Grade 7 - Module 2 Week 3 Quiz

Scheduled: 2026-12-04 | Current-week goals + math spiral review; science/social studies alternate

Student: _____ Date completed: _____

Math: 7.RP.1-3 | ELA: RI.7.1-8; W.7.1-2; L.7.1-3 | Science: L.7.3.1-5 | Social Studies: MS CCRS SS 7.2-7.3 and related early-civilization standards | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Math - 9 points

Score: _____ / 9

1. Table: x = 1, 2, 3; y = 6, 12, 18. Find constant k in y = kx. (1 point)

2. For y = 6x, find y when x = 7. (1 point)

3. For y = 6x, what does the graph point (1, 6) mean? (1 point)

4. Is y = 3x + 2 proportional? Explain. (1 point)

5. A proportional graph passes through (2, 10). What is y when x = 6? (1 point)

6. Plot (0,0), (1,6), and (3,18). Explain how the graph shows proportionality. (2 points)

7. Spiral review: -7 + 12 = ? (1 point)

8. Spiral review: Write 3/4 as a decimal. (1 point)

ELA - 13 points

Score: _____ / 13

Should the School Reduce Plastic?

The student council proposed replacing some single-use lunch packaging with reusable containers. Its argument began with a clear claim: the school should run a four-week trial before making a permanent purchase. The council's fictional classroom survey found that 72 of 120 respondents supported the trial. A second source, a cafeteria cost table, estimated that washing reusable containers would require additional time. Supporters argued that the trial could measure both waste and labor instead of assuming that one benefit settled the whole question. Critics worried about lost containers and unequal access to supplies. The proposal responded by lending containers during the trial and counting losses. The council did not claim that a survey proved the policy would work. It used the survey to show interest and proposed collecting direct evidence of costs and waste.

1. Write a defensible claim about the passage. (1 point)

2. Quote or paraphrase one supporting detail. (1 point)

3. Explain why unsupported opinion is weaker than evidence. (1 point)

4. Support your claim with two details and reasoning. (2 points)

5. What does the survey support, and what does it not prove? (1 point)

6. How does the proposal address a concern about access? (1 point)

7. Correct this misspelling: carefull. (1 point)

8. Write two organized paragraphs (at least 8 sentences total) stating an opinion or argument related to the supplied passage. Give two reasons and relevant evidence; use a transition and a conclusion. (5 points)

Science - 10 points

Score: _____ / 10

W3 data: A fictional survey uses the same area and observation time in two habitats. Trial A: 11 distinct species observed; Trial B: 17 distinct species observed. These are invented assessment data, not a claim about a real investigation.

1. What makes a sustainability proposal evidence-based? (1 point)

2. Why consider unintended consequences? (1 point)

3. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

4. Use W3 data. State one observation without claiming its cause. (1 point)

5. Use W3 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

6. Evaluate an ecosystem solution. (3 points)

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Necesito un lápiz y un libro.
Word bank: el libro, el lápiz, la mesa, la silla, la escuela, el cuaderno.

1. Translate into English: el libro. (1 point)

2. Translate into Spanish: the pencil. (1 point)

3. Translate notebook into Spanish. (1 point)

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)
