Grade 7 · Module 5 Comprehensive gap assessment

Scheduled: 2027-03-26 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 7.NS.2-3 | ELA: RL.7.1-10; RI.7.1-10; W.7.1-9; L.7.1-6; SL.7.1-6 (grade-level coverage; module skill targets below) | Science: E.7.9A.1-3 | Social Studies: MS CCRS SS Grade 7 - Byzantine/Islamic civilizations | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Writing and conventions · required gap check - 12 points

Score: _____ / 12

Two Sources for a Forecast

Fictional classroom sources: Source A, "Weather Log," by a student team, dated March 8, records local temperature, wind direction, and pressure at noon for five days. Source B, an unsigned advertisement dated March 8, says that one device "always predicts weather perfectly" but gives no measurements. A research group prefers Source A for describing what was actually observed. It still checks the team's instruments and method, because named authors and a date do not guarantee accuracy. The group writes a cautious forecast, separating data from inference. Its notes include each source's title, creator, date, and the particular information used. In its final explanation, it paraphrases the data instead of copying a paragraph and identifies its source. Readers can judge the explanation more easily because the evidence and its limits are visible.

1. Using the supplied passage, write two organized paragraphs explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

3. Connect your writing to this module's Khan reading/grammar goals. Name two skills, show an example of each in your own writing, and explain your choices. (4 points)

Science - 28 points

Score: _____ / 28

W1 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 11 milliliters of water collected; Trial B: 19 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W2 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 12 milliliters of water collected; Trial B: 20 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W3 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 13 milliliters of water collected; Trial B: 21 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W4 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 14 milliliters of water collected; Trial B: 22 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. How can weather observations vary within one region? (1 point)

2. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

3. Compare short-term observations with long-term climate data. (3 points)

4. What is a weather front? (1 point)

5. Use W2 data. Which trial has the higher recorded value, and by how much? (2 points)

6. Draw two air masses and a front with possible weather changes. (3 points)

7. Why combine satellite, radar, and surface data? (1 point)

8. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

9. Plan a weather-data comparison. (3 points)

10. Why evaluate forecasts after the predicted period? (1 point)

11. Use W4 data. Which trial has the higher recorded value, and by how much? (2 points)

12. Create a forecast evaluation plan. (3 points)

13. Choose one of the supplied data comparisons. Write a claim supported by those data, give the two values as evidence, and explain what further information would be needed for a causal explanation. (4 points)

Social Studies - 24 points

Score: _____ / 24

W1 background: It continued the eastern Roman political tradition, with Constantinople as a central city. Its position connected important land/sea routes and offered strategic advantages. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W2 background: The Arabian Peninsula in the seventh century CE. Movement of people, texts, institutions, and contacts can carry ideas; mechanisms vary. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W3 background: Mathematics, medicine, astronomy, philosophy, literature, or related fields. It helped preserve, compare, adapt, and extend knowledge from different traditions. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W4 background: Travelers share ideas, techniques, beliefs, languages, and information. Power, conflict, and access can differ among participants. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. What was the Byzantine Empire's connection to Rome? (1 point)

2. Why did location matter for Constantinople? (1 point)

3. Explain continuity and change in Byzantine history. (3 points)

4. Where did Islam begin as a historical religious movement? (1 point)

5. How can trade and other networks help beliefs spread? (1 point)

6. Map a route of cultural/religious exchange. (3 points)

7. Name one field developed through scholarship in the Islamic Golden Age. (1 point)

8. Why did translation matter to scholarship? (1 point)

9. Model a scholarly exchange. (3 points)

10. Why can trade carry more than goods? (1 point)

11. Why is cultural exchange not always peaceful or equal? (1 point)

12. Explain an exchange through a historical network. (3 points)

13. Choose one background note. Describe an additional perspective or source that could improve it, and explain what it might reveal or challenge. (4 points)

Spanish - 12 points

Score: _____ / 12

Spanish model and vocabulary (cue support allowed)

Estudio por la mañana. Leo por la noche.
Word bank: estudiar, leer, comer, dormir, la mañana, la noche.

1. Week 1: Translate to study into Spanish. (1 point)

2. Week 2: Complete: Yo ___ español. (hablar, present tense) (1 point)

3. Week 3: Translate to study into Spanish. (1 point)

4. Week 4: Translate to study into Spanish. (1 point)

5. Read the supplied Spanish model. Give its meaning in English. (2 points)

6. Write one new correct sentence using vocabulary from this module. (2 points)

7. Oral task (teacher listens): Use 6-8 short statements or a 6-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)
