STUDENT TEXTBOOK

Unit 1 Mississippi: Land and Regions

Unit 2 Mississippi's People: Past and Present

A VenvLearning family homeschool curriculum

How to use this book

Every lesson starts on a new page with the same parts, so you always know where to look. Read the Look Closer boxes to see how a historian or geographer reads a source, map, or chart, and answer the Check Your Understanding questions. Your practice pages are in your Student Workbook, labeled with the same lesson number.

- Today's Goal (the box with the target) says what you will be able to do by the end of the lesson.
- Today's Assignment is your checklist for the day. Tick each box as you finish it.
- Each lesson page has three panels. The wide center panel is the lesson, in numbered steps: 1 Get Ready, 2 Learn, and 3 Check Your Understanding.
- The left panel holds things to remember: Key Ideas (the most important rule or fact; learn these), Watch Out warnings about common mistakes, tips, and a Remember note that sums up the lesson. Each one sits beside the part of the lesson it goes with.
- The right panel holds Words to Know (definitions), what to read in your Reader, and other extras.
- Pages that look like a page from a book, on cream paper with a brown READING tab, are things to read: stories, excerpts, and articles.
- Activity boxes are hands-on map, source, and timeline work. Do them with your teacher.
- At the end of each week of lessons there is a short Weekly Check in your workbook. Each unit ends with the Unit Test.

Glossary 55

UNIT 1

Mississippi: Land and Regions

Map skills, location, landforms and rivers, natural regions, resources, and regional economies.

From the flat, fertile Delta to the pine forests and the Gulf Coast, Mississippi is a state of many landscapes. In this unit you'll learn to read maps like a geographer, find Mississippi's place in the world, explore its rivers and regions, and discover how its natural resources shape the way people live and work.

In this unit you will…

- Read maps using the title, compass rose, key, and scale.
- Describe Mississippi's relative and absolute location.
- Identify landforms, waterways, and natural regions.
- Classify natural resources and explain how they shape regional economies.

CONNECTIONS TODAY

Pilots, truck drivers, farmers, and city planners all depend on maps and on knowing what each region's land can do.

UNIT VOCABULARY

compass rose	Shows directions on a map.
latitude	Lines measuring distance north or south of the equator.
region	An area with shared features.
natural resource	Something from nature people use.
goods	Things made or grown to sell.
services	Work done for others.

Lessons in this unit

Lesson	Title
1.1	Maps and Globes
1.2	Where in the World Is Mississippi?
1.3	Mississippi's Land and Water
1.4	Reading Physical and Political Maps
1.5	Mississippi's Natural Regions
1.6	Comparing the Delta and the Piney Woods
1.7	Natural Resources
1.8	Resources and Work in Each Region

REMEMBER

LESSON 1.1
Week 1 · Lesson 1 of 2

Unit 1: Mississippi: Land and Regions

Lesson 1.1: Maps and Globes

TODAY'S GOAL

I can use a map's title, compass rose, key, and scale to read a map.

Standards: C3 D2.Geo.1.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 1.1 in this book with your teacher.
- [ ] Do the Activity activity: Map My Room.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.1, Part A.
- [ ] Complete the rest of Workbook Lesson 1.1 (Parts B–D).

1 Get Ready

THINK ABOUT IT

If you had to give a friend directions from your house to a park, what would you draw?

2 Learn

A globe is a model of Earth, so it shows shapes and distances correctly, but it's hard to carry and you can only see half at a time. A map is a flat drawing of a place. Maps can show a whole country or one small neighborhood.

WORDS & MORE

WORDS TO KNOW

globe
A model of Earth shaped like a ball.

compass rose
A symbol that shows directions on a map.

map key
A box that explains the symbols on a map (also called a legend).

map scale
A line that shows how distance on the map compares with real distance.

REMEMBER

Map part	What it tells you
title	what the map shows
compass rose	directions: north (N), south (S), east (E), west (W), and in-between directions like northeast (NE)
map key (legend)	what each symbol, line, or color means
scale	how far apart places really are

This map's title tells you it shows cities of Mississippi. The star marks Jackson, the state capital, and dots mark other cities.

The compass rose in the top corner points north. The scale bar at the bottom stands for 50 miles. Rivers are drawn in blue.

Notice that the Mississippi River traces most of the state's western edge, and the southern coast meets the Gulf of Mexico.

WORDS & MORE

LOOK CLOSER · USE THE SCALE

About how far is it from Jackson to Gulfport?

1 Measure the distance on the map with a strip of paper.

2 Compare it with the scale bar (50 miles).

3 The distance is about three scale bars long.

Answer: about 150 miles

KEY IDEA

Read the title, check the compass rose, use the key, and measure with the scale.

ACTIVITY · MAP MY ROOM

Can you make a map someone else could use?

You need: paper; ruler; colored pencils.

1 Draw your bedroom or kitchen as if you were looking down from the ceiling.

REMEMBER

2 Add a title and a compass rose (find north with a compass app or the sunrise in the east).

3 Make a key with at least four symbols.

4 Add a scale such as “1 inch = 2 feet.”

Record: your finished map; trade with a family member and ask them to find something using only the map.

WORDS & MORE

✓ REMEMBER

Title, compass rose, key, and scale help you read any map.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 1.1, Part A. Then check with your teacher.

