A Case for Shade

Our reading area should have a shaded bench. At noon, the sunny bench can be uncomfortable. A shaded seat would give readers another choice. We can first move a portable shade nearby and record how many students use the area. Then we can ask whether the change helped. Some people worry that a permanent structure would cost too much. That is a fair concern, so a temporary test is a sensible first step. The goal is not to promise that every reader will love the bench. The goal is to use evidence to decide whether a small improvement is worthwhile.

1. Write a defensible claim about the passage. (1 point)

2. Quote or paraphrase one supporting detail. (1 point)

3. Explain why unsupported opinion is weaker than evidence. (1 point)

4. Support your claim with two details and reasoning. (2 points)

5. What concern does the writer acknowledge? (1 point)

6. What evidence would help decide whether the change is useful? (1 point)

7. Correct this misspelling: evidance. (1 point)

8. Write one organized paragraph (4-6 sentences) stating an opinion or argument related to the supplied passage. Give two reasons and relevant evidence; use a transition and a conclusion. (5 points)

Social Studies - 10 points
