Grade 7 - Module 6 Week 1 Quiz

Scheduled: 2027-04-02 | Current-week goals + math spiral review; science/social studies alternate

Student: _____ Date completed: _____

Math: 7.SP.5-8 | ELA: W.7.1; RI.7.8; L.7.1-3 | Science: E.7.9A.4-7 | Social Studies: MS CCRS SS Grade 7 - Africa/Asia/trade networks | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Math - 9 points

Score: _____ / 9

1. A bag has 6 red and 16 blue counters. Find P(red). (1 point)

2. A fair die is rolled. P(even)? (1 point)

3. A fair die is rolled. P(7)? (1 point)

4. A fair die is rolled. P(number less than 7)? (1 point)

5. A spinner has 4 equal sections, one green. P(not green)? (1 point)

6. Design a bag of 10 counters with P(red) = 3/5. Explain. (2 points)

7. Spiral review: -5 + 16 = ? (1 point)

8. Spiral review: Write 3/4 as a decimal. (1 point)

ELA - 13 points

Score: _____ / 13

An Argument for Trees

A community group argues that a school should plant trees near its outdoor learning area. Its claim is narrower than "trees solve every problem": a carefully chosen location may provide shade and support habitat. The group presents a fictional class data table comparing temperatures at a sunny spot and a shaded spot. It also acknowledges counterarguments: planting and watering cost money, and roots or branches may interfere with structures. Its proposal recommends consulting knowledgeable staff, selecting a suitable location, and comparing costs before planting. An effective response to a counterargument does not mock the people who raise it. Instead, it explains how the plan addresses a reasonable concern or why the evidence supports a different choice. The final paragraph asks the school to try a manageable plan and report the results.

1. Write a defensible claim about the passage. (1 point)

2. Quote or paraphrase one supporting detail. (1 point)

3. Explain why unsupported opinion is weaker than evidence. (1 point)

4. Support your claim with two details and reasoning. (2 points)

5. How is the claim limited rather than absolute? (1 point)

6. What are two counterarguments named in the passage? (1 point)

7. Correct this misspelling: evidance. (1 point)

8. Write two organized paragraphs (at least 8 sentences total) stating an opinion or argument related to the supplied passage. Give two reasons and relevant evidence; use a transition and a conclusion. (5 points)

Science - 10 points

Score: _____ / 10

W1 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 11 milliliters of water collected; Trial B: 19 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. How does latitude affect average incoming sunlight? (1 point)

2. How can elevation and large water bodies affect climate? (1 point)

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

4. Use W1 data. State one observation without claiming its cause. (1 point)

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

6. Model three climate controls for two hypothetical places. (3 points)

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Vivo en Mississippi. Escribo una carta.
Word bank: comer, beber, vivir, escribir, leer, abrir.

1. Translate into English: comer. (1 point)

2. Translate into Spanish: to drink. (1 point)

3. Complete: Yo ___ agua. (beber, present tense) (1 point)

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)