1. Which map part explains symbols?
2. Which direction is between north and east?
3. Which city is the state capital?

REMEMBER

LESSON 1.2
Week 1 · Lesson 2 of 2

Unit 1: Mississippi: Land and Regions

Lesson 1.2: Where in the World Is Mississippi?

TODAY'S GOAL

I can describe Mississippi's location using relative location, hemispheres, and latitude and longitude.

Standards: C3 D2.Geo.2.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 1.2 in this book with your teacher.
- [ ] Do the Activity activity: Grid Hunt.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.2, Part A.
- [ ] Complete the rest of Workbook Lesson 1.2 (Parts B–D).

1 Get Ready

THINK ABOUT IT

How would you describe where you live to someone on the other side of the world?

2 Learn

Relative location describes a place by what is near it. Mississippi is in the southern United States. It borders Tennessee to the north, Alabama to the east, the Gulf of

WORDS & MORE

WORDS TO KNOW

relative location
Where a place is compared with other places.

absolute location
The exact location of a place, given by latitude and longitude.

latitude
Imaginary lines that run east and west and measure distance north or south of the equator.

longitude
Imaginary lines that run north and south and measure distance east or west of the prime meridian.

hemisphere
Half of Earth.

REMEMBER

Mexico and Louisiana to the south, and Louisiana and Arkansas to the west, across the Mississippi River.

Mississippi is highlighted.

Absolute location uses a grid of imaginary lines. Lines of latitude measure degrees north or south of the equator. Lines of longitude measure degrees east or west of the prime meridian.

Because Mississippi is north of the equator and west of the prime meridian, it is in the Northern and Western Hemispheres. Jackson is at about 32° N, 90° W.

Latitude labels at left; longitude labels at bottom.

KEY IDEA

Relative location compares places; absolute location uses latitude and longitude. Mississippi is in the Northern and Western Hemispheres.

ACTIVITY · GRID HUNT

Can you find places using latitude and longitude?

You need: a globe or world map with latitude and longitude lines; paper and a pencil.

1 Find 30° N, 90° W. What place is near there?

2 Find the equator and the prime meridian.

3 Find a place in each of the four hemispheres.

4 Make up two coordinates and challenge a family member to find them.

Record: each coordinate and the place you found.

WORDS & MORE

REMEMBER

✓ REMEMBER

Mississippi is in the southern U.S., in the Northern and Western Hemispheres, around 32° N, 90° W.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 1.2, Part A. Then check with your teacher.

1. Which state borders Mississippi to the east?
2. Which body of water is south of Mississippi?
3. Which hemispheres is Mississippi in?

WORDS & MORE

REMEMBER

LESSON 1.3
Week 2 · Lesson 1 of 2

Unit 1: Mississippi: Land and Regions

Lesson 1.3: Mississippi's Land and Water

TODAY'S GOAL

I can identify Mississippi's major landforms and waterways and explain why they matter.

Standards: C3 D2.Geo.2.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 1.3 in this book with your teacher.
- [ ] Do the Activity activity: Which Way Does Water Flow?.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.3, Part A.
- [ ] Complete the rest of Workbook Lesson 1.3 (Parts B–D).

1 Get Ready

THINK ABOUT IT

Most of Mississippi's rivers flow toward the south. Why do you think that is?

2 Learn

Mississippi is mostly low, rolling hills and flat plains. Its highest point is Woodall Mountain in the far northeast, about 806 feet above sea level. Its lowest point is sea level along the Gulf of Mexico. Because the land is generally

WORDS & MORE

WORDS TO KNOW

landform
A natural shape of the land, such as a hill, plain, or valley.

plain
A large area of flat land.

river basin
All the land drained by a river and the streams that flow into it.

bluff
A high, steep bank, often along a river.

tributary
A smaller river or stream that flows into a larger one.

REMEMBER

higher in the north and lower in the south, most rivers flow south toward the Gulf.

Waterway	Fact
Mississippi River	Forms most of the state's western border; one of the longest rivers in North America
Yazoo River	Flows through the Delta into the Mississippi at Vicksburg
Pearl River	Flows past Jackson to the Gulf; part of it forms the border with Louisiana
Tombigbee River	Flows south through eastern Mississippi into Alabama
Pascagoula River	Flows into the Gulf at Pascagoula
Gulf of Mexico	Mississippi's southern coast, about 44 miles long

Waterways have always mattered to people here. Rivers provided fish, water, and travel routes for American Indian nations.

Later, steamboats carried cotton and goods on the Mississippi River.

Today, barges still move goods on the Mississippi and on the Tennessee-Tombigbee Waterway, a canal system opened in 1985 that connects the Tennessee River to the Tombigbee.

KEY IDEA

Mississippi's land is higher in the north and lower in the south, so most rivers flow south to the Gulf. Rivers have shaped travel, trade, and settlement.

ACTIVITY · WHICH WAY DOES WATER FLOW?

How does the slope of land decide where rivers go?

You need: a baking sheet or tray; a towel to tilt it; a cup of water; a few pebbles.

1. Raise one end of the tray to make “high land” in the north.
2. Slowly pour water at the high end.
3. Watch which way it flows and where it collects.
4. Add pebbles as “hills” and observe how the water's path changes.

