The Printer's Workshop

Original drama:
[An apprentice arranges metal type on a table.]
APPRENTICE: If we print the same page many times, will every reader agree with it?
PRINTER: Copies spread words, not agreement.
APPRENTICE: Then accuracy matters before the first copy.
[The printer points to a misplaced letter.]
PRINTER: And readers must question what they read.

Informational companion: In early modern Europe, printing made it possible to reproduce texts more quickly than copying each one by hand. Printed works helped ideas circulate, including religious, scientific, and artistic arguments. Access remained uneven; not everyone could read or obtain books. Greater circulation did not guarantee that every claim was true. Scholars therefore needed observation, reasoning, and the comparison of sources as well as access to texts.

1. State a central idea or theme of the passage. (1 point)

Answer / scoring: Printing expands access to ideas but does not remove the need for critical reading.

2. Give a detail that supports that idea. (1 point)

Answer / scoring: People can read the same words and interpret, question, or reject the ideas differently.

3. Explain how a second detail adds to the idea. (1 point)

Answer / scoring: Unequal access/literacy; circulation does not guarantee truth.; explain a logical connection.

4. Explain how the ending or final statement develops the passage's message. (2 points)

Answer / scoring: Printing expands access to ideas but does not remove the need for critical reading.; include a relevant final detail and a logical explanation.

5. Why does the printer say that copies do not spread agreement? (1 point)

Answer / scoring: People can read the same words and interpret, question, or reject the ideas differently.

6. Identify one limitation of printing discussed in the companion text. (1 point)

Answer / scoring: Unequal access/literacy; circulation does not guarantee truth.

7. Correct this misspelling: communacate. (1 point)

Answer / scoring: communicate

8. Write two organized paragraphs (at least 8 sentences total) about the passage's main message. Use two accurate details, explain their connection, and edit sentences and spelling. (5 points)

Answer / scoring: Rubric: clear relevant main idea/claim (1); two accurate supporting details (1 each); reasoning/organization (1); readable complete sentences and conventions (1). Accept defensible interpretations, not just the sample central idea: Printing expands access to ideas but does not remove the need for critical reading.

Social Studies - 10 points

W2 background: Religious reform movements and challenges to church practices/authority, with political/social consequences. Texts could be reproduced and shared more quickly. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. What did the Reformation involve? (1 point)

Answer / scoring: Religious reform movements and challenges to church practices/authority, with political/social consequences.

2. Why did printing help reform arguments circulate? (1 point)

Answer / scoring: Texts could be reproduced and shared more quickly.

3. Use W2 background. Identify one claim that could be checked against a map, document, or other reliable source. (1 point)

Answer / scoring: Religious reform movements and challenges to church practices/authority, with political/social consequences. OR Texts could be reproduced and shared more quickly.; accept a checkable claim accurately drawn from the note.

4. Use W2 background. Explain how two ideas in the note connect. (2 points)

Answer / scoring: Accept a logical relationship using accurate details from both statements; do not require one exact interpretation.

5. Name one kind of source that could help check the background note and explain why. (2 points)

Answer / scoring: A relevant map, scholarly/educator text, community source, historical document, or data record; source must match the claim. One point for suitable source and one for purpose.

6. Explain a reform argument's circulation. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Idea/text, printing/network, differing responses, and context; avoid universal agreement.
