Arachne: an Original Retelling

This original retelling draws on the traditional myth. Arachne was a talented weaver who took great pride in her work. When people praised her skill, she insisted that no teacher or goddess deserved any credit. Athena, associated with wisdom and crafts, approached in disguise and advised her to speak with humility. Arachne dismissed the advice and demanded a contest. The two wove remarkable pictures, but their conflict involved more than technical skill: Arachne's attitude challenged the goddess's authority. In the traditional ending, Athena transformed Arachne into a spider, forever connected with weaving. Readers can admire Arachne's ability while questioning her boastfulness and the severity of the punishment. The story invites discussion of pride, power, artistic skill, and the consequences of refusing advice. A theme is a reasoned interpretation, not simply the name of a topic.