WORDS & MORE

REMEMBER

✓ REMEMBER

Most Mississippi rivers flow south to the Gulf; waterways shape travel and trade.

Record: a sketch showing high land, low land, and the water's path, and an explanation linked to Mississippi's rivers.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 1.3, Part A. Then check with your teacher.

1. What is Mississippi's highest point?
2. Which river forms most of the western border?
3. Why do most rivers flow south?

WORDS & MORE

REMEMBER

LESSON 1.4
Week 2 · Lesson 2 of 2

Unit 1: Mississippi: Land and Regions

Lesson 1.4: Reading Physical and Political Maps

TODAY'S GOAL

I can tell physical and political maps apart and use each to answer questions.

Standards: C3 D2.Geo.1.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 1.4 in this book with your teacher.
- [ ] Do the Activity activity: Salt Dough Relief Map.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.4, Part A.
- [ ] Complete the rest of Workbook Lesson 1.4 (Parts B–D).

1 Get Ready

THINK ABOUT IT

What's the difference between a map of the rivers in Mississippi and a map of its cities?

2 Learn

A physical map shows what nature made: rivers, hills, coastlines, and elevation, often with colors (green for low land, tan or brown for higher land). A political map shows what people decided: state and county boundaries, capitals, and cities. Mississippi is divided into 82 counties.

WORDS & MORE

WORDS TO KNOW

physical map
A map that shows natural features such as rivers, mountains, and elevation.

political map
A map that shows human-made boundaries, states, counties, and cities.

elevation
How high land is above sea level.

county
One of the parts a state is divided into for local government.

REMEMBER

Question	Better map
Where is the state capital?	political
Where is the land highest?	physical
Which county is Tupelo in?	political
Which way does the Pearl River flow?	physical

WORDS & MORE

LOOK CLOSER · USE TWO MAPS TOGETHER

Why did cities like Vicksburg and Natchez grow where they did?

1 Physical map: both sit on high bluffs beside the Mississippi River.

2 Political map: both are cities in western Mississippi.

3 Put them together: the high bluffs were safe from floods, and the river brought trade.

Answer: They grew on bluffs above the river, where people could trade by boat but stay above floodwaters.

KEY IDEA

Physical maps show natural features; political maps show boundaries and cities. Using both explains why places are where they are.

ACTIVITY · SALT DOUGH RELIEF MAP

Can you build a physical map of Mississippi?

You need: outline of Mississippi traced on cardboard; salt dough (2 cups flour, 1 cup salt, about 3/4 cup water); paint; toothpick flags.

1 Spread a thin layer of dough over the outline.

2 Build it a little higher in the northeast and keep the Delta and coast flat.

3 Press a groove for the Mississippi and Pearl rivers.

4 When dry, paint low land green and higher land tan, and add flags for Jackson and your town.

Record: a photo or sketch of your map with a key.

✓ REMEMBER

Physical maps show nature; political maps show boundaries and cities.

REMEMBER

WORDS & MORE

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 1.4, Part A. Then check with your teacher.

1. Which kind of map shows county lines?
2. Which kind shows elevation?
3. How many counties does Mississippi have?

REMEMBER

LESSON 1.5
Week 3 · Lesson 1 of 2

Unit 1: Mississippi: Land and Regions

Lesson 1.5: Mississippi's Natural Regions

TODAY'S GOAL

I can identify Mississippi's natural regions and describe the land in each.

Standards: C3 D2.Geo.2.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 1.5 in this book with your teacher.
- [ ] Do the Activity activity: Region Postcards.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.5, Part A.
- [ ] Complete the rest of Workbook Lesson 1.5 (Parts B–D).

1 Get Ready

THINK ABOUT IT

If you drove from Tupelo to Greenville to Gulfport, how might the land outside your window change?

2 Learn

WORDS & MORE

WORDS TO KNOW

region
An area with features that make it different from other areas.

fertile
Able to grow many plants; rich soil.

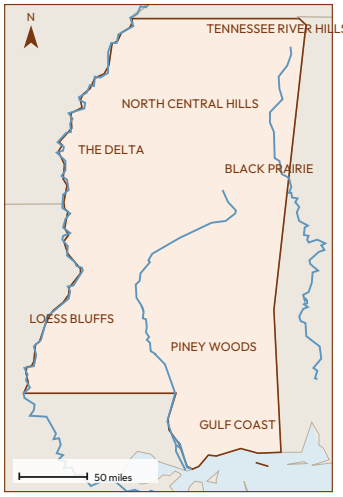

alluvial
Made of soil left behind by rivers.

REMEMBER

Geographers divide Mississippi into natural regions by land, soil, and plants.

Regions don't have sharp edges; one blends into the next. The labels on the map show where each region generally is.

As you read the chart below, find each region on the map.

General locations of Mississippi's natural regions.

WORDS & MORE

Region	What the land is like
The Delta	very flat, fertile alluvial soil left by Mississippi and Yazoo river floods; northwest
Loess Bluffs	steep bluffs of fine wind-blown soil along the east edge of the Mississippi River valley
North Central Hills	rolling hills with red clay soil
Tennessee River Hills	the highest, most rugged land, in the far northeast
Black Prairie	gently rolling land with dark, rich soil in the northeast
Piney Woods	rolling hills with sandy soil and pine forests in the south
Gulf Coast	low, flat land with beaches, marshes, and bays along the Gulf of Mexico

KEY IDEA

Mississippi's regions include the Delta, Loess Bluffs, the hills, the Black Prairie, the Piney Woods, and the Gulf Coast, each with its own land and soil.

