Grade 4 - Khan Primary Curriculum: Printable Gap Assessments

Khan Academy is the primary source for Math and core ELA. Use its named units in course order within the calendar pacing. Grade 7 Science and early World History use appropriate Khan unit selections with required gap materials. Grade 4 Science, Mississippi/regional studies, Spanish, composition, and hands-on work require the listed gap curriculum. Friday weeks 1-3: Khan quiz or teacher-assigned exercise checks plus the printable gap quiz. Friday week 4: completed-unit Khan tests plus comprehensive printable gap assessment. Record first-attempt scores before retakes; keep Khan mastery progress separately. Assign these items in the existing Khan teacher accounts; links on VenvLearning do not create assignments or sync scores. Advance only after sufficient practice; unfinished units carry forward. Printed original assessment books are archived and no longer the current sequence.

Grade 4 · Module 1 Week 1 Friday gap quiz

Scheduled: 2026-10-16 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 4.NBT.1-4 | ELA: RL.4.1-10; RI.4.1-10; W.4.1-9; L.4.1-6; SL.4.1-6 (grade-level coverage; module skill targets below) | Science: L.4.1; science/engineering practices | Social Studies: MS CCRS SS 4.MS.1 (Mississippi regions/geography) | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Writing and conventions · required gap check - 8 points

Score: _____ / 8

A Library Garden

Maya wanted a quiet place to read outside. She asked the librarian if the empty corner of the courtyard could become a garden. First, Maya measured the space. Next, she drew a plan with a path and two benches. Her friends brought seed packets, and an adult helped them plant. A week later, Maya noticed that the plants beside the wall were dry. She moved the watering can closer to them and made a watering chart. By spring, visitors were reading beside green leaves. Maya learned that a good plan needs careful observation as well as enthusiasm.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Science - 10 points

Score: _____ / 10

W1 data: A fictional class compares pulse counts at rest and after activity. Trial A: 71 pulse counts in one minute; Trial B: 101 pulse counts in one minute. These are invented assessment data, not a claim about a real investigation.

1. Why do scientists record observations? (1 point)

2. How is a system different from one part? (1 point)

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

4. Use W1 data. State one observation without claiming its cause. (1 point)

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

6. Draw a simple system with at least three interacting parts. (3 points)

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Hola. Me llamo Ana. ¿Cómo te llamas?
Word bank: hola, adiós, gracias, por favor, buenos días, hasta luego.

1. Translate into English: hola. (1 point)

2. Translate into Spanish: goodbye. (1 point)

3. Complete: Me ___ Ana. (My name is Ana.) (1 point)

4. Oral task (teacher listens): Use 2 short statements or a 2-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Grade 4 · Module 1 Week 2 Friday gap quiz

Scheduled: 2026-10-23 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 4.NBT.1-4 | ELA: RL.4.1-10; RI.4.1-10; W.4.1-9; L.4.1-6; SL.4.1-6 (grade-level coverage; module skill targets below) | Science: L.4.1; science/engineering practices | Social Studies: MS CCRS SS 4.MS.1 (Mississippi regions/geography) | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Score: _____ / 8

The School Butterfly Box

The class watched a butterfly develop. At first, tiny eggs rested on a leaf. Caterpillars hatched and ate plant material. Later, each caterpillar formed a chrysalis. Finally, an adult butterfly emerged. Students recorded dates and made drawings instead of touching the animals. One student wrote that a butterfly is simply a small bird. The teacher asked the class to check its evidence. Their notes showed an insect with six legs, not a bird with two. Careful records helped them correct the mistake. Watching one animal did not tell them everything about every butterfly, but it gave them a useful beginning.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

The teacher asked the class to check its evidence. Their notes showed an insect with six legs, not a bird with two. Careful records helped them correct the mistake. Watching one animal did not tell them everything about every butterfly, but it gave them a useful beginning.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

3. Connect your writing to this module's Khan reading/grammar goals. Name two skills, show an example of each in your own writing, and explain your choices. (4 points)

