Grade 7 · Module 2 Comprehensive gap assessment

Scheduled: 2026-12-11 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 7.RP.1-3 | ELA: RL.7.1-10; RI.7.1-10; W.7.1-9; L.7.1-6; SL.7.1-6 (grade-level coverage; module skill targets below) | Science: L.7.3.1-5 | Social Studies: MS CCRS SS 7.2-7.3 and related early-civilization standards | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Writing and conventions · required gap check - 12 points

Score: _____ / 12

Should the School Reduce Plastic?

The student council proposed replacing some single-use lunch packaging with reusable containers. Its argument began with a clear claim: the school should run a four-week trial before making a permanent purchase. The council's fictional classroom survey found that 72 of 120 respondents supported the trial. A second source, a cafeteria cost table, estimated that washing reusable containers would require additional time. Supporters argued that the trial could measure both waste and labor instead of assuming that one benefit settled the whole question. Critics worried about lost containers and unequal access to supplies. The proposal responded by lending containers during the trial and counting losses. The council did not claim that a survey proved the policy would work. It used the survey to show interest and proposed collecting direct evidence of costs and waste.

1. Using the supplied passage, write two organized paragraphs explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

3. Connect your writing to this module's Khan reading/grammar goals. Name two skills, show an example of each in your own writing, and explain your choices. (4 points)

Science - 28 points

Score: _____ / 28

W1 data: A fictional survey uses the same area and observation time in two habitats. Trial A: 9 distinct species observed; Trial B: 15 distinct species observed. These are invented assessment data, not a claim about a real investigation.

W2 data: A fictional survey uses the same area and observation time in two habitats. Trial A: 10 distinct species observed; Trial B: 16 distinct species observed. These are invented assessment data, not a claim about a real investigation.

W3 data: A fictional survey uses the same area and observation time in two habitats. Trial A: 11 distinct species observed; Trial B: 17 distinct species observed. These are invented assessment data, not a claim about a real investigation.

W4 data: A fictional survey uses the same area and observation time in two habitats. Trial A: 12 distinct species observed; Trial B: 18 distinct species observed. These are invented assessment data, not a claim about a real investigation.

1. Why can excess nutrient runoff affect an ecosystem? (1 point)

2. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

3. Model one human impact on a cycle. (3 points)

4. Why is not every introduced species called invasive? (1 point)

5. Use W2 data. Which trial has the higher recorded value, and by how much? (2 points)

6. Compare two explanations for a biodiversity change. (3 points)

7. Why consider unintended consequences? (1 point)

8. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

9. Evaluate an ecosystem solution. (3 points)

10. Does a correlation by itself establish causation? (1 point)

11. Use W4 data. Which trial has the higher recorded value, and by how much? (2 points)

12. Outline an ecology data report. (3 points)

13. Choose one of the supplied data comparisons. Write a claim supported by those data, give the two values as evidence, and explain what further information would be needed for a causal explanation. (4 points)

Social Studies - 24 points

Score: _____ / 24

W1 background: Water, farming, transport, and settlement patterns were tied to the river. Images/objects can reveal beliefs, roles, materials, and purposes when interpreted in context. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W2 background: Evidence of urban organization and infrastructure, though not a complete account of government. Evidence is incomplete; undeciphered or limited records restrict conclusions. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W3 background: Water, agriculture, travel, and settlement were linked to river valleys. Different places, dynasties, periods, and communities changed over time. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W4 background: Understand similar environmental opportunities and different social responses. People developed different institutions, beliefs, and choices. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Why was the Nile important to ancient Egypt? (1 point)

2. How can art provide historical evidence? (1 point)

3. Use an Egyptian object as historical evidence. (3 points)

4. What can planned streets or drains show about Indus cities? (1 point)

5. Why are interpretations of an ancient society sometimes uncertain? (1 point)

6. Compare an Indus city plan with another river-valley society. (3 points)

7. How did rivers support some early Chinese societies? (1 point)

8. Why should ancient China not be treated as one unchanging society? (1 point)

9. Create a river-valley comparison involving early China. (3 points)

10. What is a common reason to compare river-valley civilizations? (1 point)

11. Why is a shared river setting not proof of identical cultures? (1 point)

12. Compare two river-valley societies. (3 points)

13. Choose one background note. Describe an additional perspective or source that could improve it, and explain what it might reveal or challenge. (4 points)

Spanish - 12 points

Score: _____ / 12

Spanish model and vocabulary (cue support allowed)

Hoy es lunes. Estamos en octubre.
Word bank: lunes, martes, viernes, enero, octubre, mes.

1. Week 1: Complete: Hoy es ___ . (Today is Friday.) (1 point)

2. Week 2: Write 3:00 in Spanish. (1 point)

3. Week 3: Translate notebook into Spanish. (1 point)

4. Week 4: Complete: Hoy es ___ . (Today is Friday.) (1 point)

5. Read the supplied Spanish model. Give its meaning in English. (2 points)

6. Write one new correct sentence using vocabulary from this module. (2 points)

7. Oral task (teacher listens): Use 6-8 short statements or a 6-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)
