The School Butterfly Box

The class watched a butterfly develop. At first, tiny eggs rested on a leaf. Caterpillars hatched and ate plant material. Later, each caterpillar formed a chrysalis. Finally, an adult butterfly emerged. Students recorded dates and made drawings instead of touching the animals. One student wrote that a butterfly is simply a small bird. The teacher asked the class to check its evidence. Their notes showed an insect with six legs, not a bird with two. Careful records helped them correct the mistake. Watching one animal did not tell them everything about every butterfly, but it gave them a useful beginning.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

Answer / scoring: 5-point rubric: accurate central message (1), two relevant text details (2), logical explanation/organization (1), clear sentences/conventions (1). Accept supported interpretations.

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)