Score: _____ / 8

The Sparrow and the Lantern

This is an original fable. A sparrow bragged that she could light the whole forest with one lantern. An owl asked her to test the lantern before promising too much. The sparrow refused. At dusk she lifted the lantern, but its light reached only the nearest branch. Embarrassed, she almost flew away. Then she invited the fireflies to help. Together they marked a safe path to the clearing. The sparrow thanked each helper and promised to listen before boasting again. The owl did not laugh at her mistake; he praised the useful path.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

The Missing Drum

Leo was ready to tell a story with sound effects, but his cardboard drum had disappeared. "I cannot perform without it," he said. His sister pointed to a box of empty containers. Leo tapped a large plastic bowl, then a smaller cup. The sounds were different. He practiced a steady beat and asked his sister to read the first line of the story. At the performance, he used a soft beat for footsteps and a louder beat for thunder. The audience followed the story closely. Afterward, Leo found his old drum behind a chair. He smiled because solving the problem had given him a better performance.

The Missing Drum

Leo was ready to tell a story with sound effects, but his cardboard drum had disappeared. "I cannot perform without it," he said. His sister pointed to a box of empty containers. Leo tapped a large plastic bowl, then a smaller cup. The sounds were different. He practiced a steady beat and asked his sister to read the first line of the story. At the performance, he used a soft beat for footsteps and a louder beat for thunder. The audience followed the story closely. Afterward, Leo found his old drum behind a chair. He smiled because solving the problem had given him a better performance.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

3. Connect your writing to this module's Khan reading/grammar goals. Name two skills, show an example of each in your own writing, and explain your choices. (4 points)

Keeping Water Cool

Two students investigated how to keep a cup of water cool. They used identical cups, the same amount of water, and the same starting temperature. One cup was wrapped in cloth; the other was left uncovered. After twenty minutes in the same room, they measured both temperatures. They wrote the results in a table. They did not call one measurement proof that cloth is always the best material. Instead, they proposed trying another material and repeating the test. Their report explained the question, method, observations, and limits of their conclusion. A clear report lets another reader understand what was tested and what still needs investigation.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

A Case for Shade

Our reading area should have a shaded bench. At noon, the sunny bench can be uncomfortable. A shaded seat would give readers another choice. We can first move a portable shade nearby and record how many students use the area. Then we can ask whether the change helped. Some people worry that a permanent structure would cost too much. That is a fair concern, so a temporary test is a sensible first step. The goal is not to promise that every reader will love the bench. The goal is to use evidence to decide whether a small improvement is worthwhile.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

A Case for Shade

Our reading area should have a shaded bench. At noon, the sunny bench can be uncomfortable. A shaded seat would give readers another choice. We can first move a portable shade nearby and record how many students use the area. Then we can ask whether the change helped. Some people worry that a permanent structure would cost too much. That is a fair concern, so a temporary test is a sensible first step. The goal is not to promise that every reader will love the bench. The goal is to use evidence to decide whether a small improvement is worthwhile.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

3. Connect your writing to this module's Khan reading/grammar goals. Name two skills, show an example of each in your own writing, and explain your choices. (4 points)

Rain at the Window

Original poem:
Rain drums softly on the glass,
Silver footsteps cross the grass.
Clouds pull blankets through the sky,
While busy birds go fluttering by.
A puddle holds a crooked tree;
The wind sings low and talks to me.
Then sunlight opens one bright door,
And rain retreats to drum no more.

Prose companion: A short rain shower passed over the yard. Wind moved the clouds. When sunlight returned, the shower stopped.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

A Map for the Show

Original short script:
[Nora puts a blank map on the table.]
NORA: Our trip story needs a map.
ELI: I can mark the river, but I do not know where to put the mountains.
NORA: Let us compare two sources before we draw.
[They examine a book and a map key.]
ELI: Now I see how the symbols work.
NORA: We can explain our choices to the audience.
Narrator: The friends label their route and practice their presentation.

