Grade 4 · Module 9 Comprehensive gap assessment - TEACHER ANSWER KEY

Scheduled: 2027-07-16 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Math: Cumulative Grade 4 math standards | ELA: RL.4.1-10; RI.4.1-10; W.4.1-9; L.4.1-6; SL.4.1-6 (grade-level coverage; module skill targets below) | Science: Cumulative L.4.1-2; P.4.6; E.4.9-10 | Social Studies: Cumulative MS CCRS SS Grade 4 | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Writing and conventions · required gap check - 12 points

Score: _____ / 12

The Final Project

Tara's class planned a display about their community. Tara chose a question: How can we help visitors understand the river? She gathered a map, a short library article, and notes from a visit. She labeled each source so she could find it again. Her first poster had many facts but no clear order. After reading it aloud, Tara grouped the information into three sections: location, uses, and ways to care for the river. She checked a number against the original article instead of trusting her memory. At the display, she explained both what she had learned and one question she still wanted to investigate.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

Answer / scoring: 5-point rubric: accurate central message (1), two relevant text details (2), logical explanation/organization (1), clear sentences/conventions (1). Accept supported interpretations.

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Answer / scoring: 3-point rubric: two effective revisions (2); accurate explanation of one improvement (1).

3. Connect your writing to this module's Khan reading/grammar goals. Name two skills, show an example of each in your own writing, and explain your choices. (4 points)

Answer / scoring: 4-point rubric: two appropriate module skills identified (2), two accurate applications explained (2). Check against the module's listed learning goals.

Science - 28 points

Score: _____ / 28

W1 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 11 milliliters of water collected; Trial B: 19 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W2 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 12 milliliters of water collected; Trial B: 20 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W3 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 13 milliliters of water collected; Trial B: 21 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W4 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 14 milliliters of water collected; Trial B: 22 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. Why identify a system's boundary? (1 point)

Answer / scoring: It clarifies which parts/interactions are included in the model.

2. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

3. Plan a systems/energy capstone investigation. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Question, system boundary, variables, evidence collection, and expected type of explanation.

4. Why collect several observations? (1 point)

Answer / scoring: They reveal variation and strengthen comparison.

5. Use W2 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

6. Improve a model after receiving new evidence. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Identify a changed feature, cite evidence, and explain the improvement.

7. Why report limitations? (1 point)

Answer / scoring: They help readers judge what the evidence does and does not show.

8. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

9. Write a claim-evidence-reasoning outline. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Clear claim, specific data/observations, correct mechanism, and one limitation.

10. How can a science showcase communicate uncertainty? (1 point)

Answer / scoring: State limits, unresolved questions, and possible next investigations.

11. Use W4 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

12. Plan a short science presentation. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Question, method/model, evidence, conclusion, limitation, and one next step.

13. Choose one of the supplied data comparisons. Write a claim supported by those data, give the two values as evidence, and explain what further information would be needed for a causal explanation. (4 points)

Answer / scoring: Rubric (4): accurate limited claim (1); two correct data values (1); logical connection to claim (1); relevant limitation/next test (1). Accept varied claims bounded by the supplied data.

Social Studies - 24 points

Score: _____ / 24

W1 background: It identifies the problem, affected people, evidence, and options. The goal gives a basis for choosing actions and judging success. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W2 background: Labels clarify place, measure, units, and purpose. Memory or copying may introduce errors. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W3 background: A clear question/claim, relevant evidence, geographic relationships, and sources. Feedback can reveal unclear reasoning or inaccurate information. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W4 background: Explain learning, changes in thinking, limits, and next questions. It shows how evidence, revision, and skills developed. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. How can research support a civic-action project? (1 point)

Answer / scoring: It identifies the problem, affected people, evidence, and options.

2. Why define a project's goal before acting? (1 point)

Answer / scoring: The goal gives a basis for choosing actions and judging success.

3. Plan a Mississippi/community civic-action project. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Specific need, sources/voices, realistic action, and evidence for judging results.

4. Why label a map or data chart? (1 point)

Answer / scoring: Labels clarify place, measure, units, and purpose.

5. Why compare original information when a number seems doubtful? (1 point)

Answer / scoring: Memory or copying may introduce errors.

6. Plan a map/data research check. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Trace a claim to its source, check labels/date/context, and record corrections.

7. What should a final regional product communicate? (1 point)

Answer / scoring: A clear question/claim, relevant evidence, geographic relationships, and sources.

8. Why revise after feedback? (1 point)

Answer / scoring: Feedback can reveal unclear reasoning or inaccurate information.

9. Outline a final product with a revision step. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Organized content, map/data, supporting sources, and a specific check or improvement.

10. What can reflection add to a year-end presentation? (1 point)

Answer / scoring: Explain learning, changes in thinking, limits, and next questions.

11. Why can growth matter alongside a final score? (1 point)

Answer / scoring: It shows how evidence, revision, and skills developed.

12. Plan a year-end geographic/civic reflection. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Accurate learning example, evidence, reflection on improvement, and a next question.

13. Choose one background note. Describe an additional perspective or source that could improve it, and explain what it might reveal or challenge. (4 points)

Answer / scoring: Rubric (4): identifies chosen note/claim (1); relevant additional source/perspective (1); explains new insight/check (1); recognizes limits rather than treating one source as complete truth (1).

Spanish - 12 points

Score: _____ / 12

Spanish model and vocabulary (cue support allowed)

Hola. Me llamo Ana. Me gusta leer.
Word bank: hola, el libro, la familia, la comida, hace sol, estudiar.

1. Week 1: Complete: Me ___ Ana. (1 point)

Answer / scoring: llamo

2. Week 2: Complete: Me ___ Ana. (1 point)

Answer / scoring: llamo

3. Week 3: Translate the country into Spanish. (1 point)

Answer / scoring: el país / país

4. Week 4: Complete: Me ___ Ana. (1 point)

Answer / scoring: llamo

5. Read the supplied Spanish model. Give its meaning in English. (2 points)

Answer / scoring: Hello. My name is Ana. I like reading.

6. Write one new correct sentence using vocabulary from this module. (2 points)

Answer / scoring: One point for relevant vocabulary; one for a meaningful correct sentence. Accept varied answers.

7. Oral task (teacher listens): Use 4 short statements or a 4-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Hola. Me llamo Ana. Me gusta leer. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