ACTIVITY · REGION POSTCARDS

What would you see in each region?

You need: index cards; colored pencils.

1 Choose three regions.

2 On each card, draw a scene showing the land, plants, and one way people use the land.

3 On the back, write a short message describing the region to a friend.

Record: three postcards with accurate details.

✓ REMEMBER

Each region of Mississippi has its own land, soil, and plants.

REMEMBER

WORDS & MORE

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 1.5, Part A. Then check with your teacher.

1. Which region is flattest and most fertile?
2. Which region has pine forests?
3. Which region has the highest land?

REMEMBER

LESSON 1.6
Week 3 · Lesson 2 of 2

Unit 1: Mississippi: Land and Regions

Lesson 1.6: Comparing the Delta and the Piney Woods

TODAY'S GOAL

I can compare two regions and explain how land affects the way people live and work.

Standards: C3 D2.Geo.4.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 1.6 in this book with your teacher.
- [ ] Do the Activity activity: Venn Diagram.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.6, Part A.
- [ ] Complete the rest of Workbook Lesson 1.6 (Parts B–D).

1 Get Ready

THINK ABOUT IT

How might growing up on a Delta farm be different from growing up in a Piney Woods town?

2 Learn

The Delta is a broad, flat plain in northwestern Mississippi between the Mississippi and Yazoo rivers. For thousands of years, floods left layers of rich soil. Today the Delta is known for large farms of cotton, soybeans, corn, and rice, and for catfish farming in ponds. Towns are spread out

WORDS & MORE

WORDS TO KNOW

compare
To tell how things are alike.

contrast
To tell how things are different.

timber
Trees cut for wood and wood products.

REMEMBER

across wide fields. The Delta is also famous as a birthplace of the blues.

The Piney Woods covers much of southeastern Mississippi. Its sandy soil is less fertile for crops, but it is excellent for growing pine trees. Lumber and paper mills grew up around cities such as Hattiesburg and Laurel. Forests here also support hunting, outdoor recreation, and wildlife.

WORDS & MORE

	The Delta	Piney Woods	Both
land	very flat	rolling hills	part of Mississippi; rivers
soil	rich alluvial soil	sandy soil	
main uses	row crops, catfish farms	timber, paper, outdoor recreation	agriculture is important
places	Greenville, Clarksdale	Hattiesburg, Laurel	

KEY IDEA

The land and soil of a region shape how people earn a living there.

ACTIVITY · VENN DIAGRAM

How are the two regions alike and different?

You need: paper; two colored pencils.

1. Draw two overlapping circles labeled Delta and Piney Woods.
2. Write at least four details in each outer part.
3. Write at least two shared details in the middle.
4. Write a summary sentence.

Record: your Venn diagram and summary.

✓ REMEMBER

The Delta's rich soil supports crops; the Piney Woods' sandy soil supports forests.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 1.6, Part A. Then check with your teacher.

1. Why is the Delta good for crops?
2. What grows well in the Piney Woods?
3. Name a Piney Woods city.

REMEMBER

LESSON 1.7
Week 4 · Lesson 1 of 2

Unit 1: Mississippi: Land and Regions

Lesson 1.7: Natural Resources

TODAY'S GOAL

I can identify Mississippi's natural resources and classify them as renewable or nonrenewable.

Standards: C3 D2.Eco.3.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 1.7 in this book with your teacher.
- [ ] Do the Activity activity: Resource Hunt.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.7, Part A.
- [ ] Complete the rest of Workbook Lesson 1.7 (Parts B–E).

1 Get Ready

THINK ABOUT IT

Look around the room. What came from nature: from soil, trees, water, or underground?

2 Learn

Mississippi is rich in natural resources. Some are renewable: forests can be replanted, and fish and farm crops can grow again if they are managed well. Others are nonrenewable: oil and natural gas, found underground in parts of southern Mississippi and offshore in the Gulf, took millions of years to form.

WORDS & MORE

WORDS TO KNOW

natural resource
Something from nature that people use.

renewable resource
A resource that can be replaced naturally or by people in a reasonable time.

nonrenewable resource
A resource that cannot be replaced once it is used up, or takes millions of years to form.

conservation
Careful use and protection of resources.

REMEMBER

WORDS & MORE

Resource	Renewable?	Used for
fertile soil	renewable if cared for	growing crops
forests	renewable (replanting)	lumber, paper, furniture
water (rivers, groundwater)	renewable	drinking, farming, fishing, transportation
fish and shellfish (Gulf)	renewable if not overfished	food
oil and natural gas	nonrenewable	fuel, energy
sand, gravel, and clay	nonrenewable	building roads and bricks

Conservation helps resources last. Foresters replant trees after harvests, farmers protect soil from erosion, and fishing seasons and limits help keep Gulf fish and shrimp populations healthy.

KEY IDEA

Natural resources come from nature. Renewable resources can be replaced; nonrenewable ones cannot. Conservation helps them last.

