Grade 7 - Module 2 Week 1 Quiz - TEACHER ANSWER KEY

Scheduled: 2026-11-13 | Current-week goals + math spiral review; science/social studies alternate

Math: 7.RP.1-3 | ELA: RI.7.1-8; W.7.1-2; L.7.1-3 | Science: L.7.3.1-5 | Social Studies: MS CCRS SS 7.2-7.3 and related early-civilization standards | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Math - 9 points

Score: _____ / 9

1. A car travels 240 miles in 4 hours. Unit rate? (1 point)

Answer / scoring: 60 miles/hour

2. 4 kg of rice costs $16. Cost per kg? (1 point)

Answer / scoring: $4/kg

3. A person walks 3/4 mile in 1/2 hour. Speed? (1 point)

Answer / scoring: 3/2 = 1.5 miles/hour

4. A recipe uses 2 cups of flour for 3 cups of oats. Cups of flour per cup of oats? (1 point)

Answer / scoring: 2/3

5. Which is cheaper per item: 4 for $6 or 5 for $8? (1 point)

Answer / scoring: 4 for $6: $1.50 versus $1.60.

6. Two printers make 120 pages in 3 minutes and 150 pages in 5 minutes. Which is faster? Show both rates. (2 points)

Answer / scoring: First: 40 pages/minute; second: 30 pages/minute. First is faster.

7. Spiral review: -5 + 12 = ? (1 point)

Answer / scoring: 7

8. Spiral review: Write 3/4 as a decimal. (1 point)

Answer / scoring: 0.75

ELA - 13 points

Score: _____ / 13

Should the School Reduce Plastic?

The student council proposed replacing some single-use lunch packaging with reusable containers. Its argument began with a clear claim: the school should run a four-week trial before making a permanent purchase. The council's fictional classroom survey found that 72 of 120 respondents supported the trial. A second source, a cafeteria cost table, estimated that washing reusable containers would require additional time. Supporters argued that the trial could measure both waste and labor instead of assuming that one benefit settled the whole question. Critics worried about lost containers and unequal access to supplies. The proposal responded by lending containers during the trial and counting losses. The council did not claim that a survey proved the policy would work. It used the survey to show interest and proposed collecting direct evidence of costs and waste.

1. State a central idea or theme of the passage. (1 point)

Answer / scoring: A limited trial can test a proposal while addressing costs and counterarguments.

2. Give a detail that supports that idea. (1 point)

Answer / scoring: It shows interest among respondents; it does not prove the policy will work or represent every student.

3. Explain how a second detail adds to the idea. (1 point)

Answer / scoring: It lends containers during the trial.; explain a logical connection.

4. Explain how the ending or final statement develops the passage's message. (2 points)

Answer / scoring: A limited trial can test a proposal while addressing costs and counterarguments.; include a relevant final detail and a logical explanation.

5. What does the survey support, and what does it not prove? (1 point)

Answer / scoring: It shows interest among respondents; it does not prove the policy will work or represent every student.

6. How does the proposal address a concern about access? (1 point)

Answer / scoring: It lends containers during the trial.

7. Correct this misspelling: carefull. (1 point)

Answer / scoring: careful

8. Write two organized paragraphs (at least 8 sentences total) stating an opinion or argument related to the supplied passage. Give two reasons and relevant evidence; use a transition and a conclusion. (5 points)

Answer / scoring: Rubric (5): clear claim (1); two relevant reasons (1 each); evidence and logical organization/conclusion (1); conventions (1). Accept supported positions that disagree with the passage.

Science - 10 points

Score: _____ / 10

W1 data: A fictional survey uses the same area and observation time in two habitats. Trial A: 9 distinct species observed; Trial B: 15 distinct species observed. These are invented assessment data, not a claim about a real investigation.

1. How can burning fossil fuels affect carbon cycling? (1 point)

Answer / scoring: It transfers stored carbon to the atmosphere as carbon dioxide.

2. Why can excess nutrient runoff affect an ecosystem? (1 point)

Answer / scoring: It can alter growth and water conditions, including oxygen availability.

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 6 distinct species observed.

4. Use W1 data. State one observation without claiming its cause. (1 point)

Answer / scoring: Trial B recorded 15 versus 9 in A; accept an accurate description without an unsupported causal claim.

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

Answer / scoring: No. Need a clear tested variable, controls, repeated trials, and consideration of other causes. One point for no; one for a relevant reason.

6. Model one human impact on a cycle. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Activity, affected reservoir/process, likely consequence, and uncertainty/other influences.

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Hoy es lunes. Estamos en octubre.
Word bank: lunes, martes, viernes, enero, octubre, mes.

1. Translate into English: lunes. (1 point)

Answer / scoring: Monday

2. Translate into Spanish: Tuesday. (1 point)

Answer / scoring: martes; accept appropriate article/gender variants when meaning is correct.

3. Complete: Hoy es ___ . (Today is Friday.) (1 point)

Answer / scoring: viernes

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Hoy es lunes. Estamos en octubre. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
