Grade 4 - Module 2 Comprehensive Test

Scheduled: 2026-12-11 | Covers all four module weeks and all five subjects

Student: _____ Date completed: _____

Math: 4.OA.1-5; 4.NBT.5-6 | ELA: RI.4.1-5; W.4.2; L.4.1,4-6 | Science: L.4.1-2 | Social Studies: MS CCRS SS Grade 4 - Mississippi Studies & Regions | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Math - 28 points

Score: _____ / 28

1. List all factor pairs of 22. (1 point)

2. Write the first four positive multiples of 5. (1 point)

3. Is 17 prime or composite? (1 point)

4. Is 21 prime or composite? Give a factor pair other than 1 and 21. (1 point)

5. Jo has 5 cards. Ana has 4 times as many. How many does Ana have? (1 point)

6. Explain the difference between a factor and a multiple using 3 and 12. (2 points)

7. 178 x 6 = ? (1 point)

8. 185 x 6 = ? (1 point)

9. 202 x 6 = ? (1 point)

10. 213 x 6 = ? (1 point)

11. 279 x 6 = ? (1 point)

12. Show an area model or expanded-parts method for 178 x 6. (2 points)

13. 126 x 12 = ? (1 point)

14. 133 x 12 = ? (1 point)

15. 150 x 12 = ? (1 point)

16. 161 x 12 = ? (1 point)

17. 227 x 12 = ? (1 point)

18. Show an area model or expanded-parts method for 126 x 12. (2 points)

19. Divide 139 by 3. Give a quotient and remainder. (1 point)

20. Divide 150 by 3. Give a quotient and remainder. (1 point)

21. Divide 171 by 3. Give a quotient and remainder. (1 point)

22. Divide 206 by 3. Give a quotient and remainder. (1 point)

23. 139 children need vans with 13 seats each. How many vans are needed? (1 point)

24. 139 beads are packed into bags of 13. How many full bags and how many beads left? Explain the remainder. (2 points)

ELA - 16 points

Score: _____ / 16

The School Butterfly Box

The class watched a butterfly develop. At first, tiny eggs rested on a leaf. Caterpillars hatched and ate plant material. Later, each caterpillar formed a chrysalis. Finally, an adult butterfly emerged. Students recorded dates and made drawings instead of touching the animals. One student wrote that a butterfly is simply a small bird. The teacher asked the class to check its evidence. Their notes showed an insect with six legs, not a bird with two. Careful records helped them correct the mistake. Watching one animal did not tell them everything about every butterfly, but it gave them a useful beginning.

1. Change "We walk" to past tense. (1 point)

2. Choose: Yesterday the class (study/studied) weather. (1 point)

3. Give the past tense of go. (1 point)

4. Give the past tense of see. (1 point)

5. State a central idea or theme of the passage. (1 point)

6. Give a detail that supports that idea. (1 point)

7. What does the prefix re- mean in reread? (1 point)

8. What does the suffix -less mean in careless? (1 point)

9. Why did students record dates and drawings? (1 point)

10. Which detail shows the butterfly is an insect rather than a bird? (1 point)

11. Correct this misspelling: carefull. (1 point)

12. Write one organized paragraph (4-6 sentences) about the passage's main message. Use two accurate details, explain their connection, and edit sentences and spelling. Include one reflection about how your interpretation might differ from another reader's. (5 points)

Science - 28 points

Score: _____ / 28

W1 data: A fictional class compares pulse counts at rest and after activity. Trial A: 71 pulse counts in one minute; Trial B: 101 pulse counts in one minute. These are invented assessment data, not a claim about a real investigation.

W2 data: A fictional class compares pulse counts at rest and after activity. Trial A: 72 pulse counts in one minute; Trial B: 102 pulse counts in one minute. These are invented assessment data, not a claim about a real investigation.

W3 data: A fictional class compares pulse counts at rest and after activity. Trial A: 73 pulse counts in one minute; Trial B: 103 pulse counts in one minute. These are invented assessment data, not a claim about a real investigation.

W4 data: A fictional class compares pulse counts at rest and after activity. Trial A: 74 pulse counts in one minute; Trial B: 104 pulse counts in one minute. These are invented assessment data, not a claim about a real investigation.

1. How do lungs and circulation work together? (1 point)

2. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

3. Show the path from breathing to oxygen delivery to a muscle. (3 points)

4. Why can handwashing reduce spread of some germs? (1 point)

5. Use W2 data. Which trial has the higher recorded value, and by how much? (2 points)

6. Explain a germ-transfer model using clean paper or a diagram. (3 points)

7. How does a butterfly life cycle differ from simple growth in size? (1 point)

8. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

9. Draw and compare a flowering plant and butterfly life cycle. (3 points)

10. What is the difference between an observation and an explanation? (1 point)

11. Use W4 data. Which trial has the higher recorded value, and by how much? (2 points)

12. Plan a research report about two interacting body systems. (3 points)

13. Choose one of the supplied data comparisons. Write a claim supported by those data, give the two values as evidence, and explain what further information would be needed for a causal explanation. (4 points)

Social Studies - 24 points

Score: _____ / 24

W1 background: Crop growth depends on suitable soil, water, and other conditions. No; renewal takes time and use can exceed replacement. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W2 background: An organized area of economic activity producing goods/services. It connects materials, workers, products, and markets. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W3 background: Births, deaths, and people moving in/out. Shared and changing practices, beliefs, languages, arts, and ways of life. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W4 background: Readers can check, credit, and evaluate the information. Organization, explanation, and evidence related to a question. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Why can soil and water influence farming? (1 point)

2. Is a natural resource unlimited because it is renewable? (1 point)

3. Compare two agricultural choices for a region. (3 points)

4. What is an industry? (1 point)

5. How can transportation support an industry? (1 point)

6. Model a Mississippi resource and related industry. (3 points)

7. How can a community's population change? (1 point)

8. What is culture? (1 point)

9. Describe a community respectfully without assuming everyone is the same. (3 points)

10. Why should a regional report identify its sources? (1 point)

11. What makes a presentation more useful than a list of facts? (1 point)

12. Plan a regional presentation. (3 points)

13. Choose one background note. Describe an additional perspective or source that could improve it, and explain what it might reveal or challenge. (4 points)

Spanish - 12 points

Score: _____ / 12

Spanish model and vocabulary (cue support allowed)

Hoy es lunes. Estamos en octubre.
Word bank: lunes, martes, viernes, enero, octubre, mes.

1. Week 1: Complete: Hoy es ___ . (Today is Friday.) (1 point)

2. Week 2: Translate notebook into Spanish. (1 point)

3. Week 3: Complete: ___, abre el libro. (Please, open the book.) (1 point)

4. Week 4: Complete: Hoy es ___ . (Today is Friday.) (1 point)

5. Read the supplied Spanish model. Give its meaning in English. (2 points)

6. Write one new correct sentence using vocabulary from this module. (2 points)

7. Oral task (teacher listens): Use 4 short statements or a 4-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)
