Grade 4 - Module 9 Week 3 Quiz - TEACHER ANSWER KEY

Scheduled: 2027-07-09 | Current-week goals + math spiral review; science/social studies alternate

Math: Cumulative Grade 4 MS CCRS + Mathematical Practices | ELA: W.4.5-8; SL.4.4-6; cumulative RL/RI/L | Science: Cumulative L.4.1-2; P.4.6; E.4.9-10 | Social Studies: Cumulative MS CCRS SS Grade 4 | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Math - 9 points

Score: _____ / 9

1. A rectangle is 12 cm by 2 cm. Find its area. (1 point)

Answer / scoring: 24 square cm

2. A rectangle is 12 cm by 2 cm. Find its perimeter. (1 point)

Answer / scoring: 28 cm

3. A rectangle is 12 cm by 4 cm. Find its area. (1 point)

Answer / scoring: 48 square cm

4. A rectangle is 12 cm by 4 cm. Find its perimeter. (1 point)

Answer / scoring: 32 cm

5. A rectangle has area 36 square cm and width 4 cm. Find its length. (1 point)

Answer / scoring: 9 cm

6. Two rectangles are 3 by 8 cm and 4 by 6 cm. Compare their areas and perimeters. (2 points)

Answer / scoring: Both areas are 24 square cm. Perimeters are 22 cm and 20 cm; equal area does not guarantee equal perimeter.

7. Spiral review: 30 + 7 = ? (1 point)

Answer / scoring: 37

8. Spiral review: 7 x 6 = ? (1 point)

Answer / scoring: 42

ELA - 13 points

Score: _____ / 13

The Final Project

Tara's class planned a display about their community. Tara chose a question: How can we help visitors understand the river? She gathered a map, a short library article, and notes from a visit. She labeled each source so she could find it again. Her first poster had many facts but no clear order. After reading it aloud, Tara grouped the information into three sections: location, uses, and ways to care for the river. She checked a number against the original article instead of trusting her memory. At the display, she explained both what she had learned and one question she still wanted to investigate.

1. Correct "Their going to the library." (1 point)

Answer / scoring: They're going to the library.

2. Correct "The students was ready." (1 point)

Answer / scoring: The students were ready.

3. Correct "i have two book". (1 point)

Answer / scoring: I have two books.

4. Correct "She don't have no notes." (2 points)

Answer / scoring: She doesn't have any notes. / She has no notes.

5. Why did Tara label her sources? (1 point)

Answer / scoring: So she could find and check them again.

6. How did Tara improve the organization of her poster? (1 point)

Answer / scoring: She grouped the information into location, uses, and ways to care for the river.

7. Correct this misspelling: conclution. (1 point)

Answer / scoring: conclusion

8. Write one organized paragraph (4-6 sentences) about the passage's main message. Use two accurate details, explain their connection, and edit sentences and spelling. (5 points)

Answer / scoring: Rubric: clear relevant main idea/claim (1); two accurate supporting details (1 each); reasoning/organization (1); readable complete sentences and conventions (1). Accept defensible interpretations, not just the sample central idea: Organized research and revision help communicate learning.

Science - 10 points

Score: _____ / 10

W3 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 13 milliliters of water collected; Trial B: 21 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. What does reasoning add to a lab report? (1 point)

Answer / scoring: It connects evidence to a claim using scientific ideas.

2. Why report limitations? (1 point)

Answer / scoring: They help readers judge what the evidence does and does not show.

3. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

4. Use W3 data. State one observation without claiming its cause. (1 point)

Answer / scoring: Trial B recorded 21 versus 13 in A; accept an accurate description without an unsupported causal claim.

5. Use W3 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

Answer / scoring: No. Need a clear tested variable, controls, repeated trials, and consideration of other causes. One point for no; one for a relevant reason.

6. Write a claim-evidence-reasoning outline. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Clear claim, specific data/observations, correct mechanism, and one limitation.

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

En este país se habla español.
Word bank: el país, la ciudad, la comida, la música, la tradición, el idioma.

1. Translate into English: el país. (1 point)

Answer / scoring: the country

2. Translate into Spanish: the city. (1 point)

Answer / scoring: la ciudad; accept appropriate article/gender variants when meaning is correct.

3. Translate the country into Spanish. (1 point)

Answer / scoring: el país / país

4. Oral task (teacher listens): Use 2 short statements or a 2-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: En este país se habla español. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
