Grade 7 - Module 6 Week 2 Quiz - TEACHER ANSWER KEY

Scheduled: 2027-04-09 | Current-week goals + math spiral review; science/social studies alternate

Math: 7.SP.5-8 | ELA: W.7.1; RI.7.8; L.7.1-3 | Science: E.7.9A.4-7 | Social Studies: MS CCRS SS Grade 7 - Africa/Asia/trade networks | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Math - 9 points

Score: _____ / 9

1. A coin gives 18 heads in 40 trials. Experimental P(heads)? (1 point)

Answer / scoring: 18/40 = 9/20 = 0.45

2. What is theoretical P(heads) for a fair coin? (1 point)

Answer / scoring: 1/2

3. At an experimental rate of 0.45, predict heads in 200 trials. (1 point)

Answer / scoring: 90

4. A die shows 6 in 12 of 90 trials. Experimental P(6)? (1 point)

Answer / scoring: 12/90 = 2/15

5. Must a fair coin give exactly 50 heads in 100 tosses? (1 point)

Answer / scoring: No; individual outcomes vary.

6. Design a simulation for a 30% chance of rain using digits 0-9. (2 points)

Answer / scoring: Assign 3 digits, e.g. 0,1,2, to rain and 7 to no rain; generate digits randomly and repeat many trials. Model represents 3/10.

7. Spiral review: -6 + 16 = ? (1 point)

Answer / scoring: 10

8. Spiral review: Write 3/4 as a decimal. (1 point)

Answer / scoring: 0.75

ELA - 13 points

Score: _____ / 13

An Argument for Trees

A community group argues that a school should plant trees near its outdoor learning area. Its claim is narrower than "trees solve every problem": a carefully chosen location may provide shade and support habitat. The group presents a fictional class data table comparing temperatures at a sunny spot and a shaded spot. It also acknowledges counterarguments: planting and watering cost money, and roots or branches may interfere with structures. Its proposal recommends consulting knowledgeable staff, selecting a suitable location, and comparing costs before planting. An effective response to a counterargument does not mock the people who raise it. Instead, it explains how the plan addresses a reasonable concern or why the evidence supports a different choice. The final paragraph asks the school to try a manageable plan and report the results.

1. Write a defensible claim about the passage. (1 point)

Answer / scoring: A responsible argument connects a limited claim, evidence, and reasonable counterarguments.

2. Quote or paraphrase one supporting detail. (1 point)

Answer / scoring: It says a carefully chosen location may help, rather than promising trees solve every problem.

3. Explain why unsupported opinion is weaker than evidence. (1 point)

Answer / scoring: An unsupported opinion gives no verifiable reason; evidence allows a reader to evaluate a claim.

4. Support your claim with two details and reasoning. (2 points)

Answer / scoring: A responsible argument connects a limited claim, evidence, and reasonable counterarguments.; two accurate relevant details and a connection to the claim.

5. How is the claim limited rather than absolute? (1 point)

Answer / scoring: It says a carefully chosen location may help, rather than promising trees solve every problem.

6. What are two counterarguments named in the passage? (1 point)

Answer / scoring: Cost of planting/watering; roots/branches interfering with structures.

7. Correct this misspelling: evidance. (1 point)

Answer / scoring: evidence

8. Write two organized paragraphs (at least 8 sentences total) stating an opinion or argument related to the supplied passage. Give two reasons and relevant evidence; use a transition and a conclusion. (5 points)

Answer / scoring: Rubric (5): clear claim (1); two relevant reasons (1 each); evidence and logical organization/conclusion (1); conventions (1). Accept supported positions that disagree with the passage.

Social Studies - 10 points

Score: _____ / 10

W2 background: Water, distances, routes, and transport needs shaped journeys. Travelers needed routes, supplies, skills, and relationships. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. How did desert geography influence trans-Saharan trade? (1 point)

Answer / scoring: Water, distances, routes, and transport needs shaped journeys.

2. Why were knowledge and cooperation important to long-distance travel? (1 point)

Answer / scoring: Travelers needed routes, supplies, skills, and relationships.

3. Use W2 background. Identify one claim that could be checked against a map, document, or other reliable source. (1 point)

Answer / scoring: Water, distances, routes, and transport needs shaped journeys. OR Travelers needed routes, supplies, skills, and relationships.; accept a checkable claim accurately drawn from the note.

4. Use W2 background. Explain how two ideas in the note connect. (2 points)

Answer / scoring: Accept a logical relationship using accurate details from both statements; do not require one exact interpretation.

5. Name one kind of source that could help check the background note and explain why. (2 points)

Answer / scoring: A relevant map, scholarly/educator text, community source, historical document, or data record; source must match the claim. One point for suitable source and one for purpose.

6. Plan a historical trade-route explanation. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Geographic challenge, goods/transport, people's knowledge, and exchange beyond goods.

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Me gusta leer y dibujar.
Word bank: leer, cantar, dibujar, bailar, jugar, la música.

1. Translate into English: leer. (1 point)

Answer / scoring: to read

2. Translate into Spanish: to sing. (1 point)

Answer / scoring: cantar; accept appropriate article/gender variants when meaning is correct.

3. Complete: Me ___ leer. (I like reading.) (1 point)

Answer / scoring: gusta

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Me gusta leer y dibujar. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
