Grade 4 - Module 1 Week 1 Quiz - TEACHER ANSWER KEY

Scheduled: 2026-10-16 | Current-week goals + math spiral review; science/social studies alternate

Math: 4.NBT.1-4 | ELA: RL.4.1-3; RI.4.1-2; W.4.4-5; L.4.1-2 | Science: L.4.1; science/engineering practices | Social Studies: MS CCRS SS 4.MS.1 (Mississippi regions/geography) | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Math - 9 points

Score: _____ / 9

1. Write 351,678 in expanded form. (1 point)

Answer / scoring: 300000 + 50000 + 1000 + 600 + 70 + 8

2. What is the value of the digit 5 in 351,678? (1 point)

Answer / scoring: 50000

3. Write the digit in the thousands place of 351,678. (1 point)

Answer / scoring: 1

4. Write three hundred six thousand twenty in standard form. (1 point)

Answer / scoring: 306,020

5. Compute 6 x 10,000. (1 point)

Answer / scoring: 60000

6. Explain why a digit in the ten-thousands place has ten times its value in the thousands place. (2 points)

Answer / scoring: Each move one place left multiplies place value by 10; for example, 3 ten-thousands = 30,000 and 3 thousands = 3,000.

7. Spiral review: 20 + 7 = ? (1 point)

Answer / scoring: 27

8. Spiral review: 5 x 6 = ? (1 point)

Answer / scoring: 30

ELA - 13 points

Score: _____ / 13

A Library Garden

Maya wanted a quiet place to read outside. She asked the librarian if the empty corner of the courtyard could become a garden. First, Maya measured the space. Next, she drew a plan with a path and two benches. Her friends brought seed packets, and an adult helped them plant. A week later, Maya noticed that the plants beside the wall were dry. She moved the watering can closer to them and made a watering chart. By spring, visitors were reading beside green leaves. Maya learned that a good plan needs careful observation as well as enthusiasm.

1. Is "Across the wide river" a complete sentence? Explain. (1 point)

Answer / scoring: No; it lacks a subject doing an action and a complete predicate.

2. Identify the complete subject in "The young readers opened their books." (1 point)

Answer / scoring: The young readers

3. Identify the complete predicate in "My friend from town visits the library." (1 point)

Answer / scoring: visits the library

4. Revise the fragment "Because the bus was late." into a complete sentence. (2 points)

Answer / scoring: Accept, e.g., "We waited because the bus was late." Must complete the idea.

5. Why did Maya make a watering chart? (1 point)

Answer / scoring: The plants beside the wall were dry, so she needed to organize watering.

6. What did Maya do before drawing her plan? (1 point)

Answer / scoring: She measured the courtyard space.

7. Correct this misspelling: libary. (1 point)

Answer / scoring: library

8. Write one organized paragraph (4-6 sentences) about the passage's main message. Use two accurate details, explain their connection, and edit sentences and spelling. (5 points)

Answer / scoring: Rubric: clear relevant main idea/claim (1); two accurate supporting details (1 each); reasoning/organization (1); readable complete sentences and conventions (1). Accept defensible interpretations, not just the sample central idea: Planning and observing help people improve a project.

Science - 10 points

Score: _____ / 10

W1 data: A fictional class compares pulse counts at rest and after activity. Trial A: 71 pulse counts in one minute; Trial B: 101 pulse counts in one minute. These are invented assessment data, not a claim about a real investigation.

1. Why do scientists record observations? (1 point)

Answer / scoring: So evidence can be compared, checked, and used to answer questions.

2. How is a system different from one part? (1 point)

Answer / scoring: A system has interacting parts; a change in one part can affect others.

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 30 pulse counts in one minute.

4. Use W1 data. State one observation without claiming its cause. (1 point)

Answer / scoring: Trial B recorded 101 versus 71 in A; accept an accurate description without an unsupported causal claim.

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

Answer / scoring: No. Need a clear tested variable, controls, repeated trials, and consideration of other causes. One point for no; one for a relevant reason.

6. Draw a simple system with at least three interacting parts. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Three labeled parts and at least two arrows explaining interactions; e.g., plant, water, sunlight.

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Hola. Me llamo Ana. ¿Cómo te llamas?
Word bank: hola, adiós, gracias, por favor, buenos días, hasta luego.

1. Translate into English: hola. (1 point)

Answer / scoring: hello

2. Translate into Spanish: goodbye. (1 point)

Answer / scoring: adiós; accept appropriate article/gender variants when meaning is correct.

3. Complete: Me ___ Ana. (My name is Ana.) (1 point)

Answer / scoring: llamo

4. Oral task (teacher listens): Use 2 short statements or a 2-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Hola. Me llamo Ana. ¿Cómo te llamas? Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
