Grade 7 - Module 4 Week 1 Quiz - TEACHER ANSWER KEY

Scheduled: 2027-01-29 | Current-week goals + math spiral review; science/social studies alternate

Math: 7.G.1-5 | ELA: W.7.3; RL.7.5-7; L.7.1-6 | Science: P.7.5C-E | Social Studies: 7.5 Ancient Rome | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Math - 9 points

Score: _____ / 9

1. At scale 1 cm : 5 m, what actual length is 5 cm? (1 point)

Answer / scoring: 25 m

2. At scale 1 cm : 5 m, what drawing length represents 35 m? (1 point)

Answer / scoring: 7 cm

3. A 4 cm side becomes 12 cm. Scale factor? (1 point)

Answer / scoring: 3

4. A 2 by 3 rectangle is enlarged by factor 4. New dimensions? (1 point)

Answer / scoring: 8 by 12

5. How does its area change under scale factor 4? (1 point)

Answer / scoring: Multiplied by 16

6. A map uses 1 cm : 2 km. A route measures 6.5 cm. Find the distance and show a proportion or equation. (2 points)

Answer / scoring: 6.5 x 2 = 13 km; equivalent proportion 1/2 = 6.5/d.

7. Spiral review: -5 + 14 = ? (1 point)

Answer / scoring: 9

8. Spiral review: Write 3/4 as a decimal. (1 point)

Answer / scoring: 0.75

ELA - 13 points

Score: _____ / 13

The Bridge Apprentice

In this original historical fiction, an apprentice watched an experienced builder inspect a Roman-style stone bridge. The apprentice wanted to remove the wooden supports as soon as the final stone was placed. "A finished appearance is not enough," the builder warned. He checked the arch and explained how its stones pressed against one another and transferred forces toward the supports. The apprentice grew impatient, but a cracked stone changed her mind. Together they replaced it and repeated the inspection. Later, the apprentice wrote that the delay had been the most important part of the work. The scene does not establish facts about a particular ancient builder; it uses an imagined conversation to explore patience and responsibility. Readers should distinguish the fictional characters from historical claims, such as the Romans' use of arches in engineering.

1. Identify a character or participant and a challenge in the passage. (1 point)

Answer / scoring: Accurate participant plus relevant problem; in Grade 7 Module 4, apprentice and unsafe/premature bridge work.

2. What does pacing mean in a narrative? (1 point)

Answer / scoring: The speed at which events are presented; detail/dialogue can slow important moments.

3. Write a transition that shows time order. (1 point)

Answer / scoring: Accept later, next, afterward, before, or a suitable phrase.

4. Write a brief imagined continuation with a logical sequence and a descriptive detail. (2 points)

Answer / scoring: Clearly follows the supplied situation; logical sequence and at least one sensory/specific detail.

5. Which event changes the apprentice's attitude? (1 point)

Answer / scoring: Finding a cracked stone.

6. Name one fictional element and one historical idea in the passage. (1 point)

Answer / scoring: Imagined apprentice/conversation; Romans used arches in engineering.

7. Correct this misspelling: diffrent. (1 point)

Answer / scoring: different

8. Write an original short narrative of two organized paragraphs (at least 8 sentences total) about solving a problem. Include a clear sequence, a setting, one descriptive detail, and an action or line of dialogue. Edit conventions. (5 points)

Answer / scoring: Rubric (5): clear sequence (1); character/setting (1); specific descriptive detail (1); meaningful action/dialogue (1); readable complete sentences and conventions (1). Accept varied original stories, not only the supplied passage.

Science - 10 points

Score: _____ / 10

W1 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 21 temperature in degrees C; Trial B: 29 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

1. Why can a precipitate indicate a chemical reaction? (1 point)

Answer / scoring: A new insoluble solid may form from reacting substances.

2. Does a visible change always mean a chemical reaction? (1 point)

Answer / scoring: No; physical changes can also be visible.

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 temperature in degrees C.

4. Use W1 data. State one observation without claiming its cause. (1 point)

Answer / scoring: Trial B recorded 29 versus 21 in A; accept an accurate description without an unsupported causal claim.

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

Answer / scoring: No. Need a clear tested variable, controls, repeated trials, and consideration of other causes. One point for no; one for a relevant reason.

6. Explain how to investigate a possible chemical reaction. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Observe identity-related evidence, compare alternatives, and use multiple observations.

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Quiero agua y pan, por favor.
Word bank: el arroz, el pan, el agua, la leche, la fruta, el pollo.

1. Translate into English: el arroz. (1 point)

Answer / scoring: the rice

2. Translate into Spanish: the bread. (1 point)

Answer / scoring: el pan; accept appropriate article/gender variants when meaning is correct.

3. Translate bread into Spanish. (1 point)

Answer / scoring: pan / el pan

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Quiero agua y pan, por favor. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