ACTIVITY · RESOURCE HUNT

Where do the things in your home come from?

You need: paper and a pencil.

1 Find ten objects in your home.

2 For each, name the natural resource it came from (wood, cotton, oil/plastic, metal, sand/glass).

3 Label each resource renewable or nonrenewable.

4 Circle one item you could reuse or recycle.

Record: a three-column chart: Object | Natural resource | Renewable or nonrenewable.

✓ REMEMBER

Renewable resources can be replaced; nonrenewable ones cannot; conservation helps both.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 1.7, Part A. Then check with your teacher.

1. Is a pine forest renewable or nonrenewable?
2. Is natural gas renewable?
3. Name one way to conserve a resource.

REMEMBER

LESSON 1.8
Week 4 · Lesson 2 of 2

Unit 1: Mississippi: Land and Regions

Lesson 1.8: Resources and Work in Each Region

TODAY'S GOAL

I can explain how natural resources shape the goods, services, and jobs in different regions.

Standards: C3 D2.Eco.3.3-5, D2.Geo.4.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 1.8 in this book with your teacher.
- [ ] Do the Activity activity: Regional Economy Poster.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 1.8, Part A.
- [ ] Complete the rest of Workbook Lesson 1.8 (Parts B–D).

1 Get Ready

THINK ABOUT IT

A Delta farmer, a Piney Woods mill worker, and a Gulf Coast shrimper all earn a living. What does each one depend on?

2 Learn

The economy of each region grows from its resources. Farmers grow goods in fertile soil. Mill workers turn trees into lumber and paper. Gulf Coast workers catch seafood, build ships, and serve visitors. Agriculture is Mississippi's

WORDS & MORE

WORDS TO KNOW

goods
Things people make or grow to sell.

services
Work people do for others.

economy
The way people make, buy, sell, and use goods and services.

producer
A person or business that makes goods or provides services.

REMEMBER

largest industry, and chickens raised for meat (broilers) are among its most valuable farm products.

Region	Key resources	Goods and services
The Delta	rich soil, water	cotton, soybeans, rice, corn, farm-raised catfish
Piney Woods	pine forests	lumber, paper, wood products
Black Prairie and hills	soil, pasture	cattle, poultry, crops, manufacturing
Gulf Coast	the Gulf, beaches, ports	seafood, shipbuilding, shipping, tourism

LOOK CLOSER · TRACE A PRODUCT

A pine tree becomes a notebook

1 Natural resource: a pine tree grows in the Piney Woods.

2 Producers: loggers harvest it; a paper mill turns it into paper.

3 Services: truck drivers deliver it; a store sells it.

4 Consumer: you buy the notebook.

Answer: One resource creates many jobs on its way to you.

KEY IDEA

Natural resources shape the goods, services, and jobs in each region.

ACTIVITY · REGIONAL ECONOMY POSTER

How does one region earn a living?

You need: poster paper; markers.

1 Choose one region.

2 Show its resources, two goods or services, and two jobs.

3 Draw arrows from each resource to the goods it produces.

4 Present your poster to your family.

Record: your poster and a two-sentence summary.

✓ REMEMBER

Each region's resources shape its goods, services, and jobs.

WORDS & MORE

REMEMBER

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Write goods or service, or answer the question. Write your answers in Workbook Lesson 1.8, Part A. Then check with your teacher.

1. Goods or service: a haircut
2. Goods or service: a bag of rice
3. Which region is known for shipbuilding and seafood?

WORDS & MORE

UNIT 1 REVIEW

Unit 1 Study Guide

Use this page to get ready for the unit test. Read each big idea, then try the review pages in your workbook.

Lesson	Remember…
1.1	Title, compass rose, key, and scale help you read any map.
1.2	Mississippi is in the southern U.S., in the Northern and Western Hemispheres, around 32° N, 90° W.
1.3	Most Mississippi rivers flow south to the Gulf; waterways shape travel and trade.
1.4	Physical maps show nature; political maps show boundaries and cities.
1.5	Each region of Mississippi has its own land, soil, and plants.
1.6	The Delta's rich soil supports crops; the Piney Woods' sandy soil supports forests.
1.7	Renewable resources can be replaced; nonrenewable ones cannot; conservation helps both.
1.8	Each region's resources shape its goods, services, and jobs.

UNIT 2

Mississippi's People: Past and Present

Communities and cultures today, the first peoples, American Indian nations, European explorers, statehood and removal, and settlement patterns.

Long before Mississippi was a state, people built towns, farmed, and raised great mounds here. In this unit you'll meet the people of Mississippi today and in the past: the first peoples and mound builders, the Choctaw, Chickasaw, and Natchez nations, the Spanish and French explorers, and the settlers who arrived when Mississippi became a state. You'll also discover why towns grew where they did.

In this unit you will…

- Describe urban, suburban, and rural communities and Mississippi's cultures.
- Explain how the first peoples and American Indian nations lived.
- Explain how European arrival, statehood, and removal changed Mississippi.
- Explain how rivers, railroads, and roads shaped settlement.

CONNECTIONS TODAY

Archaeologists, museum curators, city planners, and tribal historians all study where people lived and why, so communities can remember their past and plan their future.

