Grade 7 · Module 5 Week 1 Friday gap quiz - TEACHER ANSWER KEY

Scheduled: 2027-02-26 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Math: 7.NS.2-3 | ELA: RL.7.1-10; RI.7.1-10; W.7.1-9; L.7.1-6; SL.7.1-6 (grade-level coverage; module skill targets below) | Science: E.7.9A.1-3 | Social Studies: MS CCRS SS Grade 7 - Byzantine/Islamic civilizations | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Writing and conventions · required gap check - 8 points

Score: _____ / 8

Two Sources for a Forecast

Fictional classroom sources: Source A, "Weather Log," by a student team, dated March 8, records local temperature, wind direction, and pressure at noon for five days. Source B, an unsigned advertisement dated March 8, says that one device "always predicts weather perfectly" but gives no measurements. A research group prefers Source A for describing what was actually observed. It still checks the team's instruments and method, because named authors and a date do not guarantee accuracy. The group writes a cautious forecast, separating data from inference. Its notes include each source's title, creator, date, and the particular information used. In its final explanation, it paraphrases the data instead of copying a paragraph and identifies its source. Readers can judge the explanation more easily because the evidence and its limits are visible.

1. Using the supplied passage, write two organized paragraphs explaining its central message. Include two accurate details and explain how they support your response. (5 points)

Answer / scoring: 5-point rubric: accurate central message (1), two relevant text details (2), logical explanation/organization (1), clear sentences/conventions (1). Accept supported interpretations.

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Answer / scoring: 3-point rubric: two effective revisions (2); accurate explanation of one improvement (1).

Science - 10 points

Score: _____ / 10

W1 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 11 milliliters of water collected; Trial B: 19 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. Why cannot one storm establish a climate trend? (1 point)

Answer / scoring: Climate requires long-term patterns, not one event.

2. How can weather observations vary within one region? (1 point)

Answer / scoring: Time, elevation, land cover, distance to water, and other factors differ.

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

4. Use W1 data. State one observation without claiming its cause. (1 point)

Answer / scoring: Trial B recorded 19 versus 11 in A; accept an accurate description without an unsupported causal claim.

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

Answer / scoring: No. Need a clear tested variable, controls, repeated trials, and consideration of other causes. One point for no; one for a relevant reason.

6. Compare short-term observations with long-term climate data. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Correct time scales, variables, and cautious inference.

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Estudio por la mañana. Leo por la noche.
Word bank: estudiar, leer, comer, dormir, la mañana, la noche.

1. Translate into English: estudiar. (1 point)

Answer / scoring: to study

2. Translate into Spanish: to read. (1 point)

Answer / scoring: leer; accept appropriate article/gender variants when meaning is correct.

3. Translate to study into Spanish. (1 point)

Answer / scoring: estudiar

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Estudio por la mañana. Leo por la noche. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
