wonder / What if; revise; explain your choices in an artist statement.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Name the three critique prompts.

Answer: I notice, I wonder, What if

2. How long is the artist statement?

Answer: about 75–150 words

3. Name two things an artist statement includes.

Answer: what you made, your choices and why, revisions, intended meaning

Workbook Answer Key · Lesson 1.8

#	Question	Answer
1	Name the three critique prompts.	I notice, I wonder, What if
2	How long is the artist statement?	about 75–150 words
3	Name two things an artist statement includes.	what you made, your choices and why, revisions, intended meaning
4	Text explaining an artist's work	artist statement
5	Prompt for a suggestion	What if…
6	Record the feedback you received (I notice / I wonder / What if) and what you will revise.	Answers vary.
7	Write your artist statement (75–150 words).	Includes what, how, revision, and meaning.

UNIT REVIEW · ANSWER KEY
Study before the unit test

About 30 minutes

Unit 1 Review — Answer Key

Use as a study session or portfolio sort before the review.

Answers

#	Question	Answer
1	saturation	intensity of a color
2	analogous	neighboring colors
3	tenebrism	extreme chiaroscuro
4	leading lines	lines guiding the eye
5	cast shadow	shadow thrown onto a surface
6	artist statement	text explaining your work
7	Choose three Unit 1 works for your portfolio and write one sentence about each.	Answers vary.

PORTFOLIO REVIEW · ANSWER KEY
At the end of the unit
About 45 minutes

Unit 1 Portfolio Review — Answer Key

Answers

#	Question	Answer
1	Which critique step explains meaning? A. describe B. analyze C. interpret D. judge	C. interpret
2	Which scheme uses colors opposite each other? A. analogous B. complementary C. monochromatic	B. complementary
3	Where is the darkest value of a cast shadow?	where the object meets the surface
4	Name one mark-making technique for value.	hatching, cross-hatching, or stippling
5	Who painted The Calling of Saint Matthew?	Caravaggio
6	What balances the wave in Hokusai's print?	Mount Fuji (and the boats)
7	Write a four-step critique of an artwork you didn't study in this unit (any museum website).	Rubric: describe with facts (1); analyze elements/principles (1); interpret with evidence (1); judge with reasons (1).
8	Your teacher scores your Lesson 1.8 final piece and statement with this rubric. Note one goal for Unit 2.	Rubric (1 point each): planned composition; consistent light/value; purposeful color or value scheme; skilled mark-making; evidence of revision; clear artist statement.

Scoring

Score	What it means / next step
14–16 (85%+)	Excellent: skilled, purposeful, and well explained.
12–13	Solid: strengthen one technique.
Below 12	Redo one studio activity with support.

UNIT 2 · TEACHER OVERVIEW

Modern Art and Architecture

Surrealism, Abstract Expressionism and Color Field painting, geometric abstraction, abstraction from nature, modern architecture, and a portfolio show.

In the 1900s, artists broke every rule. They painted dreams, dripped paint across the floor, built pictures from pure color and geometry, and designed buildings that cantilever over waterfalls. In this unit you'll study Surrealism, Abstract Expressionism, abstraction, and modern architecture, try each artist's techniques yourself, and finish by curating a portfolio show with your own artist statement.

Big ideas

- Explain the goals and techniques of Surrealism.
- Analyze and practice action painting and Color Field painting.
- Use rhythm, balance, and simplification to make abstract art.
- Explain modern architecture and design for a site and purpose.
- Curate a portfolio and write an artist statement.

Standards

Code	Standard
NCAS VA:Cr1–3	Generate, develop, and refine artwork.
NCAS VA:Pr4–6	Select, prepare, and present artwork.
NCAS VA:Re7–9, VA:Cn11	Interpret and evaluate art; connect it to history.

What students should already know

- The elements of art and the four-step critique (Unit 1).

Materials for the unit

- Sketchbook and drawing pencils
- Old magazines, scissors, glue
- Large paper, thinned tempera, sticks
- Watercolor paper and paints
- Rulers, black markers or tape
- A natural object and a viewfinder
- Portfolio folder

Pacing guide

Teach the lessons in order, then give the week's check. Set the days to fit your own calendar.

Week	Order	Lesson	Title
Week 1	Lesson 1 of 2	2.1	Surrealism: Dreams and the Impossible
Week 1	Lesson 2 of 2	2.2	Surrealist Techniques: Collage and Chance
Week 1	End of week	Check	Sketchbook Check 1: Surrealism
Week 2	Lesson 1 of 2	2.3	Abstract Expressionism: Action Painting
Week 2	Lesson 2 of 2	2.4	Color Field Painting
Week 2	End of week	Check	Sketchbook Check 2: Abstract Expressionism
Week 3	Lesson 1 of 2	2.5	Rhythm and Geometry: Kandinsky and Mondrian
Week 3	Lesson 2 of 2	2.6	Abstraction from Nature: O'Keeffe and Alma Thomas
Week 3	End of week	Check	Sketchbook Check 3: Abstraction
Week 4	Lesson 1 of 2	2.7	Twentieth-Century Architecture: Form Follows Function
Week 4	Lesson 2 of 2	2.8	Modern Art Portfolio and Artist Statement
Week 4	Before the test	Review	Unit 2 Review
Week 4	End of unit	Test	Unit 2 Portfolio Review

TEACHING THIS UNIT AT HOME

Drive by or look up the Fountainhead house in Jackson, and find one modern building in your area. Ask: how does its form follow its function?

