Grade 7 - Module 9 Week 1 Quiz - TEACHER ANSWER KEY

Scheduled: 2027-06-25 | Current-week goals + math spiral review; science/social studies alternate

Math: Cumulative Grade 7 MS CCRS + Mathematical Practices | ELA: W.7.1-9; SL.7.4-6; cumulative RL/RI/L | Science: Cumulative L.7.3; P.7.5; E.7.9 | Social Studies: MS CCRS SS Grade 7 Early World History - Exploration/Enlightenment | Spanish: MS World Languages Framework 2016 - Novice communication

Award points by item. Accept equivalent correct mathematical forms and supported written interpretations. For open responses, use the stated rubric; do not require identical wording. Score each subject separately, then apply your grading policy.

Math - 9 points

Score: _____ / 9

1. Simplify the ratio 18:24. (1 point)

Answer / scoring: 3:4

2. -5/6 + 1/3 = ? (1 point)

Answer / scoring: -1/2

3. Three pounds cost $7.50. Unit price? (1 point)

Answer / scoring: $2.50/pound

4. Find 15% of 80. (1 point)

Answer / scoring: 12

5. For y = 4x, find y when x = 9. (1 point)

Answer / scoring: 36

6. A recipe uses 2 cups flour for 3 cups oats. For 12 cups oats, find flour and explain proportionality. (2 points)

Answer / scoring: 8 cups flour; ratio 2/3 = 8/12 or scale both by 4.

7. Spiral review: -5 + 19 = ? (1 point)

Answer / scoring: 14

8. Spiral review: Write 3/4 as a decimal. (1 point)

Answer / scoring: 0.75

ELA - 13 points

Score: _____ / 13

A History Portfolio

A student created a portfolio about how travel and communication changed societies. She began with a research question rather than a list of famous people: How did networks connect communities, and whose experiences were left out of the usual accounts? She compared a map, a trade-route reading, and a translated historical account. Her notes separated quotations, paraphrases, and her own interpretations. When two accounts disagreed, she recorded their authors, purposes, and contexts instead of choosing the more dramatic version. The final presentation used a timeline but did not imply that every change happened everywhere at once. It included an argument supported by evidence and a section explaining limitations. The student concluded that a strong portfolio shows not only a polished product but also how the researcher checked and revised the work.

1. Write a focused research question connected to the passage. (1 point)

Answer / scoring: Accept a specific, answerable question connected to the text, not an unlimited topic.

2. Name two different kinds of sources that could help answer it. (1 point)

Answer / scoring: Accept relevant books/articles, maps/data, interviews/primary accounts; each must suit the question.

3. Why should a researcher record a source's creator and title? (1 point)

Answer / scoring: To trace, check, and credit information.

4. Explain how to narrow a research topic that is too broad. (2 points)

Answer / scoring: Limit the place, time, question, or aspect; include a concrete narrower example.

5. What does the student do when accounts disagree? (1 point)

Answer / scoring: Checks authors, purposes, contexts, and records the disagreement rather than selecting by drama.

6. Why does the timeline need explanation? (1 point)

Answer / scoring: Changes did not happen at the same time or in the same way everywhere.

7. Correct this misspelling: conclution. (1 point)

Answer / scoring: conclusion

8. Write two organized paragraphs (at least 8 sentences total) about the passage's main message. Use two accurate details, explain their connection, and edit sentences and spelling. (5 points)

Answer / scoring: Rubric: clear relevant main idea/claim (1); two accurate supporting details (1 each); reasoning/organization (1); readable complete sentences and conventions (1). Accept defensible interpretations, not just the sample central idea: Strong historical research compares sources, supports an argument, and explains limits.

Science - 10 points

Score: _____ / 10

W1 data: A fictional class compares water collection in two labeled trials using the same time interval. Trial A: 11 milliliters of water collected; Trial B: 19 milliliters of water collected. These are invented assessment data, not a claim about a real investigation.

1. How do matter cycles differ from energy flow through an ecosystem? (1 point)

Answer / scoring: Matter cycles among reservoirs; energy flows and is dispersed as thermal energy.

2. Why frame a capstone around a focused question? (1 point)

Answer / scoring: A focused question guides feasible evidence collection.

3. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

Answer / scoring: Trial B; 8 milliliters of water collected.

4. Use W1 data. State one observation without claiming its cause. (1 point)

Answer / scoring: Trial B recorded 19 versus 11 in A; accept an accurate description without an unsupported causal claim.

5. Use W1 data. Does this two-value table alone prove which factor caused the difference? Explain. (2 points)

Answer / scoring: No. Need a clear tested variable, controls, repeated trials, and consideration of other causes. One point for no; one for a relevant reason.

6. Plan a systems/cycles capstone. (3 points)

Answer / scoring: Rubric (3): scientifically accurate parts/ideas (1); correct relationships/reasoning (1); clear labels/evidence or method (1). Specific question, model boundary, variables/processes, data, and possible explanations.

Spanish - 7 points

Score: _____ / 7

Spanish model and vocabulary (cue support allowed)

Hola. Me llamo Ana. Me gusta leer.
Word bank: hola, el libro, la familia, la comida, hace sol, estudiar.

1. Translate into English: hola. (1 point)

Answer / scoring: hello

2. Translate into Spanish: the book. (1 point)

Answer / scoring: el libro; accept appropriate article/gender variants when meaning is correct.

3. Complete: Me ___ Ana. (1 point)

Answer / scoring: llamo

4. Oral task (teacher listens): Use 3 short statements or a 3-line exchange about this week/module topic. You may use the supplied vocabulary/model as a cue, but add your own relevant detail or question. (4 points)

Answer / scoring: Oral rubric (4): communicates topic meaning (1); uses relevant vocabulary (1); uses understandable phrases/sentences (1); responds to teacher or adds a relevant original detail/question (1). Sample cue: Hola. Me llamo Ana. Me gusta leer. Accept different accurate answers and appropriate gender/person forms. Minor accent/pronunciation errors do not erase understood meaning.
