Grade 7 · Module 6 Week 1 Friday gap quiz

Scheduled: 2027-04-02 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 7.EE.1-4 | ELA: RL.7.1-10; RI.7.1-10; W.7.1-9; L.7.1-6; SL.7.1-6 (grade-level coverage; module skill targets below) | Science: E.7.9A.4-7 | Social Studies: MS CCRS SS Grade 7 - Africa/Asia/trade networks | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Writing and conventions · required gap check - 8 points

Score: _____ / 8

An Argument for Trees

A community group argues that a school should plant trees near its outdoor learning area. Its claim is narrower than "trees solve every problem": a carefully chosen location may provide shade and support habitat. The group presents a fictional class data table comparing temperatures at a sunny spot and a shaded spot. It also acknowledges counterarguments: planting and watering cost money, and roots or branches may interfere with structures. Its proposal recommends consulting knowledgeable staff, selecting a suitable location, and comparing costs before planting. An effective response to a counterargument does not mock the people who raise it. Instead, it explains how the plan addresses a reasonable concern or why the evidence supports a different choice. The final paragraph asks the school to try a manageable plan and report the results.

1. Using the supplied passage, write two organized paragraphs explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Science - 10 points

Score: _____ / 10

W1 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 11 milliliters of water collected; Trial B: 19 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. How does latitude affect average incoming sunlight? (1 point)

2. How can elevation and large water bodies affect climate? (1 point)

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

4. Use W1 data. State one observation without claiming its cause. (1 point)

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

6. Model three climate controls for two hypothetical places. (3 points)

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Vivo en Mississippi. Escribo una carta.
Word bank: comer, beber, vivir, escribir, leer, abrir.

1. Translate into English: comer. (1 point)

2. Translate into Spanish: to drink. (1 point)

3. Complete: Yo ___ agua. (beber, present tense) (1 point)

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)