UNIT VOCABULARY

Surrealism	Art of dreams and the unconscious.
abstract	Art without recognizable objects.
gesture	A mark that records movement.
Color Field	Large areas of color creating mood.
asymmetrical balance	Different sides with equal visual weight.
form follows function	A building's shape comes from its purpose.

LESSON 2.1 · TEACHER PLAN
Week 1 · Lesson 1 of 2

Unit 2: Modern Art and Architecture

Lesson 2.1: Surrealism: Dreams and the Impossible

Student goal	I can explain the goals of Surrealism and analyze how artists made realistic-looking images of impossible things.
Objective	Students explain Surrealism's goals and analyze Surrealist works.
Standard	NCAS VA:Re7.2, VA:Re8 — Analyze how artworks communicate ideas; interpret meaning.
Pacing	Unit 2, week 1, lesson 1 of 2
Time	About 45 minutes
Materials	Sketchbooks, drawing pencils, workbook Lesson 2.1
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	The strangest dream.
Learn and Demonstrate	10	Show The Persistence of Memory and The Treachery of Images. Model the four-step critique.
Create	25	Dream Journal Sketch.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Thinking Surrealism is random; artists planned carefully.

SUPPORT

- Strategy chart as a menu.

EXTEND

- Research Leonora Carrington or Remedios Varo.

STUDENT LESSON 2.1 · WITH ANSWERS

Lesson 2.1: Surrealism: Dreams and the Impossible

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 2.1 in this book with your teacher.
- [ ] Do the Create activity: Dream Journal Sketch.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.1, Part A.
- [ ] Complete the rest of Workbook Lesson 2.1 (Parts B–D).

LOOK AND WONDER

Think of the strangest dream you remember. What made it feel strange even though it seemed real at the time?

In 1924, the French writer André Breton published the Surrealist Manifesto. He and his friends believed that dreams and the unconscious mind held a deeper truth than everyday logic. Surrealist artists painted dreamlike scenes, often with careful, realistic technique, so impossible things looked believable.

Salvador Dalí's The Persistence of Memory (1931) is one of the most famous Surrealist paintings. Soft pocket watches droop over a branch, a ledge, and a strange sleeping creature, in a quiet landscape of cliffs and sea. Dalí painted the watches with tiny brushes and smooth illusionism, making melting time seem real.

The Belgian painter René Magritte used juxtaposition and words to make viewers question what they see. In The Treachery of Images (1929), he painted a pipe and wrote underneath, in French, “This is not a pipe.” He was right: it's a picture of a pipe. In The Son of Man (1964), a floating green apple hides a man's face.

Surrealist strategy	Example
a soft object that should be hard	melting watches (Dalí)
juxtaposition of unrelated things	an apple in front of a face (Magritte)
words that contradict the image	“This is not a pipe” (Magritte)
a dream landscape	endless empty plains and long shadows

STEP BY STEP · ANALYZE A SURREALIST IMAGE

Use the four-step critique from Unit 1 on The Persistence of Memory.

1 Describe: soft watches, a bare branch, cliffs, calm water, an orange watch covered in ants.

2 Analyze: smooth realistic shading and deep space make the scene look real.

3 Interpret: time might feel soft or strange in dreams or memory.

4 Judge: it succeeds because the realistic style makes the impossible feel true.

Look for: Realistic technique plus impossible content is the heart of Surrealism.

CREATE · DREAM JOURNAL SKETCH

Can you draw an impossible scene so it looks real?

You need: a sketchbook; pencils (2H, HB, 4B); an eraser.

1 Write one sentence about a dream or a strange idea (a floating house, a soft staircase).

2 Choose one Surrealist strategy from the chart.

3 Sketch the scene with a horizon line and realistic shading.

4 Add one detail that makes the viewer look twice.

Record: your sketch and the sentence that inspired it.

★ KEY IDEA

Surrealists explored dreams and the unconscious, often using realistic technique for impossible scenes. Juxtaposition and contradiction make viewers question what they see.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. When did the Surrealist movement begin?

Answer: 1924, with Breton's Surrealist Manifesto

2. What is strange about the watches in The Persistence of Memory?

Answer: They are soft and melting.

3. What is juxtaposition?

Answer: placing very different things side by side to surprise the viewer

Workbook Answer Key · Lesson 2.1

#	Question	Answer
1	When did the Surrealist movement begin?	1924, with Breton's Surrealist Manifesto
2	What is strange about the watches in The Persistence of Memory?	They are soft and melting.

#	Question	Answer
3	What is juxtaposition?	placing very different things side by side to surprise the viewer
4	Placing unrelated things side by side	juxtaposition
5	Painting so realistically something seems real	illusionism
6	Look at Magritte's The Son of Man on a museum or educational website. Write the four critique steps: describe, analyze, interpret, judge.	Answers vary; all four steps included.
7	Why would a Surrealist use a realistic painting style to show something impossible?	Realistic style makes the impossible look believable, like a dream that feels real.

LESSON 2.2 · TEACHER PLAN
Week 1 · Lesson 2 of 2

Unit 2: Modern Art and Architecture

Lesson 2.2: Surrealist Techniques: Collage and Chance

Student goal	I can use collage, scale change, and chance-based games to create a Surrealist artwork.
Objective	Students use Surrealist techniques to make a collage.
Standard	NCAS VA:Cr1.1, VA:Cr2.1 — Generate and develop artistic ideas through experimentation.
Pacing	Unit 2, week 1, lesson 2 of 2
Time	About 45 minutes
Materials	Magazines, scissors, glue, heavy paper, workbook Lesson 2.2
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	A drawing game.
Learn and Demonstrate	10	Demonstrate exquisite corpse. Model a scale change in collage.
Create	25	Surreal Collage.
Reflect	5	Students share titles; store work in the portfolio. Next: Sketchbook Check.

