Grade 4 · Module 5 Week 2 Friday gap quiz

Scheduled: 2027-03-05 | Required writing, hands-on/science, social studies, and Spanish gap work. Complete the separately listed Khan assessments for primary-course coverage.

Student: _____ Date completed: _____

Math: 4.NF.3-4 | ELA: RL.4.1-10; RI.4.1-10; W.4.1-9; L.4.1-6; SL.4.1-6 (grade-level coverage; module skill targets below) | Science: P.4.6A-C; engineering design | Social Studies: MS CCRS SS Grade 4 - regions/geography/economics | Spanish: MS World Languages Framework 2016 - Novice communication

Student paper contains no answers. Complete all sections. Show math work. Use only the supplied passages/background notes and teacher-approved tools. Spanish cue support is allowed. A module test may be divided into 2-3 sittings.

Writing and conventions · required gap check - 8 points

Score: _____ / 8

Keeping Water Cool

Two students investigated how to keep a cup of water cool. They used identical cups, the same amount of water, and the same starting temperature. One cup was wrapped in cloth; the other was left uncovered. After twenty minutes in the same room, they measured both temperatures. They wrote the results in a table. They did not call one measurement proof that cloth is always the best material. Instead, they proposed trying another material and repeating the test. Their report explained the question, method, observations, and limits of their conclusion. A clear report lets another reader understand what was tested and what still needs investigation.

1. Using the supplied passage, write one organized paragraph explaining its central message. Include two accurate details and explain how they support your response. (5 points)

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Social Studies - 10 points

Score: _____ / 10

W2 background: Temperature and precipitation influence crops, water needs, energy use, and other activities. No; climate uses long-term patterns. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. How can climate affect use of resources? (1 point)

2. Does one weather event describe a region's climate? (1 point)

3. Use W2 background. Identify one claim that could be checked against a map, document, or other reliable source. (1 point)

4. Use W2 background. Explain how two ideas in the note connect. (2 points)

5. Name one kind of source that could help check the background note and explain why. (2 points)

6. Compare climate and resources in two Southeast locations. (3 points)
