Grade 4 · Module 3 Comprehensive gap assessment - TEACHER ANSWER KEY

Scheduled: 2027-01-22 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Math: 4.NBT.6; 4.OA.4-5 | ELA: RL.4.1-10; RI.4.1-10; W.4.1-9; L.4.1-6; SL.4.1-6 (grade-level coverage; module skill targets below) | Science: P.4.6A-B | Social Studies: MS CCRS SS Grade 4 - Mississippi Studies & Regions | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Writing and conventions · required gap check - 12 points

Score: _____ / 12

The Sparrow and the Lantern

This is an original fable. A sparrow bragged that she could light the whole forest with one lantern. An owl asked her to test the lantern before promising too much. The sparrow refused. At dusk she lifted the lantern, but its light reached only the nearest branch. Embarrassed, she almost flew away. Then she invited the fireflies to help. Together they marked a safe path to the clearing. The sparrow thanked each helper and promised to listen before boasting again. The owl did not laugh at her mistake; he praised the useful path.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

Answer / scoring: 5-point rubric: accurate central message (1), two relevant text details (2), logical explanation/organization (1), clear sentences/conventions (1). Accept supported interpretations.

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Answer / scoring: 3-point rubric: two effective revisions (2); accurate explanation of one improvement (1).

3. Connect your writing to this module's Khan reading/grammar goals. Name two skills, show an example of each in your own writing, and explain your choices. (4 points)

Answer / scoring: 4-point rubric: two appropriate module skills identified (2), two accurate applications explained (2). Check against the module's listed learning goals.

Science - 28 points

Score: _____ / 28

W1 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 21 temperature in degrees C; Trial B: 29 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

W2 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 22 temperature in degrees C; Trial B: 30 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

W3 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 23 temperature in degrees C; Trial B: 31 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

W4 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 24 temperature in degrees C; Trial B: 32 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

1. In which direction does heat transfer naturally between objects? (1 point)

Answer / scoring: From higher temperature toward lower temperature.

2. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

3. Draw heat transfer from a warm object to a cooler one. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Two temperatures identified; arrow from warmer to cooler; transfer reduces the difference.

4. What is a light source? (1 point)

Answer / scoring: Something that produces light, such as the Sun or a lamp.

5. Use W2 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

6. Model how light allows a person to see a book. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Source to book to eye arrows; book reflects rather than produces the light.

7. What is refraction? (1 point)

Answer / scoring: A change in light's direction as it passes between materials where its speed differs.

8. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

9. Draw reflection and refraction as different paths. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Reflection returns from surface; refraction crosses a boundary and changes direction.

10. What belongs in a claim-evidence explanation? (1 point)

Answer / scoring: An answer to the question, relevant observations/data, and reasoning.

11. Use W4 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

12. Design a comparison of two reflective surfaces. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Same light source and distance, different surface, a measure/observation, and a cautious claim.

13. Choose one of the supplied data comparisons. Write a claim supported by those data, give the two values as evidence, and explain what further information would be needed for a causal explanation. (4 points)

Answer / scoring: Rubric (4): accurate limited claim (1); two correct data values (1); logical connection to claim (1); relevant limitation/next test (1). Accept varied claims bounded by the supplied data.

Social Studies - 24 points

Score: _____ / 24

W1 background: No; Indigenous communities, including the Mississippi Band of Choctaw Indians, continue today. They provide community knowledge and perspectives rather than outside assumptions only. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W2 background: Water, land, resources, transport, and hazards affect choices. No; technology, history, culture, and other factors also matter. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W3 background: Communities have different histories, experiences, beliefs, and practices. Its meaning and use can vary among people and over time. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W4 background: Evidence used to learn about the past, such as documents, objects, maps, or accounts. Each source can offer limited or different evidence. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Are Indigenous peoples of Mississippi only part of the past? (1 point)

Answer / scoring: No; Indigenous communities, including the Mississippi Band of Choctaw Indians, continue today.

2. Why use a tribe's own materials when learning about its culture? (1 point)

Answer / scoring: They provide community knowledge and perspectives rather than outside assumptions only.

3. Plan a respectful study of an Indigenous community. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Identify a community source, distinguish past/present, and avoid treating all tribes as identical.

4. How can geography influence settlement? (1 point)

Answer / scoring: Water, land, resources, transport, and hazards affect choices.

5. Does geography completely determine people's choices? (1 point)

Answer / scoring: No; technology, history, culture, and other factors also matter.

6. Model two factors affecting settlement. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Two relevant factors with a plausible relationship and acknowledgement of other influences.

7. Why can traditions differ among communities in one region? (1 point)

Answer / scoring: Communities have different histories, experiences, beliefs, and practices.

8. Why should a tradition be described with context? (1 point)

Answer / scoring: Its meaning and use can vary among people and over time.

9. Compare two traditions without ranking one culture as better. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Use respectful descriptive criteria, sources, and similarities/differences.

10. What is a historical source? (1 point)

Answer / scoring: Evidence used to learn about the past, such as documents, objects, maps, or accounts.

11. Why compare sources for a regional-history project? (1 point)

Answer / scoring: Each source can offer limited or different evidence.

12. Create a short regional-history project plan. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Question, time/place, two sources, evidence notes, and a presentation idea.

13. Choose one background note. Describe an additional perspective or source that could improve it, and explain what it might reveal or challenge. (4 points)

Answer / scoring: Rubric (4): identifies chosen note/claim (1); relevant additional source/perspective (1); explains new insight/check (1); recognizes limits rather than treating one source as complete truth (1).

Spanish - 12 points

Score: _____ / 12

Spanish model and vocabulary (cue support allowed)

Hola. Me llamo Ana. Me gusta leer.
Word bank: hola, el libro, la familia, la comida, hace sol, estudiar.

1. Week 1: Translate blue into Spanish. (1 point)

Answer / scoring: azul

2. Week 2: Write 42 in Spanish. (1 point)

Answer / scoring: cuarenta y dos

3. Week 3: Choose the question word meaning where: ___ . (1 point)

Answer / scoring: dónde

4. Week 4: Complete: Me ___ Ana. (1 point)

Answer / scoring: llamo

5. Read the supplied Spanish model. Give its meaning in English. (2 points)

Answer / scoring: Hello. My name is Ana. I like reading.

6. Write one new correct sentence using vocabulary from this module. (2 points)

Answer / scoring: One point for relevant vocabulary; one for a meaningful correct sentence. Accept varied answers.

7. Oral task (teacher listens): Use 4 short statements or a 4-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Hola. Me llamo Ana. Me gusta leer. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