COMMON MISCONCEPTIONS

- Gluing before arranging.

SUPPORT

- Pre-cut image bank.

EXTEND

- Make a digital collage with a photo app.

STUDENT LESSON 2.2 · WITH ANSWERS

Lesson 2.2: Surrealist Techniques: Collage and Chance

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 2.2 in this book with your teacher.
- [ ] Do the Create activity: Surreal Collage.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.2, Part A.
- [ ] Complete the rest of Workbook Lesson 2.2 (Parts B–E).

LOOK AND WONDER

What would happen if you drew the head of a creature, folded the paper, and someone else drew the body without looking?

Surrealists invented techniques that let chance and surprise take over. In automatism, an artist draws quickly without planning and then looks for images in the marks. In the game exquisite corpse, players take turns drawing parts of a figure on a folded paper, so no one sees the whole until the end.

Collage let Surrealists combine pieces of real photographs and prints in impossible ways. Max Ernst cut up old book illustrations to create strange scenes. A quick way to make an image surreal is to change scale: a giant teacup in a city street, or a tiny person standing on a strawberry.

Technique	How it works	Effect
automatism	draw fast with no plan	unexpected shapes
exquisite corpse	draw parts without seeing the others	surprising combinations
collage	cut and combine images	impossible scenes from real pieces
scale change	make something much too big or small	a dreamlike shock

CREATE · SURREAL COLLAGE

Can real pictures make an impossible scene?

You need: old magazines or printed images; scissors; a glue stick; heavy paper; colored pencils.

1. Choose a background: a landscape, a room, or a city.
2. Cut out at least four objects and change the scale of at least one.
3. Arrange them using juxtaposition before you glue.
4. Glue them down and add drawn shadows so the pieces look like they belong.

Record: your collage and a title that adds to the mystery.

★ KEY IDEA

Surrealists used automatism, exquisite corpse, collage, and scale change to invite chance and surprise into art.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What is automatism?

Answer: drawing without planning to let the unconscious lead

2. How is the exquisite corpse game played?

Answer: Players draw parts of a figure on folded paper without seeing the others' parts.

3. How can changing scale make an image surreal?

Answer: An object much too big or small for its setting looks impossible and dreamlike.

Workbook Answer Key · Lesson 2.2

#	Question	Answer
1	What is automatism?	drawing without planning to let the unconscious lead
2	How is the exquisite corpse game played?	Players draw parts of a figure on folded paper without seeing the others' parts.
3	How can changing scale make an image surreal?	An object much too big or small for its setting looks impossible and dreamlike.
4	Art made of glued cut images	collage
5	Size compared with something else	scale
6	Play exquisite corpse with a family member: fold a paper in thirds; one person draws a head, the next a body, the last legs. Tape your finished creature here or sketch it.	A three-part figure.
7	Describe your collage plan: background, four objects, and one scale change.	Answers vary; includes all three parts.
8	Which Surrealist technique gave you the most surprising result? Why?	Answers vary.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 2.2

About 15 minutes

Sketchbook Check 1: Surrealism — Answer Key

Answers

#	Question	Answer
1	Painter of The Persistence of Memory	Salvador Dalí
2	Placing unrelated things side by side	juxtaposition
3	Drawing without planning	automatism
4	Painter of “This is not a pipe”	René Magritte
5	Sketch a quick surreal idea using a scale change.	An object drawn much too large or small for its setting.

LESSON 2.3 · TEACHER PLAN
Week 2 · Lesson 1 of 2

Unit 2: Modern Art and Architecture

Lesson 2.3: Abstract Expressionism: Action Painting

Student goal	I can explain how action painters used gesture and process and create an expressive abstract painting.
Objective	Students explain action painting and create a gesture painting.
Standard	NCAS VA:Re7.2, VA:Cr2.1 — Experiment with media and process; interpret expressive qualities.
Pacing	Unit 2, week 2, lesson 1 of 2
Time	About 45 minutes
Materials	Large paper, thinned tempera, sticks and tools, drop cloths, workbook Lesson 2.3
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Can no-picture paintings show feeling?
Learn and Demonstrate	10	Show Pollock and Krasner works. Discuss the role of process.
Create	25	Gesture Painting.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Equating spontaneity with lack of skill.

SUPPORT

- Feeling-to-color chart.

EXTEND

- Watch a short film of Pollock painting and describe his movements.

STUDENT LESSON 2.3 · WITH ANSWERS

Lesson 2.3: Abstract Expressionism: Action Painting

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 2.3 in this book with your teacher.
- [ ] Do the Create activity: Gesture Painting.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.3, Part A.
- [ ] Complete the rest of Workbook Lesson 2.3 (Parts B–E).

LOOK AND WONDER

Can a painting with no pictures in it show a feeling? Which feeling might a splattered, swirling painting show?

After World War II, New York became a new center of the art world. A group of artists called the Abstract Expressionists made huge abstract paintings that expressed emotions and energy instead of showing objects.

Jackson Pollock laid his canvases on the floor and dripped, poured, and flung paint from sticks and hardened brushes while moving around them. Paintings such as Autumn Rhythm (Number 30) (1950) are webs of looping lines. Critics called this action painting, because each mark is a gesture that records the artist's movement. The process became part of the meaning.

