Grade 4 · Module 4 Comprehensive gap assessment - TEACHER ANSWER KEY

Scheduled: 2027-02-19 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Math: 4.NF.1-2 | ELA: RL.4.1-10; RI.4.1-10; W.4.1-9; L.4.1-6; SL.4.1-6 (grade-level coverage; module skill targets below) | Science: P.4.6A,C | Social Studies: MS CCRS SS Grade 4 - civics within Mississippi Studies | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Writing and conventions · required gap check - 12 points

Score: _____ / 12

The Missing Drum

Leo was ready to tell a story with sound effects, but his cardboard drum had disappeared. "I cannot perform without it," he said. His sister pointed to a box of empty containers. Leo tapped a large plastic bowl, then a smaller cup. The sounds were different. He practiced a steady beat and asked his sister to read the first line of the story. At the performance, he used a soft beat for footsteps and a louder beat for thunder. The audience followed the story closely. Afterward, Leo found his old drum behind a chair. He smiled because solving the problem had given him a better performance.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

Answer / scoring: 5-point rubric: accurate central message (1), two relevant text details (2), logical explanation/organization (1), clear sentences/conventions (1). Accept supported interpretations.

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Answer / scoring: 3-point rubric: two effective revisions (2); accurate explanation of one improvement (1).

3. Connect your writing to this module's Khan reading/grammar goals. Name two skills, show an example of each in your own writing, and explain your choices. (4 points)

Answer / scoring: 4-point rubric: two appropriate module skills identified (2), two accurate applications explained (2). Check against the module's listed learning goals.

Science - 28 points

Score: _____ / 28

W1 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 21 temperature in degrees C; Trial B: 29 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

W2 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 22 temperature in degrees C; Trial B: 30 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

W3 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 23 temperature in degrees C; Trial B: 31 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

W4 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 24 temperature in degrees C; Trial B: 32 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

1. How are pitch and volume different? (1 point)

Answer / scoring: Pitch relates to vibration frequency; loudness relates partly to amplitude.

2. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

3. Draw a vibrating source and explain pitch versus loudness. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Label source/vibration; faster vibration means higher pitch; larger amplitude can mean louder sound.

4. What is an insulator? (1 point)

Answer / scoring: A material that resists movement of electric charge.

5. Use W2 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

6. Model a simple test comparing a conductor and an insulator. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Same battery/bulb/wires; change only test material; predict completed versus interrupted circuit.

7. Name an energy change in a battery-powered lamp. (1 point)

Answer / scoring: Stored chemical energy to electrical energy to light and thermal energy.

8. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

9. Draw a battery, wires, and bulb in a closed circuit. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Complete path; correct labels and an energy-change explanation.

10. What is a design constraint? (1 point)

Answer / scoring: A limit such as materials, time, size, or cost.

11. Use W4 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

12. Plan a sound or electric device with one goal and one constraint. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Goal, realistic constraint, labeled design, and a test/improvement step.

13. Choose one of the supplied data comparisons. Write a claim supported by those data, give the two values as evidence, and explain what further information would be needed for a causal explanation. (4 points)

Answer / scoring: Rubric (4): accurate limited claim (1); two correct data values (1); logical connection to claim (1); relevant limitation/next test (1). Accept varied claims bounded by the supplied data.

Social Studies - 24 points

Score: _____ / 24

W1 background: Make/enforce laws, provide services, protect rights, or manage public decisions. State government addresses statewide matters; local governments address communities within their authority. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W2 background: An action supporting community/public life, such as following laws or participating responsibly. Learn about issues, discuss respectfully, help a community project, or communicate ideas. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W3 background: Shared history, identity, ideals, or institutions, interpreted in context. They serve public/community purposes and are organized for those roles. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W4 background: Different resources and needs can produce different solutions. Decisions have benefits, costs, and potentially unequal effects. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. What is one role of government? (1 point)

Answer / scoring: Make/enforce laws, provide services, protect rights, or manage public decisions.

2. How can state and local governments differ? (1 point)

Answer / scoring: State government addresses statewide matters; local governments address communities within their authority.

3. Compare one state service and one local service. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Appropriate examples and explanation of the different scale/responsibility.

4. What is a civic responsibility? (1 point)

Answer / scoring: An action supporting community/public life, such as following laws or participating responsibly.

5. How can a child participate in civic life? (1 point)

Answer / scoring: Learn about issues, discuss respectfully, help a community project, or communicate ideas.

6. Plan a civic action suitable for a student. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Defined concern, appropriate action, affected people, and a way to evaluate results.

7. What can a public symbol represent? (1 point)

Answer / scoring: Shared history, identity, ideals, or institutions, interpreted in context.

8. Why are libraries and schools called public institutions? (1 point)

Answer / scoring: They serve public/community purposes and are organized for those roles.

9. Explain one public institution's purpose. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Institution, service, people served, and a reason it matters.

10. Why compare how communities solve a civic problem? (1 point)

Answer / scoring: Different resources and needs can produce different solutions.

11. Why should a plan consider people affected by it? (1 point)

Answer / scoring: Decisions have benefits, costs, and potentially unequal effects.

12. Compare two civic solutions. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Common problem, benefits/costs, who is affected, and an evidence-based choice.

13. Choose one background note. Describe an additional perspective or source that could improve it, and explain what it might reveal or challenge. (4 points)

Answer / scoring: Rubric (4): identifies chosen note/claim (1); relevant additional source/perspective (1); explains new insight/check (1); recognizes limits rather than treating one source as complete truth (1).

Spanish - 12 points

Score: _____ / 12

Spanish model and vocabulary (cue support allowed)

Mi hermana se llama Ana. Mi familia es amable.
Word bank: la madre, el padre, la hermana, el hermano, la abuela, la familia.

1. Week 1: Complete: Mi ___ es la madre de mi madre. (grandmother) (1 point)

Answer / scoring: abuela

2. Week 2: Complete: ___ libros. (my books) (1 point)

Answer / scoring: Mis

3. Week 3: Complete: Yo ___ doce años. (1 point)

Answer / scoring: tengo

4. Week 4: Complete: Mi ___ es la madre de mi madre. (grandmother) (1 point)

Answer / scoring: abuela

5. Read the supplied Spanish model. Give its meaning in English. (2 points)

Answer / scoring: My sister's name is Ana. My family is kind.

6. Write one new correct sentence using vocabulary from this module. (2 points)

Answer / scoring: One point for relevant vocabulary; one for a meaningful correct sentence. Accept varied answers.

7. Oral task (teacher listens): Use 4 short statements or a 4-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Mi hermana se llama Ana. Mi familia es amable. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
