Grade 7 · Module 1 Week 1 Friday gap quiz - TEACHER ANSWER KEY

Scheduled: 2026-10-16 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Math: 7.RP.1-2 | ELA: RL.7.1-10; RI.7.1-10; W.7.1-9; L.7.1-6; SL.7.1-6 (grade-level coverage; module skill targets below) | Science: L.7.3 | Social Studies: MS CCRS SS Grade 7 Early World History - prehistory/Mesopotamia | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Writing and conventions · required gap check - 8 points

Score: _____ / 8

A Pond Study

A class studied a small pond near its school. Students recorded water temperature, counted visible organisms from the bank, and drew a model of a food web. Because the first visit happened after rain, they wondered whether that single visit represented typical conditions. They returned at the same time of day during three later weeks. Their records were not identical. One student wanted to erase the unusual measurements, but her partner argued that differences could be useful evidence. The group kept the records and described the limits of its method: it had observed only one pond and had not counted organisms beneath the water. Their report distinguished observations from explanations. "We saw fewer insects" was an observation; "the cooler temperature caused the change" was a hypothesis that needed further testing. The study taught the class that careful questions are as important as confident conclusions.

1. Using the supplied passage, write two organized paragraphs explaining its central message. Include two accurate details and explain how they support your response. (5 points)

Answer / scoring: 5-point rubric: accurate central message (1), two relevant text details (2), logical explanation/organization (1), clear sentences/conventions (1). Accept supported interpretations.

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Answer / scoring: 3-point rubric: two effective revisions (2); accurate explanation of one improvement (1).

Science - 10 points

Score: _____ / 10

W1 data: A fictional survey uses the same area and observation time in two habitats. Trial A: 9 distinct species observed; Trial B: 15 distinct species observed. These are invented assessment data, not a claim about a real investigation.

1. How does carbon move from atmosphere into living plants? (1 point)

Answer / scoring: Photosynthesis incorporates carbon dioxide into organic molecules.

2. Why is the water cycle a cycle rather than a one-way path? (1 point)

Answer / scoring: Water moves among reservoirs through repeated processes.

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 6 distinct species observed.

4. Use W1 data. State one observation without claiming its cause. (1 point)

Answer / scoring: Trial B recorded 15 versus 9 in A; accept an accurate description without an unsupported causal claim.

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

Answer / scoring: No. Need a clear tested variable, controls, repeated trials, and consideration of other causes. One point for no; one for a relevant reason.

6. Model water and carbon movement in an ecosystem. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Correct reservoirs, processes, and arrows; distinguish movement of matter from energy flow.

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Hola. Me llamo Ana. ¿Cómo te llamas?
Word bank: hola, adiós, gracias, por favor, buenos días, hasta luego.

1. Translate into English: hola. (1 point)

Answer / scoring: hello

2. Translate into Spanish: goodbye. (1 point)

Answer / scoring: adiós; accept appropriate article/gender variants when meaning is correct.

3. Complete: Me ___ Ana. (My name is Ana.) (1 point)

Answer / scoring: llamo

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Hola. Me llamo Ana. ¿Cómo te llamas? Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