Lee Krasner, Pollock's wife and an important painter in her own right, made bold, rhythmic abstractions. Willem de Kooning used fast, slashing brushstrokes. Although the paintings may look accidental, these artists made many careful choices about color, layers, and when a painting was finished.

! WATCH OUT

"My little brother could do that" misses the point. Action painters controlled color, rhythm, layering, and balance across huge canvases, and they chose when to stop.

CREATE · GESTURE PAINTING

How can movement become a painting?

You need: large paper (or paper taped to the floor outdoors); tempera paint thinned with water in cups; sticks, old brushes, and squeeze bottles; drop cloth or newspaper.

1 Choose a feeling (calm, joyful, angry, excited) and two or three colors that fit it.

2 Make your first layer with large arm movements.

3 Let it dry slightly; add a second layer with a different tool and speed.

4 Step back after each layer and decide what the painting needs. Stop when it feels finished.

Record: your painting and a note naming the feeling and the gestures you used.

Safety: Work outdoors or on a covered floor; wear old clothes.

★ KEY IDEA

Abstract Expressionists expressed feeling through large abstract paintings. Action painters such as Pollock made the gesture and process part of the art.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What is abstract art?

Answer: art that uses color, line, shape, and texture without showing recognizable objects

2. How did Pollock paint?

Answer: He dripped and poured paint onto canvas laid on the floor while moving around it.

3. Why is it called action painting?

Answer: Each mark records the artist's body movement (gesture).

Workbook Answer Key · Lesson 2.3

#	Question	Answer
1	What is abstract art?	art that uses color, line, shape, and texture without showing recognizable objects
2	How did Pollock paint?	He dripped and poured paint onto canvas laid on the floor while moving around it.
3	Why is it called action painting?	Each mark records the artist's body movement (gesture).
4	A mark that records the artist's movement	gesture
5	The way an artwork is made	process
6	Look at a Pollock painting online. Describe the lines, colors, and layers. What feeling or rhythm do you sense?	Answers vary; cites visual evidence.
7	Describe two choices you made while creating your gesture painting, including when you stopped.	Answers vary; two deliberate choices.

#	Question	Answer
8	Respond to someone who says, “Anyone could make that.”	e.g. The artist made careful choices about color, rhythm, layering, and when to stop.

LESSON 2.4 · TEACHER PLAN
Week 2 · Lesson 2 of 2

Unit 2: Modern Art and Architecture

Lesson 2.4: Color Field Painting

Student goal	I can explain how Color Field painters used large areas of color to create mood and make a color field study.
Objective	Students analyze Color Field painting and create color studies.
Standard	NCAS VA:Re7.2, VA:Cr2.1 — Analyze how color creates mood; experiment with media.
Pacing	Unit 2, week 2, lesson 2 of 2
Time	About 45 minutes
Materials	Watercolor paper, paints, wide brushes, sponges, workbook Lesson 2.4
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	A one-color wall.
Learn and Demonstrate	10	Show Rothko and Frankenthaler works. Demonstrate wet-on-wet soft edges.
Create	25	Color Field Study.
Reflect	5	Students compare moods; store studies in the portfolio. Next: Sketchbook Check.

COMMON MISCONCEPTIONS

- Hard-edged rectangles instead of soft edges.

SUPPORT

- Mood-to-color planning chart.

EXTEND

- Make a color field study for a song you love.

STUDENT LESSON 2.4 · WITH ANSWERS

Lesson 2.4: Color Field Painting

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 2.4 in this book with your teacher.
- [ ] Do the Create activity: Color Field Study.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.4, Part A.
- [ ] Complete the rest of Workbook Lesson 2.4 (Parts B–E).

LOOK AND WONDER

Stand in front of a wall painted one color. How does it make you feel? Would a different color change your mood?

Some Abstract Expressionists took a quieter path. Color Field painters covered large canvases with broad areas of color to create mood. Instead of energetic gestures, they wanted viewers to feel surrounded by color.

Mark Rothko painted large canvases with two or three stacked rectangles of color whose soft, blurry edges seem to glow and float. He wanted people to stand close, about 18 inches away, so the color would fill their vision. He said his paintings were about basic human emotions.

Helen Frankenthaler invented the soak-stain technique. In Mountains and Sea (1952), she poured thinned paint onto raw, unprimed canvas on the floor, so the color soaked into the fabric like watercolor. Her method influenced a whole generation of painters.

Choice	Possible effect
warm hues (red, orange)	energy, warmth, excitement
cool hues (blue, green)	calm, distance, sadness
high saturation	intense, bold
low saturation	quiet, muted
soft, blurred edges	glowing, floating
very large size	the viewer feels surrounded

CREATE · COLOR FIELD STUDY

How do hue, saturation, and edges change mood?

You need: watercolor paper; watercolors or thinned acrylic; a wide brush; a sponge.

1 Choose a mood and plan two or three hues that create it.

2 Wet the paper with the sponge.

3 Paint two or three stacked rectangles with soft edges, letting colors blur.

4 Make a second study with the same shapes but opposite colors and compare.

Record: both studies, labeled with the mood each creates.

★ KEY IDEA

Color Field painters used large areas of color, hue, saturation, and soft edges to create mood. Rothko stacked glowing rectangles; Frankenthaler invented soak-stain.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What did Rothko want viewers to do?

