Grade 7 - Module 9 Comprehensive Test - TEACHER ANSWER KEY

Scheduled: 2027-07-16 | Covers all four module weeks and all five subjects

Math: Cumulative Grade 7 MS CCRS + Mathematical Practices | ELA: W.7.1-9; SL.7.4-6; cumulative RL/RI/L | Science: Cumulative L.7.3; P.7.5; E.7.9 | Social Studies: MS CCRS SS Grade 7 Early World History - Exploration/Enlightenment | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Math - 28 points

Score: _____ / 28

1. Simplify the ratio 18:24. (1 point)

Answer / scoring: 3:4

2. -5/6 + 1/3 = ? (1 point)

Answer / scoring: -1/2

3. Three pounds cost $7.50. Unit price? (1 point)

Answer / scoring: $2.50/pound

4. Find 15% of 80. (1 point)

Answer / scoring: 12

5. For y = 4x, find y when x = 9. (1 point)

Answer / scoring: 36

6. A recipe uses 2 cups flour for 3 cups oats. For 12 cups oats, find flour and explain proportionality. (2 points)

Answer / scoring: 8 cups flour; ratio 2/3 = 8/12 or scale both by 4.

7. Solve x + 2 = 11. (1 point)

Answer / scoring: 9

8. Solve 2x = 14. (1 point)

Answer / scoring: 7

9. Solve 2x + 2 = 14. (1 point)

Answer / scoring: 6

10. Data: 2, 4, 6, 8. Find the mean. (1 point)

Answer / scoring: 5

11. Data: 2, 4, 4, 10, 15. Find the median. (1 point)

Answer / scoring: 4

12. A club charges $5 to join plus $3 per visit. A total of $23 is paid. Write an equation, solve, and check. (2 points)

Answer / scoring: 5 + 3v = 23; v = 6 visits; 5 + 3(6) = 23.

13. A circle has radius 3 cm. Give its diameter. (1 point)

Answer / scoring: 6 cm

14. A circle has radius 3 cm. Give circumference in terms of pi. (1 point)

Answer / scoring: 6pi cm

15. A circle has radius 3 cm. Give area in terms of pi. (1 point)

Answer / scoring: 9pi square cm

16. Two fair coins are tossed. P(exactly one head)? (1 point)

Answer / scoring: 1/2

17. A fair die is rolled. P(number greater than 4)? (1 point)

Answer / scoring: 1/3

18. Explain why the circumference formula uses diameter while area uses the square of radius. State both formulas and find each for radius 4. (2 points)

Answer / scoring: C = pi d = 2pi r = 8pi; A = pi r^2 = 16pi. Circumference is length; area measures a two-dimensional region.

19. For y = 2x + 3, find y when x = 4. (1 point)

Answer / scoring: 11

20. For y = 3x - 1, find y when x = 0. (1 point)

Answer / scoring: -1

21. Find slope through (1, 5) and (3, 9). (1 point)

Answer / scoring: 2

22. Is y = 2x + 3 proportional? (1 point)

Answer / scoring: No; nonzero intercept.

23. A line has slope 4 and y-intercept 2. Write its equation. (1 point)

Answer / scoring: y = 4x + 2

24. A taxi charges $3 plus $2 per mile. Write a linear model and explain slope and intercept. (2 points)

Answer / scoring: C = 2m + 3; slope $2/mile; intercept $3 initial fee. This is an Algebra bridge item.

ELA - 16 points

Score: _____ / 16

A History Portfolio

A student created a portfolio about how travel and communication changed societies. She began with a research question rather than a list of famous people: How did networks connect communities, and whose experiences were left out of the usual accounts? She compared a map, a trade-route reading, and a translated historical account. Her notes separated quotations, paraphrases, and her own interpretations. When two accounts disagreed, she recorded their authors, purposes, and contexts instead of choosing the more dramatic version. The final presentation used a timeline but did not imply that every change happened everywhere at once. It included an argument supported by evidence and a section explaining limitations. The student concluded that a strong portfolio shows not only a polished product but also how the researcher checked and revised the work.

1. Write a focused research question connected to the passage. (1 point)

Answer / scoring: Accept a specific, answerable question connected to the text, not an unlimited topic.

2. Name two different kinds of sources that could help answer it. (1 point)

Answer / scoring: Accept relevant books/articles, maps/data, interviews/primary accounts; each must suit the question.

3. Identify one strong idea you could develop from the passage. (1 point)

Answer / scoring: Strong historical research compares sources, supports an argument, and explains limits.

4. Name one revision that improves organization or evidence. (1 point)

Answer / scoring: Move/group ideas, add a relevant detail, remove an irrelevant idea, or clarify reasoning.

5. Correct "Their going to the library." (1 point)

Answer / scoring: They're going to the library.

6. Correct "The students was ready." (1 point)

Answer / scoring: The students were ready.

7. Identify one strong idea you could develop from the passage. (1 point)

Answer / scoring: Strong historical research compares sources, supports an argument, and explains limits.

8. Name one revision that improves organization or evidence. (1 point)

Answer / scoring: Move/group ideas, add a relevant detail, remove an irrelevant idea, or clarify reasoning.

9. What does the student do when accounts disagree? (1 point)

Answer / scoring: Checks authors, purposes, contexts, and records the disagreement rather than selecting by drama.

10. Why does the timeline need explanation? (1 point)

Answer / scoring: Changes did not happen at the same time or in the same way everywhere.