UNIT VOCABULARY

culture	A group's way of life.
artifact	An object made by people long ago.
nation	A group with its own land, government, and way of life.
treaty	A written agreement between nations.
territory	Land that is not yet a state.
settlement pattern	How towns are spread across the land.

Lessons in this unit

Lesson	Title
2.1	Communities: Urban, Suburban, and Rural
2.2	Mississippi's Cultures and Traditions
2.3	The First Peoples and the Mound Builders
2.4	The Choctaw
2.5	The Chickasaw and the Natchez
2.6	Europeans Arrive
2.7	Statehood and Indian Removal
2.8	Settlement Patterns: Why People Live Where They Do

REMEMBER

LESSON 2.1
Week 1 · Lesson 1 of 2

Unit 2: Mississippi's People: Past and Present

Lesson 2.1: Communities: Urban, Suburban, and Rural

TODAY'S GOAL

I can describe urban, suburban, and rural communities in Mississippi and explain how they differ.

Standards: C3 D2.Geo.5.3-5, D2.Geo.7.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 2.1 in this book with your teacher.
- [ ] Do the Activity activity: Community Survey.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.1, Part A.
- [ ] Complete the rest of Workbook Lesson 2.1 (Parts B–D).

1 Get Ready

THINK ABOUT IT

Think of the town where you live. Do you hear more traffic or more birds outside your window? What does that tell you about your community?

2 Learn

Almost 3 million people live in Mississippi. They live in many kinds of communities. Some live in urban areas, or cities, with tall buildings, busy streets, and many neighbors close by. Others live in suburban areas just outside a city, with

WORDS & MORE

WORDS TO KNOW

community
A place where people live, work, and play together.

urban
In or about a city, where many people live close together.

suburban
In or about a suburb, a community near a city.

rural
In or about the countryside, where people live far apart.

population
The number of people who live in a place.

REMEMBER

neighborhoods, schools, and shopping centers. Many Mississippians live in rural areas, where homes are spread out among farms, forests, and small towns.

	Urban	Suburban	Rural
what it looks like	tall buildings, busy streets	neighborhoods, shopping centers	farms, forests, small towns
how close neighbors are	very close	fairly close	far apart
how people get around	cars, buses, walking	mostly cars	cars and trucks; long drives
Mississippi example	Jackson	Madison or Southaven	a Delta farm town

Jackson, the state capital, is Mississippi's largest city, with about 150,000 people. Other large cities include Gulfport, Southaven, Biloxi, and Hattiesburg. Even so, a large share of Mississippians live in rural areas, more than in most other states.

WORDS & MORE

LOOK CLOSER · USE CLUES TO NAME A COMMUNITY

Kayla rides a school bus 30 minutes past cotton fields to get to school. Her nearest neighbor lives a mile away.

1 Clue: a long ride past fields.

2 Clue: neighbors live far apart.

3 Both clues match the rural column of the chart.

Answer: Kayla lives in a rural community.

KEY IDEA

Urban communities are cities, suburban communities are near cities, and rural communities are in the countryside. Mississippi has all three.

ACTIVITY · COMMUNITY SURVEY

What kind of community do you live in?

You need: paper and a pencil; a family member to interview.

1 Count how many houses you can see from your front door.

2 Time how long it takes to drive to the nearest grocery store.

3 Ask a family member what jobs people in your community do.

4 Use your answers and the chart to decide: urban, suburban, or rural?

REMEMBER

WATCH OUT

Rural does not mean empty or unimportant. Rural communities grow much of the food, timber, and cotton the whole state and country depend on.

✓ REMEMBER

Mississippi has urban, suburban, and rural communities; each has its own way of life.

Record: your three answers and a sentence that names your community type with two reasons.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 2.1, Part A. Then check with your teacher.

1. Which kind of community has the most people living close together?
2. What is Mississippi's largest city?
3. Name one thing you might see in a rural community.

WORDS & MORE

REMEMBER

LESSON 2.2
Week 1 · Lesson 2 of 2

Unit 2: Mississippi's People: Past and Present

Lesson 2.2: Mississippi's Cultures and Traditions

TODAY'S GOAL

I can describe music, food, and traditions that are part of Mississippi's culture.

Standards: C3 D2.Geo.6.3-5, D2.His.2.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 2.2 in this book with your teacher.
- [ ] Do the Activity activity: Family Heritage Interview.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.2, Part A.
- [ ] Complete the rest of Workbook Lesson 2.2 (Parts B–D).

1 Get Ready

THINK ABOUT IT

What is one food, song, or holiday tradition your family shares every year? Who taught it to you?

2 Learn

Culture is a group's way of life: the food they cook, the music they play, the stories they tell, and the holidays they celebrate. Mississippi's culture mixes traditions from American Indian nations, African Americans, people of European background, and newer neighbors from around

WORDS & MORE

WORDS TO KNOW

culture
The way of life of a group of people, including their food, music, beliefs, and traditions.

tradition
Something people do the same way for many years and pass down.

heritage
Traditions and history handed down from earlier generations.

blues
A kind of music that grew from the songs of Black Mississippians in the Delta.

REMEMBER

the world.