Answer: stand close so color fills their vision and they feel emotion

2. What is soak-stain?

Answer: pouring thinned paint onto raw canvas so it soaks in

3. What mood might cool, low-saturation colors create?

Answer: calm or quiet (sometimes sad)

Workbook Answer Key · Lesson 2.4

#	Question	Answer
1	What did Rothko want viewers to do?	stand close so color fills their vision and they feel emotion
2	What is soak-stain?	pouring thinned paint onto raw canvas so it soaks in
3	What mood might cool, low-saturation colors create?	calm or quiet (sometimes sad)
4	How bright or dull a color is	saturation
5	The name of a color	hue
6	Compare action painting (Lesson 2.3) and Color Field painting. Give one similarity and one difference.	Similar: both abstract and about feeling. Different: gesture and energy vs broad, calm areas of color.
7	Describe your two Color Field studies. How did changing the colors change the mood?	Answers vary; cites hue or saturation.

#	Question	Answer
8	Why do you think Rothko painted so large?	So the color would surround viewers and create a strong emotional experience.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 2.4
About 15 minutes

Sketchbook Check 2: Abstract Expressionism — Answer Key

Answers

#	Question	Answer
1	Painter who dripped paint on canvas on the floor	Jackson Pollock
2	A mark that records movement	gesture
3	Painter of glowing stacked rectangles	Mark Rothko
4	Technique invented by Helen Frankenthaler	soak-stain
5	Give one difference between action painting and Color Field painting.	Action: energetic gestures; Color Field: broad, calm areas of color.

LESSON 2.5 · TEACHER PLAN
Week 3 · Lesson 1 of 2

Unit 2: Modern Art and Architecture

Lesson 2.5: Rhythm and Geometry: Kandinsky and Mondrian

Student goal	I can explain how Kandinsky and Mondrian used line, shape, and color to create rhythm and balance, and make a geometric composition.
Objective	Students analyze rhythm and balance in geometric abstraction and create a composition.
Standard	NCAS VA:Re7.2, VA:Cr2.1 — Apply principles of design; analyze visual organization.
Pacing	Unit 2, week 3, lesson 1 of 2
Time	About 45 minutes
Materials	Rulers, markers or paint, tape, music, workbook Lesson 2.5
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	A painting with a beat.
Learn and Demonstrate	10	Show Kandinsky and Mondrian works. Explain asymmetrical balance.
Create	25	Rhythm Grid.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Making grids too symmetrical.

SUPPORT

- Balance checklist.

EXTEND

- Design a Mondrian-inspired pattern for a T-shirt or book cover.

STUDENT LESSON 2.5 · WITH ANSWERS

Lesson 2.5: Rhythm and Geometry: Kandinsky and Mondrian

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 2.5 in this book with your teacher.
- [ ] Do the Create activity: Rhythm Grid.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.5, Part A.
- [ ] Complete the rest of Workbook Lesson 2.5 (Parts B–E).

LOOK AND WONDER

Can a painting have a beat like music? What would a fast song look like as shapes and colors?

Wassily Kandinsky was one of the first artists to paint purely abstract pictures, around 1910–1913. He loved music and believed colors and shapes could affect people the way sounds do. He even named works Compositions and Improvisations, like pieces of music.

Piet Mondrian, a Dutch painter, simplified art down to the basics: straight black lines, white space, and blocks of the primary colors. In Composition with Red, Blue and Yellow (1930), a large red square is balanced by small blue and yellow rectangles. This is asymmetrical balance: the sides differ but feel equal.

Late in life, Mondrian moved to New York and fell in love with jazz and the city's grid of streets. In Broadway Boogie Woogie (1942–1943), he replaced black lines with yellow lines broken into tiny squares of red, blue, and gray, like blinking traffic and lively rhythm.

CREATE · RHYTHM GRID

Can lines and colors create a visual beat?

You need: white paper; a ruler; black marker or tape; red, yellow, and blue markers or paint; a song with a strong beat.

1. Listen to the song and tap its beat.
2. Use the ruler to draw horizontal and vertical lines that divide the paper unevenly.
3. Fill a few rectangles with primary colors; leave most white.
4. Check balance: does one side feel heavier? Adjust with a small block of color.

Record: your composition titled after the song, plus a sentence on how you created rhythm and balance.

★ KEY IDEA

Kandinsky linked abstract art to music. Mondrian used black lines, white space, and primary colors to create asymmetrical balance and, later, the rhythm of jazz and the city.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Why did Kandinsky name his paintings like music?

Answer: He believed colors and shapes affect people the way music does.

2. Which colors did Mondrian use?

Answer: the primary colors (red, yellow, blue), plus black, white, and gray

3. What is asymmetrical balance?

Answer: balance made with different things on each side that have equal visual weight

Workbook Answer Key · Lesson 2.5

#	Question	Answer
1	Why did Kandinsky name his paintings like music?	He believed colors and shapes affect people the way music does.
2	Which colors did Mondrian use?	the primary colors (red, yellow, blue), plus black, white, and gray
3	What is asymmetrical balance?	balance made with different things on each side that have equal visual weight
4	Movement made by repetition	rhythm
5	Red, yellow, and blue	primary colors
6	Look at Broadway Boogie Woogie online. How does Mondrian create a sense of music and city life?	e.g. small repeated colored squares along yellow lines feel like a beat, traffic, and lights.
7	Sketch a thumbnail plan for your Rhythm Grid. Mark where the colors go.	An uneven grid with a few color blocks placed for balance.
8	How did you balance your composition without making both sides the same?	Answers vary; e.g. a large block balanced by several small ones.

