Grade 4 - Module 9 Week 1 Quiz - TEACHER ANSWER KEY

Scheduled: 2027-06-25 | Current-week goals + math spiral review; science/social studies alternate

Math: Cumulative Grade 4 MS CCRS + Mathematical Practices | ELA: W.4.5-8; SL.4.4-6; cumulative RL/RI/L | Science: Cumulative L.4.1-2; P.4.6; E.4.9-10 | Social Studies: Cumulative MS CCRS SS Grade 4 | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Math - 9 points

Score: _____ / 9

1. 23,615 + 14,435 = ? (1 point)

Answer / scoring: 38050

2. 43,615 - 14,435 = ? (1 point)

Answer / scoring: 29180

3. A library had 23,615 books and received 14,435 more. How many now? (1 point)

Answer / scoring: 38050

4. A district ordered 5 boxes with 15 pencils each. How many pencils? (1 point)

Answer / scoring: 75

5. A school has 165 sheets and uses 15. How many remain? (1 point)

Answer / scoring: 150

6. A fair sold 165 tickets in the morning and 15 in the afternoon. Then 15 tickets were refunded. Write and solve an equation for the final total. (2 points)

Answer / scoring: 165 + 15 - 15 = 165. One point for the equation and one for the total.

7. Spiral review: 28 + 7 = ? (1 point)

Answer / scoring: 35

8. Spiral review: 5 x 6 = ? (1 point)

Answer / scoring: 30

ELA - 13 points

Score: _____ / 13

The Final Project

Tara's class planned a display about their community. Tara chose a question: How can we help visitors understand the river? She gathered a map, a short library article, and notes from a visit. She labeled each source so she could find it again. Her first poster had many facts but no clear order. After reading it aloud, Tara grouped the information into three sections: location, uses, and ways to care for the river. She checked a number against the original article instead of trusting her memory. At the display, she explained both what she had learned and one question she still wanted to investigate.

1. Write a focused research question connected to the passage. (1 point)

Answer / scoring: Accept a specific, answerable question connected to the text, not an unlimited topic.

2. Name two different kinds of sources that could help answer it. (1 point)

Answer / scoring: Accept relevant books/articles, maps/data, interviews/primary accounts; each must suit the question.

3. Why should a researcher record a source's creator and title? (1 point)

Answer / scoring: To trace, check, and credit information.

4. Explain how to narrow a research topic that is too broad. (2 points)

Answer / scoring: Limit the place, time, question, or aspect; include a concrete narrower example.

5. Why did Tara label her sources? (1 point)

Answer / scoring: So she could find and check them again.

6. How did Tara improve the organization of her poster? (1 point)

Answer / scoring: She grouped the information into location, uses, and ways to care for the river.

7. Correct this misspelling: conclution. (1 point)

Answer / scoring: conclusion

8. Write one organized paragraph (4-6 sentences) about the passage's main message. Use two accurate details, explain their connection, and edit sentences and spelling. (5 points)

Answer / scoring: Rubric: clear relevant main idea/claim (1); two accurate supporting details (1 each); reasoning/organization (1); readable complete sentences and conventions (1). Accept defensible interpretations, not just the sample central idea: Organized research and revision help communicate learning.

Science - 10 points

Score: _____ / 10

W1 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 11 milliliters of water collected; Trial B: 19 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. What makes a scientific question investigable? (1 point)

Answer / scoring: It can be explored using observations, measurements, or a test.

2. Why identify a system's boundary? (1 point)

Answer / scoring: It clarifies which parts/interactions are included in the model.

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

4. Use W1 data. State one observation without claiming its cause. (1 point)

Answer / scoring: Trial B recorded 19 versus 11 in A; accept an accurate description without an unsupported causal claim.

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

Answer / scoring: No. Need a clear tested variable, controls, repeated trials, and consideration of other causes. One point for no; one for a relevant reason.

6. Plan a systems/energy capstone investigation. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Question, system boundary, variables, evidence collection, and expected type of explanation.

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Hola. Me llamo Ana. Me gusta leer.
Word bank: hola, el libro, la familia, la comida, hace sol, estudiar.

1. Translate into English: hola. (1 point)

Answer / scoring: hello

2. Translate into Spanish: the book. (1 point)

Answer / scoring: el libro; accept appropriate article/gender variants when meaning is correct.

3. Complete: Me ___ Ana. (1 point)

Answer / scoring: llamo

4. Oral task (teacher listens): Use 2 short statements or a 2-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Hola. Me llamo Ana. Me gusta leer. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
