Grade 7 - Module 4 Week 3 Quiz

Scheduled: 2027-02-12 | Current-week goals + math spiral review; science/social studies alternate

Student: _____ Date completed: _____

Math: 7.G.1-5 | ELA: W.7.3; RL.7.5-7; L.7.1-6 | Science: P.7.5C-E | Social Studies: 7.5 Ancient Rome | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Math - 9 points

Score: _____ / 9

1. An angle is 35 degrees. Find its complement. (1 point)

2. An angle is 120 degrees. Find its supplement. (1 point)

3. One of two vertical angles is 68 degrees. Find the other. (1 point)

4. A straight angle is split into 2x degrees and 50 degrees. Find x. (1 point)

5. A triangle has angles 45 and 75 degrees. Find the third. (1 point)

6. Adjacent angles on a straight line measure (3x + 10) and (2x + 20) degrees. Write and solve an equation. (2 points)

7. Spiral review: -7 + 14 = ? (1 point)

8. Spiral review: Write 3/4 as a decimal. (1 point)

ELA - 13 points

Score: _____ / 13

The Bridge Apprentice

In this original historical fiction, an apprentice watched an experienced builder inspect a Roman-style stone bridge. The apprentice wanted to remove the wooden supports as soon as the final stone was placed. "A finished appearance is not enough," the builder warned. He checked the arch and explained how its stones pressed against one another and transferred forces toward the supports. The apprentice grew impatient, but a cracked stone changed her mind. Together they replaced it and repeated the inspection. Later, the apprentice wrote that the delay had been the most important part of the work. The scene does not establish facts about a particular ancient builder; it uses an imagined conversation to explore patience and responsibility. Readers should distinguish the fictional characters from historical claims, such as the Romans' use of arches in engineering.
Background for comparison: Hermes in Greek tradition and Mercury in Roman tradition are messengers associated with travel.

1. What is one role shared by Hermes and Mercury? (1 point)

2. Why can cultures have similar stories with different names? (1 point)

3. Name a defensible theme or central idea from the supplied passage. (1 point)

4. Explain how a myth or fable teaches a lesson through a character's actions. (2 points)

5. Which event changes the apprentice's attitude? (1 point)

6. Name one fictional element and one historical idea in the passage. (1 point)

7. Correct this misspelling: diffrent. (1 point)

8. Write an original short narrative of two organized paragraphs (at least 8 sentences total) about solving a problem. Include a clear sequence, a setting, one descriptive detail, and an action or line of dialogue. Edit conventions. (5 points)

Science - 10 points

Score: _____ / 10

W3 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 23 temperature in degrees C; Trial B: 31 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

1. How do exothermic and endothermic reactions differ? (1 point)

2. Why can a reaction's surroundings change temperature? (1 point)

3. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

4. Use W3 data. State one observation without claiming its cause. (1 point)

5. Use W3 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

6. Draw an energy-transfer model for each reaction type. (3 points)

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Quiero el menú, por favor.
Word bank: el desayuno, el almuerzo, la cena, quiero, el menú, por favor.

1. Translate into English: el desayuno. (1 point)

2. Translate into Spanish: lunch. (1 point)

3. Translate dinner into Spanish. (1 point)

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)