LESSON 2.6 · TEACHER PLAN
Week 3 · Lesson 2 of 2

Unit 2: Modern Art and Architecture

Lesson 2.6: Abstraction from Nature: O'Keeffe and Alma Thomas

Student goal	I can explain how artists abstracted nature through close-ups, simplification, and pattern, and create an abstraction from a natural object.
Objective	Students analyze abstraction from nature and create a three-step abstraction.
Standard	NCAS VA:Re7.1, VA:Cr1.2 — Develop ideas from observation; analyze artists' strategies.
Pacing	Unit 2, week 3, lesson 2 of 2
Time	About 45 minutes
Materials	Natural objects, viewfinders, paper, color media, workbook Lesson 2.6
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Leaf under a magnifier.
Learn and Demonstrate	10	Show O'Keeffe and Alma Thomas works. Model the three versions.
Create	25	From Nature to Abstraction.
Reflect	5	Students share their three versions; store them in the portfolio. Next: Sketchbook Check.

COMMON MISCONCEPTIONS

- Stopping at the realistic version.

SUPPORT

- Viewfinder and step cards.

EXTEND

- Read about Alma Thomas's late-life career.

STUDENT LESSON 2.6 · WITH ANSWERS

Lesson 2.6: Abstraction from Nature: O'Keeffe and Alma Thomas

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 2.6 in this book with your teacher.
- [ ] Do the Create activity: From Nature to Abstraction.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.6, Part A.
- [ ] Complete the rest of Workbook Lesson 2.6 (Parts B–E).

LOOK AND WONDER

Look at a leaf through a magnifying glass. Does it still look like a leaf, or more like a map or a pattern?

Not all abstract art starts from nothing. Many artists begin with something real and simplify it until shapes, colors, and patterns become the subject.

Georgia O'Keeffe painted flowers as enormous close-ups, filling a whole canvas with a single blossom. In works such as Jimson Weed (1936), petals curve and swirl into smooth shapes. She said she painted flowers big so busy people would take time to look at them. Later, in New Mexico, she simplified hills, bones, and sky into bold shapes.

Alma Thomas taught art in Washington, D.C., for 35 years, then became a celebrated painter in her 70s. Inspired by the flowers and trees in her garden and by views from space, she painted rows of short, bright brushstrokes that look like mosaics or sunlight through leaves, as in Resurrection (1966). In 1972, she became the first Black woman to have a solo exhibition at New York's Whitney Museum of American Art.

Strategy	O'Keeffe	Alma Thomas
starting point	a flower, a bone, a hill	garden flowers, trees, space
method	extreme close-up and smooth simplified shapes	rows of short, bright strokes
effect	a familiar thing looks new and monumental	shimmering color and rhythm

CREATE · FROM NATURE TO ABSTRACTION

How can you turn a natural object into an abstract artwork?

You need: a leaf, flower, shell, or slice of fruit; a viewfinder (a small square cut in paper); drawing paper; colored pencils, markers, or paint.

1. Use the viewfinder to find a small, interesting section of your object.
2. Draw it realistically, filling the whole square.
3. Make a second version that simplifies the shapes and changes the colors.
4. Make a third version using Alma Thomas-style rows of short strokes.

Record: all three versions side by side, labeled realistic, simplified, and pattern.

★ KEY IDEA

Artists can abstract nature by zooming in, simplifying shapes, and turning color into pattern. O'Keeffe used close-ups; Alma Thomas used rows of bright strokes.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. Why did O'Keeffe paint flowers so large?

Answer: so busy people would take time to look

2. What did Alma Thomas's paintings look like?

Answer: rows of short, bright strokes, like mosaics

3. What does it mean to simplify in art?

Answer: to leave out details and keep the most important shapes

Workbook Answer Key · Lesson 2.6

#	Question	Answer
1	Why did O'Keeffe paint flowers so large?	so busy people would take time to look
2	What did Alma Thomas's paintings look like?	rows of short, bright strokes, like mosaics
3	What does it mean to simplify in art?	to leave out details and keep the most important shapes
4	A view from very near	close-up
5	To leave out details	simplify

#	Question	Answer
6	Compare how O'Keeffe and Alma Thomas each abstracted nature. Use art words.	O'Keeffe: close-up, smooth simplified shapes; Thomas: pattern of short bright strokes and rhythm.
7	Which of your three versions is most interesting to you? Why?	Answers vary.
8	Is an abstraction of a leaf still about the leaf? Explain.	Answers vary; e.g. yes, it shows the leaf's essential shapes or colors in a new way.

SKETCHBOOK CHECK · ANSWER KEY
After Lesson 2.6

About 15 minutes

Sketchbook Check 3: Abstraction — Answer Key

Answers

#	Question	Answer
1	Artist who linked abstract art to music	Wassily Kandinsky
2	Mondrian's colors	red, yellow, blue (plus black, white, gray)
3	Balance with different but equal sides	asymmetrical balance
4	Artist known for huge flower close-ups	Georgia O'Keeffe
5	Draw a small Mondrian-style grid with asymmetrical balance.	Uneven grid with balanced color blocks.

