An Argument for Trees

A community group argues that a school should plant trees near its outdoor learning area. Its claim is narrower than "trees solve every problem": a carefully chosen location may provide shade and support habitat. The group presents a fictional class data table comparing temperatures at a sunny spot and a shaded spot. It also acknowledges counterarguments: planting and watering cost money, and roots or branches may interfere with structures. Its proposal recommends consulting knowledgeable staff, selecting a suitable location, and comparing costs before planting. An effective response to a counterargument does not mock the people who raise it. Instead, it explains how the plan addresses a reasonable concern or why the evidence supports a different choice. The final paragraph asks the school to try a manageable plan and report the results.

1. Using the supplied passage, write two organized paragraphs explaining its central message. Include two accurate details and explain how they support your response. (5 points)

Answer / scoring: 5-point rubric: accurate central message (1), two relevant text details (2), logical explanation/organization (1), clear sentences/conventions (1). Accept supported interpretations.

2. Revise two sentences from your response. Explain one change that improves grammar, word choice, or clarity. (3 points)

Answer / scoring: 3-point rubric: two effective revisions (2); accurate explanation of one improvement (1).

W2 background: Water, distances, routes, and transport needs shaped journeys. Travelers needed routes, supplies, skills, and relationships. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. How did desert geography influence trans-Saharan trade? (1 point)

Answer / scoring: Water, distances, routes, and transport needs shaped journeys.

2. Why were knowledge and cooperation important to long-distance travel? (1 point)

Answer / scoring: Travelers needed routes, supplies, skills, and relationships.

3. Use W2 background. Identify one claim that could be checked against a map, document, or other reliable source. (1 point)

Answer / scoring: Water, distances, routes, and transport needs shaped journeys. OR Travelers needed routes, supplies, skills, and relationships.; accept a checkable claim accurately drawn from the note.

4. Use W2 background. Explain how two ideas in the note connect. (2 points)

Answer / scoring: Accept a logical relationship using accurate details from both statements; do not require one exact interpretation.

5. Name one kind of source that could help check the background note and explain why. (2 points)

Answer / scoring: A relevant map, scholarly/educator text, community source, historical document, or data record; source must match the claim. One point for suitable source and one for purpose.

6. Plan a historical trade-route explanation. (3 points)

Answer / scoring: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Geographic challenge, goods/transport, people's knowledge, and exchange beyond goods.
