Grade 4 · Module 4 Comprehensive gap assessment

Scheduled: 2027-02-19 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 4.NF.1-2 | ELA: RL.4.1-10; RI.4.1-10; W.4.1-9; L.4.1-6; SL.4.1-6 (grade-level coverage; module skill targets below) | Science: P.4.6A,C | Social Studies: MS CCRS SS Grade 4 - civics within Mississippi Studies | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Writing and conventions · required gap check - 12 points

Score: _____ / 12

The Missing Drum

Leo was ready to tell a story with sound effects, but his cardboard drum had disappeared. "I cannot perform without it," he said. His sister pointed to a box of empty containers. Leo tapped a large plastic bowl, then a smaller cup. The sounds were different. He practiced a steady beat and asked his sister to read the first line of the story. At the performance, he used a soft beat for footsteps and a louder beat for thunder. The audience followed the story closely. Afterward, Leo found his old drum behind a chair. He smiled because solving the problem had given him a better performance.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

3. Connect your writing to this module's Khan reading/grammar goals. Name two skills, show an example of each in your own writing, and explain your choices. (4 points)

Science - 28 points

Score: _____ / 28

W1 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 21 temperature in degrees C; Trial B: 29 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

W2 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 22 temperature in degrees C; Trial B: 30 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

W3 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 23 temperature in degrees C; Trial B: 31 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

W4 data: A fictional comparison records temperature before and after a controlled warming step. Trial A: 24 temperature in degrees C; Trial B: 32 temperature in degrees C. These are invented assessment data, not a claim about a real investigation.

1. How are pitch and volume different? (1 point)

2. Use W1 data. Which trial has the higher recorded value, and by how much? (2 points)

3. Draw a vibrating source and explain pitch versus loudness. (3 points)

4. What is an insulator? (1 point)

5. Use W2 data. Which trial has the higher recorded value, and by how much? (2 points)

6. Model a simple test comparing a conductor and an insulator. (3 points)

7. Name an energy change in a battery-powered lamp. (1 point)

8. Use W3 data. Which trial has the higher recorded value, and by how much? (2 points)

9. Draw a battery, wires, and bulb in a closed circuit. (3 points)

10. What is a design constraint? (1 point)

11. Use W4 data. Which trial has the higher recorded value, and by how much? (2 points)

12. Plan a sound or electric device with one goal and one constraint. (3 points)

13. Choose one of the supplied data comparisons. Write a claim supported by those data, give the two values as evidence, and explain what further information would be needed for a causal explanation. (4 points)

Social Studies - 24 points

Score: _____ / 24

W1 background: Make/enforce laws, provide services, protect rights, or manage public decisions. State government addresses statewide matters; local governments address communities within their authority. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W2 background: An action supporting community/public life, such as following laws or participating responsibly. Learn about issues, discuss respectfully, help a community project, or communicate ideas. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W3 background: Shared history, identity, ideals, or institutions, interpreted in context. They serve public/community purposes and are organized for those roles. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

W4 background: Different resources and needs can produce different solutions. Decisions have benefits, costs, and potentially unequal effects. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. What is one role of government? (1 point)

2. How can state and local governments differ? (1 point)

3. Compare one state service and one local service. (3 points)

4. What is a civic responsibility? (1 point)

5. How can a child participate in civic life? (1 point)

6. Plan a civic action suitable for a student. (3 points)

7. What can a public symbol represent? (1 point)

8. Why are libraries and schools called public institutions? (1 point)

9. Explain one public institution's purpose. (3 points)

10. Why compare how communities solve a civic problem? (1 point)

11. Why should a plan consider people affected by it? (1 point)

12. Compare two civic solutions. (3 points)

13. Choose one background note. Describe an additional perspective or source that could improve it, and explain what it might reveal or challenge. (4 points)