LESSON 2.7 · TEACHER PLAN
Week 4 · Lesson 1 of 2

Unit 2: Modern Art and Architecture

Lesson 2.7: Twentieth-Century Architecture: Form Follows Function

Student goal	I can explain key ideas of modern architecture and design a building that fits its site and purpose.
Objective	Students analyze modern architecture and design for a site and purpose.
Standard	NCAS VA:Re7.1, VA:Cn11 — Analyze design solutions; connect art to place and purpose.
Pacing	Unit 2, week 4, lesson 1 of 2
Time	About 45 minutes
Materials	Drawing and graph paper, rulers, workbook Lesson 2.7
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	A house for your favorite place.
Learn and Demonstrate	10	Show Fallingwater, the Guggenheim, and Bauhaus buildings. Discuss form and function.
Create	25	Design for a Site.
Reflect	5	Students share one success and one thing to try next time; store work in the portfolio folder.

COMMON MISCONCEPTIONS

- Designs that ignore the site.

SUPPORT

- Needs-and-site checklist.

EXTEND

- Research the Fountainhead house in Jackson.

STUDENT LESSON 2.7 · WITH ANSWERS

Lesson 2.7: Twentieth-Century Architecture: Form Follows Function

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 2.7 in this book with your teacher.
- [ ] Do the Create activity: Design for a Site.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.7, Part A.
- [ ] Complete the rest of Workbook Lesson 2.7 (Parts B–E).

LOOK AND WONDER

If you could design a house for your favorite place in nature, what would it look like, and why?

In 1896, the American architect Louis Sullivan wrote that form follows function: a building's shape should come from what it's used for. Modern architects of the 1900s threw out heavy decoration and borrowed columns, and designed with steel, concrete, and glass.

Frank Lloyd Wright believed in organic architecture, buildings in harmony with their sites. His most famous house, Fallingwater (1935–1939) in Pennsylvania, sits right over a waterfall. Its concrete terraces are cantilevers that stretch out over the stream, echoing the rock ledges below. Wright also designed the spiraling Guggenheim Museum in New York (1959). Mississippi has a Wright house too: Fountainhead (1954) in Jackson.

In Germany, the Bauhaus school, founded by Walter Gropius in 1919, taught that good design should be simple, useful, and made for everyone. Its ideas led to the International Style: flat roofs, white walls, ribbon windows, and open floor plans.

Idea	What it looks like
form follows function	shapes that come from a building's use; little decoration
organic architecture	natural materials and shapes that fit the land
cantilever	floors or roofs that reach out with no posts beneath
International Style	flat roofs, glass walls, open interiors

CREATE · DESIGN FOR A SITE

How can a building fit its place and purpose?

You need: drawing paper and graph paper; pencil and ruler; colored pencils.

1. Choose a site (a hillside, a beach, a forest, or a city lot) and a purpose (a home, a library, a studio).
2. List three needs the building must meet.
3. Sketch a floor plan and one outside view.
4. Label one feature that follows function and one that responds to the site.

Record: your floor plan, outside view, and labeled features.

★ KEY IDEA

Modern architects designed from function and new materials. Wright's organic architecture fit buildings to their sites; the Bauhaus taught simple, useful design for everyone.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What does form follows function mean?

Answer: a building's shape should come from its purpose

2. What is a cantilever?

Answer: a beam or floor that sticks out, supported at only one end

3. Name a Frank Lloyd Wright building in Mississippi.

Answer: Fountainhead, in Jackson

Workbook Answer Key · Lesson 2.7

#	Question	Answer
1	What does form follows function mean?	a building's shape should come from its purpose
2	What is a cantilever?	a beam or floor that sticks out, supported at only one end
3	Name a Frank Lloyd Wright building in Mississippi.	Fountainhead, in Jackson
4	A floor supported at one end	cantilever
5	German school that joined art and industry	Bauhaus
6	Look at photos of Fallingwater online. Explain two ways it shows organic architecture.	e.g. built over the waterfall; terraces echo rock ledges; local stone; windows open to the forest.
7	Explain how your design meets its three needs and responds to its site.	Answers vary; addresses all three needs and the site.

#	Question	Answer
8	How is modern architecture different from the Greek Revival style of the early United States?	Modern buildings drop columns and decoration and use steel, concrete, and glass shaped by function.

LESSON 2.8 · TEACHER PLAN
Week 4 · Lesson 2 of 2

Unit 2: Modern Art and Architecture

Lesson 2.8: Modern Art Portfolio and Artist Statement

Student goal	I can select, revise, and present work from this unit with an artist statement that connects my art to modern movements.
Objective	Students curate a portfolio and write an artist statement.
Standard	NCAS VA:Pr4, VA:Pr5, VA:Re9 — Select and present artwork; evaluate and articulate artistic choices.
Pacing	Unit 2, week 4, lesson 2 of 2
Time	About 45 minutes
Materials	Student artwork, index cards, display space, workbook Lesson 2.8, Unit 2 Review
Get ready	Read the lesson, gather the studio materials, and try the Create activity yourself first so you can model it.

Lesson Flow

Part	Min	What to do and say
Look and Talk	5	Three pieces for a gallery.
Learn and Demonstrate	10	Model an artist statement. Model one revision.
Create	25	Portfolio Show.
Reflect	5	Students present their show. Next: Unit 2 Portfolio Review.

COMMON MISCONCEPTIONS

- Statements that only describe, without ideas or influences.

SUPPORT

- Statement sentence frames.

EXTEND

- Create a digital portfolio with photos and captions.

STUDENT LESSON 2.8 · WITH ANSWERS

Lesson 2.8: Modern Art Portfolio and Artist Statement

STUDENT'S ASSIGNMENT

- [ ] Read Lesson 2.8 in this book with your teacher.
- [ ] Do the Create activity: Portfolio Show.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.8, Part A.
- [ ] Complete the rest of Workbook Lesson 2.8 (Parts B–E).