Mississippi is famous for its music. The blues grew in the Delta from the work songs and spirituals of Black Mississippians. Blues musicians such as B.B. King carried it around the world. Elvis Presley was born in Tupelo, and gospel and country music are loved across the state. Markers on the Mississippi Blues Trail tell where blues history happened.

WORDS & MORE

Part of culture	Mississippi examples
music	blues, gospel, country, rock and roll
food	fried catfish, Gulf shrimp and gumbo, Delta hot tamales, sweet potato pie
writers	Eudora Welty of Jackson and William Faulkner of Oxford
celebrations	the Choctaw Indian Fair, Mardi Gras on the Gulf Coast, county fairs, family reunions

KEY IDEA

Culture is a group's way of life. Mississippi's culture includes the blues, gospel, Gulf seafood, great writers, and traditions from many groups of people.

ACTIVITY · FAMILY HERITAGE INTERVIEW

What traditions has your family passed down?

You need: paper and a pencil; an older family member to interview.

1. Ask: What is a tradition our family has had for a long time?
2. Ask: Who started it, and where?
3. Ask: What food, song, or story goes with it?
4. Draw a picture of the tradition.

Record: the answers to your three questions and your drawing.

✓ REMEMBER

Culture is a way of life; Mississippi's includes music, food, writers, and traditions from many groups.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 2.2, Part A. Then check with your teacher.

1. Where in Mississippi did the blues grow?
2. Name a Mississippi musician.
3. What is a tradition?

REMEMBER

LESSON 2.3
Week 2 · Lesson 1 of 2

Unit 2: Mississippi's People: Past and Present

Lesson 2.3: The First Peoples and the Mound Builders

TODAY'S GOAL

I can describe how the first people in Mississippi lived and why they built mounds.

Standards: C3 D2.His.2.3-5, D2.Geo.4.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 2.3 in this book with your teacher.
- [ ] Do the Activity activity: Be an Archaeologist.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.3, Part A.
- [ ] Complete the rest of Workbook Lesson 2.3 (Parts B–D).

1 Get Ready

THINK ABOUT IT

If someone found your backpack 1,000 years from now, what would it tell them about you?

2 Learn

People have lived in what is now Mississippi for more than 12,000 years. The first people were hunters who followed large animals. Over thousands of years, people learned to gather nuts and plants, make pottery, and use bows and arrows. Later they farmed corn, beans, and squash.

WORDS & MORE

WORDS TO KNOW

prehistory
The time before people wrote down history.

artifact
An object made and used by people long ago.

archaeologist
A scientist who studies artifacts to learn about the past.

mound
A large hill of earth built by people, often for ceremonies or leaders' homes.

REMEMBER

WORDS & MORE

We know about these people from artifacts, such as spear points, pottery pieces, and tools, that archaeologists dig up and study. American Indian nations also keep their history alive through stories passed down for many generations.

Time	How people lived
more than 12,000 years ago	hunted large animals with stone-tipped spears; moved often
about 10,000–3,000 years ago	hunted deer, fished, and gathered nuts and plants; made tools and the first pottery
about 3,000–1,200 years ago	made more pottery; used bows and arrows; began building mounds; grew some plants
about 1,200–400 years ago	farmed corn in large towns; built tall flat-topped mounds for leaders and ceremonies

The Mississippian people built some of the largest earthworks in North America. Emerald Mound, near Natchez, covers about eight acres and is one of the largest mounds in the United States. Winterville Mounds, near Greenville, was a major ceremonial center. The Choctaw honor Nanih Waiya, a mound in Winston County, as the place where their people began.

KEY IDEA

The first peoples of Mississippi hunted, gathered, and later farmed. The Mississippian people built great mounds, such as Emerald Mound, for leaders and ceremonies.

ACTIVITY · BE AN ARCHAEOLOGIST

What can artifacts tell us about people?

You need: a shoebox or pan of sand or dirt; five small household objects buried by your teacher; a spoon and a paintbrush; paper.

1 Dig slowly with the spoon and brush, the way archaeologists do.

2 Draw each artifact where you found it.

3 Write what each artifact might have been used for.

4 Make an inference about the person who used them.

Record: your drawings and an inference that uses at least two artifacts as evidence.

✓ REMEMBER

Early peoples hunted, gathered, and farmed; the Mississippians built great mounds.

REMEMBER

WORDS & MORE

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 2.3, Part A. Then check with your teacher.

1. How long have people lived in what is now Mississippi?
2. What does an archaeologist study?
3. Name a mound site in Mississippi.

REMEMBER

LESSON 2.4
Week 2 · Lesson 2 of 2

Unit 2: Mississippi's People: Past and Present

Lesson 2.4: The Choctaw

TODAY'S GOAL

I can describe the land, homes, food, and traditions of the Choctaw people.

Standards: C3 D2.His.2.3-5, D2.Geo.6.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 2.4 in this book with your teacher.
- [ ] Do the Activity activity: Three Sisters Diagram.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.4, Part A.
- [ ] Complete the rest of Workbook Lesson 2.4 (Parts B–D).

1 Get Ready

THINK ABOUT IT

What do you think a family needed to live well in Mississippi long before stores and electricity?

2 Learn

When Europeans arrived, the Choctaw were the largest American Indian nation in what is now Mississippi. They lived in towns across the central and southern parts of the state. Choctaw families belonged to clans, and children belonged to their mother's clan.