11. Correct this misspelling: conclution. (1 point)

Answer / scoring: conclusion

12. Write two organized paragraphs (at least 8 sentences total) about the passage's main message. Use two accurate details, explain their connection, and edit sentences and spelling. Include one reflection about how your interpretation might differ from another reader's. (5 points)

Answer / scoring: Rubric: clear relevant main idea/claim (1); two accurate supporting details (1 each); reasoning/organization (1); readable complete sentences and conventions (1). Accept defensible interpretations, not just the sample central idea: Strong historical research compares sources, supports an argument, and explains limits.

Science - 28 points

Score: _____ / 28

W1 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 11 milliliters of water collected; Trial B: 19 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W2 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 12 milliliters of water collected; Trial B: 20 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W3 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 13 milliliters of water collected; Trial B: 21 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

W4 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 14 milliliters of water collected; Trial B: 22 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. Why frame a capstone around a focused question? (1 point)

Answer / scoring: A focused question guides feasible evidence collection.

2. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

3. Plan a systems/cycles capstone. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Specific question, model boundary, variables/processes, data, and possible explanations.

4. Why can a model be useful even when it is simplified? (1 point)

Answer / scoring: It makes selected relationships visible, but its limits must be stated.

5. Use W2 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

6. Revise a model using new observations. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Identify original feature, new evidence, changed feature, and remaining limitation.

7. What is one purpose of a lab report's methods section? (1 point)

Answer / scoring: Enable others to understand and repeat/evaluate the procedure.

8. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

9. Draft a lab-report/CER outline. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Question, methods, data, claim, scientific reasoning, and limitation.

10. Why should a capstone include more than a final score? (1 point)

Answer / scoring: It should document evidence, reasoning, revision, and communication.

11. Use W4 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

12. Plan a science showcase summary. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Question, model/method, results, explanation, limitations, and next investigation.

13. Choose one of the supplied data comparisons. Write a claim supported by those data, give the two values as evidence, and explain what further information would be needed for a causal explanation. (4 points)

Answer / scoring: Rubric (4): accurate limited claim (1); two correct data values (1); logical connection to claim (1); relevant limitation/next test (1). Accept varied claims bounded by the supplied data.

Social Studies - 24 points

Score: _____ / 24

W1 background: New routes linked trade and migration, while conquest, exploitation, disease, and enslavement damaged communities. European accounts alone omit experiences of many people affected. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W2 background: Reason, rights, consent, limits on government, or debates about equality. Rights/equality claims often coexisted with exclusion and slavery. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W3 background: It comes from the relevant period/event or direct participants, depending on the question. Perspective, purpose, bias, and limited knowledge affect accounts. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W4 background: It selects events and scales, leaving out many experiences and connections. Evidence-based argument, source comparison, connections, and reflection. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Why did maritime exploration connect societies and also create harm? (1 point)

Answer / scoring: New routes linked trade and migration, while conquest, exploitation, disease, and enslavement damaged communities.

2. Why include Indigenous and African perspectives? (1 point)

Answer / scoring: European accounts alone omit experiences of many people affected.

3. Compare accounts of exploration/contact. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Different creators/purposes, evidence, benefits/harms, and omissions.

4. What is one broad Enlightenment idea? (1 point)

Answer / scoring: Reason, rights, consent, limits on government, or debates about equality.

5. Why compare ideals with actual practices? (1 point)

Answer / scoring: Rights/equality claims often coexisted with exclusion and slavery.

6. Analyze an Enlightenment ideal and contradiction. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Accurate ideal, example of unequal application, context, and reasoned evaluation.

7. What makes an account a primary source for a historical question? (1 point)

Answer / scoring: It comes from the relevant period/event or direct participants, depending on the question.

8. Why is a primary source not automatically accurate or complete? (1 point)

Answer / scoring: Perspective, purpose, bias, and limited knowledge affect accounts.

9. Plan a primary-source seminar comparison. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Creator/date/purpose, observable claims, corroboration, missing voices, and questions.

10. Why is a world-history timeline a model rather than a full history? (1 point)

Answer / scoring: It selects events and scales, leaving out many experiences and connections.

11. What can a capstone show besides memorized dates? (1 point)

Answer / scoring: Evidence-based argument, source comparison, connections, and reflection.

12. Plan a world-history capstone and timeline. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Focused question, accurate sequencing, connections, sources/perspectives, and limitations.

13. Choose one background note. Describe an additional perspective or source that could improve it, and explain what it might reveal or challenge. (4 points)

Answer / scoring: Rubric (4): identifies chosen note/claim (1); relevant additional source/perspective (1); explains new insight/check (1); recognizes limits rather than treating one source as complete truth (1).

Spanish - 12 points

Score: _____ / 12

Spanish model and vocabulary (cue support allowed)

Hola. Me llamo Ana. Me gusta leer.
Word bank: hola, el libro, la familia, la comida, hace sol, estudiar.

1. Week 1: Complete: Me ___ Ana. (1 point)

Answer / scoring: llamo

2. Week 2: Complete: Me ___ Ana. (1 point)

Answer / scoring: llamo

3. Week 3: Translate the country into Spanish. (1 point)

Answer / scoring: el país / país

4. Week 4: Complete: Me ___ Ana. (1 point)

Answer / scoring: llamo

5. Read the supplied Spanish model. Give its meaning in English. (2 points)

Answer / scoring: Hello. My name is Ana. I like reading.

6. Write one new correct sentence using vocabulary from this module. (2 points)

Answer / scoring: One point for relevant vocabulary; one for a meaningful correct sentence. Accept varied answers.

7. Oral task (teacher listens): Use 6-8 short statements or a 6-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Hola. Me llamo Ana. Me gusta leer. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