LOOK AND WONDER

If a gallery offered to show three pieces of your art, which would you choose, and what would you want visitors to know?

Artists don't show everything they make. They curate a portfolio of their strongest and most meaningful work and write an artist statement so viewers understand their ideas. In this lesson, you'll curate work from Units 1 and 2 and connect it to the modern movements you studied.

An artist statement answers...	Example sentence
What did you make?	This series explores dreams and memory through collage and gesture.
How did you make it?	I combined magazine images, changed their scale, and added drawn shadows.
Who influenced you?	Like Magritte, I juxtaposed objects to make viewers question what they see.
What do you want viewers to feel or think?	I hope viewers look twice and wonder what is real.

STEP BY STEP · REVISE BEFORE YOU PRESENT

A gesture painting feels muddy in the center.

1 Critique: the colors mixed too much where layers overlapped.

2 Plan: add one clean, bright gesture across the center.

3 Decide: step back and stop when the balance feels right.

Look for: Revising one piece can make a portfolio much stronger.

CREATE · PORTFOLIO SHOW

How can you present your work like a professional artist?

You need: your Unit 1 and Unit 2 artwork; index cards; a wall, table, or digital slides.

1 Choose three to five pieces with a common thread (a theme, technique, or movement).

2 Revise one piece using feedback.

3 Write a label for each piece and one artist statement for the group.

4 Present your show to your family and answer their questions.

Record: photos of your show, your labels, and your artist statement.

★ KEY IDEA

Artists curate portfolios and write artist statements that explain their ideas, process, and influences.

✎ CHECK YOUR UNDERSTANDING

Answers are shown in color.

1. What does it mean to curate a portfolio?

Answer: to choose and arrange your strongest, most meaningful work

2. Name three questions an artist statement answers.

Answer: what you made, how you made it, who influenced you (and what viewers should feel or think)

3. Why revise a piece before presenting it?

Answer: to make the portfolio stronger by improving its weakest part

Workbook Answer Key · Lesson 2.8

#	Question	Answer
1	What does it mean to curate a portfolio?	to choose and arrange your strongest, most meaningful work
2	Name three questions an artist statement answers.	what you made, how you made it, who influenced you (and what viewers should feel or think)
3	Why revise a piece before presenting it?	to make the portfolio stronger by improving its weakest part
4	A collection of an artist's best work	portfolio
5	An artist or idea that affects your work	influence
6	Piece 1 and why you chose it	Answers vary.

#	Question	Answer
7	Piece 2 and why you chose it	Answers vary.
8	Piece 3 and why you chose it	Answers vary.
9	The common thread	Answers vary.
10	Write your artist statement. Answer all four questions from the chart and name at least one modern artist who influenced you.	Answers vary; all four questions and one named influence.
11	What feedback did your family give during your show? What would you change next time?	Answers vary.

UNIT REVIEW · ANSWER KEY
Study before the unit test

About 30 minutes

Unit 2 Review — Answer Key

Use as a study session or portfolio sort before the review.

Answers

#	Question	Answer
1	Surrealism	art of dreams and the unconscious
2	juxtaposition	unrelated things side by side
3	gesture	a mark that records movement
4	saturation	brightness or dullness of a color
5	rhythm	movement through repetition
6	form follows function	shape comes from purpose
7	Sort your Unit 2 work by movement: Surrealism, Abstract Expressionism, abstraction, and architecture. Which piece will anchor your portfolio show? Why?	Answers vary.

PORTFOLIO REVIEW · ANSWER KEY
At the end of the unit
About 45 minutes

Unit 2 Portfolio Review — Answer Key

Answers

#	Question	Answer
1	Which movement explored dreams and the unconscious? A. Bauhaus B. Surrealism C. Color Field D. Greek Revival	B. Surrealism
2	Who made action paintings by dripping paint? A. Rothko B. Mondrian C. Pollock D. O'Keeffe	C. Pollock
3	What is soak-stain?	pouring thinned paint onto raw canvas so it soaks in
4	What is asymmetrical balance?	different sides with equal visual weight
5	Name one idea of modern architecture.	e.g. form follows function, organic architecture, cantilevers, simple Bauhaus design
6	Name a Frank Lloyd Wright building.	Fallingwater, the Guggenheim, or Fountainhead
7	Choose one artwork from this unit. Describe it, analyze how the artist used two elements or principles of art, and interpret its meaning.	Rubric: accurate description (1); analysis of two elements/principles (1); supported interpretation (1).
8	Your teacher will score your portfolio show with this rubric. Then write two sentences about your strongest piece.	Rubric (1 point each): three to five pieces with a common thread; evidence of one modern technique; evidence of revision; complete labels; an artist statement naming an influence; a clear presentation.

Scoring

Score	What it means / next step
13–15 (85%+)	Excellent: strong skills and thoughtful choices.
11–12	Solid: revisit one technique.
Below 11	Redo one studio activity with support.

Grade 7 Art

Teacher Edition

A full year of Grade 7 arts: drawing, painting, and design; music; art history; theater and dance; media arts; and sculpture. Every lesson pairs looking closely at real artwork with hands-on studio time, and the year ends with a portfolio and a show.

This Teacher Edition holds everything needed to teach: a week-by-week pacing guide, a guided lesson plan for every lesson with timing, discussion prompts, common misconceptions, support and extension ideas, and complete answer keys.
