The Final Project

Tara's class planned a display about their community. Tara chose a question: How can we help visitors understand the river? She gathered a map, a short library article, and notes from a visit. She labeled each source so she could find it again. Her first poster had many facts but no clear order. After reading it aloud, Tara grouped the information into three sections: location, uses, and ways to care for the river. She checked a number against the original article instead of trusting her memory. At the display, she explained both what she had learned and one question she still wanted to investigate.

2. Name one revision that improves organization or evidence. (1 point)

3. Name one editing check for conventions. (1 point)

4. Write a brief revision/presentation plan with an opening, two supporting points, and a closing. (2 points)