Comparison note: In Greek tradition, Hermes is a messenger associated with travel; the Roman god Mercury has similar roles. Their names differ, but the shared roles make a useful comparison.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Science - 10 points

Score: _____ / 10

W3 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 13 milliliters of water collected; Trial B: 21 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. How can human actions affect land or water? (1 point)

2. Why compare evidence before and after a change? (1 point)

3. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

4. Use W3 data. State one observation without claiming its cause. (1 point)

5. Use W3 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

6. Show one impact and a possible improvement. (3 points)

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Hola. Me llamo Ana. Me gusta leer.
Word bank: hola, el libro, la familia, la comida, hace sol, estudiar.

1. Translate into English: hola. (1 point)

2. Translate into Spanish: the book. (1 point)

3. Complete: Me ___ Ana. (1 point)

4. Oral task (teacher listens): Use 2 short statements or a 2-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Grade 4 · Module 8 Comprehensive gap assessment

Scheduled: 2027-06-18 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 4.MD.1-3 | ELA: RL.4.1-10; RI.4.1-10; W.4.1-9; L.4.1-6; SL.4.1-6 (grade-level coverage; module skill targets below) | Science: E.4.9C; E.4.10 | Social Studies: MS CCRS SS Grade 4 - Mississippi Studies & U.S. regions | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Score: _____ / 28

W1 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 11 milliliters of water collected; Trial B: 19 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W2 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 12 milliliters of water collected; Trial B: 20 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W3 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 13 milliliters of water collected; Trial B: 21 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W4 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 14 milliliters of water collected; Trial B: 22 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. What is deposition? (1 point)

2. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

3. Draw a rock-to-sediment-to-deposit sequence. (3 points)

4. Why study past hazards in a place? (1 point)

5. Use W2 data. Which trial has the higher recorded value, and by how much? (2 points)

6. Model a hazard and one way to reduce an impact. (3 points)

7. Why compare evidence before and after a change? (1 point)

8. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

9. Show one impact and a possible improvement. (3 points)

10. What makes a fair design test? (1 point)

11. Use W4 data. Which trial has the higher recorded value, and by how much? (2 points)

12. Plan a model erosion-control test. (3 points)

13. Choose one of the supplied data comparisons. Write a claim supported by those data, give the two values as evidence, and explain what further information would be needed for a causal explanation. (4 points)

Social Studies - 24 points

Score: _____ / 24

W1 background: Combine information to explain connections or a larger pattern. Not every place fits a broad pattern. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W2 background: Distances, landforms, time, and resources affect travel choices. Routes, distances, landmarks, climate needs, and economic/cultural connections. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W3 background: They exchange goods, services, labor, knowledge, and resources. Evidence supports accurate claims; stereotypes erase variation. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W4 background: It organizes evidence into a coherent explanation or comparison. Sources/groupings/measurements can have limits. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. What does synthesis mean in a regional study? (1 point)

2. Why should a region summary include exceptions? (1 point)

3. Create a U.S.-regions summary. (3 points)

4. Why plan a route before a multi-region trip? (1 point)

5. What can a trip plan show besides state names? (1 point)

6. Plan a hypothetical trip across two regions. (3 points)

7. How can regions depend on one another economically? (1 point)

8. Why do comparisons need evidence rather than stereotypes? (1 point)

9. Compare two regions' economy/culture using the same criteria. (3 points)

10. What makes a presentation a synthesis rather than isolated facts? (1 point)

11. Why explain uncertainty in a regional project? (1 point)

12. Plan a regional-project presentation. (3 points)

13. Choose one background note. Describe an additional perspective or source that could improve it, and explain what it might reveal or challenge. (4 points)

Writing and conventions · required gap check - 8 points

Score: _____ / 8

The Final Project

Tara's class planned a display about their community. Tara chose a question: How can we help visitors understand the river? She gathered a map, a short library article, and notes from a visit. She labeled each source so she could find it again. Her first poster had many facts but no clear order. After reading it aloud, Tara grouped the information into three sections: location, uses, and ways to care for the river. She checked a number against the original article instead of trusting her memory. At the display, she explained both what she had learned and one question she still wanted to investigate.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)