WORDS & MORE

WORDS TO KNOW

nation
A group of people with their own land, government, and way of life.

clan
A large group of families related to one another.

stickball
A fast Choctaw team game played with two sticks and a small ball.

Three Sisters
Corn, beans, and squash, grown together.

REMEMBER

The Choctaw were skilled farmers. They planted the Three Sisters together: corn stalks gave beans a pole to climb, beans made the soil richer, and wide squash leaves shaded out weeds. They also hunted deer, fished in rivers, and gathered nuts and berries. Homes were made of wooden poles covered with mud and grass.

Stickball was a favorite game. Teams used two sticks to catch and throw a small ball, and games could include hundreds of players. The Choctaw called it the “little brother of war” because it was so rough. Stickball is still played today.

Need	How the Choctaw met it
food	the Three Sisters, deer, fish, nuts, berries
shelter	homes of poles, mud, and grass
clothing	deerskin, and later woven cloth
fun and community	stickball, dances, storytelling

Many Choctaw were later forced to leave Mississippi (you'll learn about this in Lesson 2.7), but some stayed. Today the Mississippi Band of Choctaw Indians has its own government near Philadelphia, in Neshoba County. Every summer, the Choctaw Indian Fair features stickball, traditional dances, and food.

WORDS & MORE

KEY IDEA

The Choctaw farmed the Three Sisters, hunted, and played stickball. The Mississippi Band of Choctaw Indians still lives in Mississippi today.

ACTIVITY · THREE SISTERS DIAGRAM

How do corn, beans, and squash help each other?

You need: paper; colored pencils.

1 Draw a corn stalk in the middle of a garden mound.

2 Draw a bean vine climbing the corn.

3 Draw squash leaves spreading on the ground.

4 Label each plant with how it helps the others.

Record: your labeled diagram.

✓ REMEMBER

The Choctaw farmed, hunted, and played stickball; their nation still lives in Mississippi.

REMEMBER

WORDS & MORE

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 2.4, Part A. Then check with your teacher.

1. What are the Three Sisters?
2. Which clan did a Choctaw child belong to?
3. Where does the Mississippi Band of Choctaw Indians have its government today?

REMEMBER

LESSON 2.5
Week 3 · Lesson 1 of 2

Unit 2: Mississippi's People: Past and Present

Lesson 2.5: The Chickasaw and the Natchez

TODAY'S GOAL

I can compare the Chickasaw and the Natchez and locate where each nation lived.

Standards: C3 D2.His.2.3-5, D2.Geo.2.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 2.5 in this book with your teacher.
- [ ] Do the Activity activity: Nations Map.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.5, Part A.
- [ ] Complete the rest of Workbook Lesson 2.5 (Parts B–D).

1 Get Ready

THINK ABOUT IT

Two nations lived in very different parts of Mississippi. How might where they lived change how they lived?

2 Learn

WORDS & MORE

WORDS TO KNOW

chief
A leader of an American Indian nation or town.

Great Sun
The title of the most powerful leader of the Natchez.

Grand Village
The main ceremonial town of the Natchez, near today's city of Natchez.

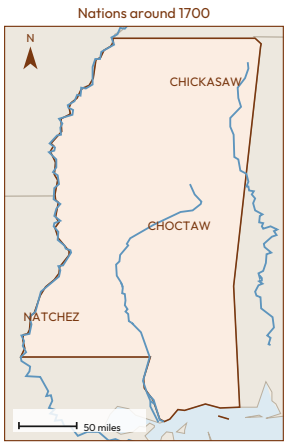

compare
To tell how things are alike and different.

REMEMBER

The Chickasaw lived in the hills of northeastern Mississippi, near where Tupelo is today. They were farmers and hunters known as brave defenders of their land.

In 1736, Chickasaw warriors defeated a French army at the Battle of Ackia, near Tupelo.

The Natchez lived along the Mississippi River in the southwest. Their leader, the Great Sun, lived on top of a mound at the Grand Village.

Approximate homelands; borders changed over time.

WORDS & MORE

The Natchez had strict social classes, and the Great Sun was treated almost like a god. When French settlers took more and more Natchez land, the Natchez fought back in 1729. The French and their allies then attacked the Natchez, and by 1731 the Natchez had to leave their homeland. Many survivors joined the Chickasaw, Creek, and Cherokee nations.

	Chickasaw	Natchez
where they lived	hills of northeastern Mississippi	along the Mississippi River in the southwest
leaders	chiefs and councils	the Great Sun
known for	defending their land; defeating the French in 1736	the Grand Village and its mounds
what happened	forced to move west in the 1830s (Lesson 2.7)	scattered by war with the French by 1731

KEY IDEA

The Chickasaw lived in the northeast and defended their land fiercely. The Natchez lived along the Mississippi River and were led by the Great Sun.

ACTIVITY · NATIONS MAP

Where did each nation live?

You need: a blank outline map of Mississippi; three colored pencils.

1 Shade the Chickasaw homeland in the northeast.

REMEMBER

✓ REMEMBER

The Chickasaw defended the northeast; the Natchez, led by the Great Sun, lived along the river.

2 Shade the Choctaw homeland in the center and south.

3 Shade the Natchez homeland along the river in the southwest.

4 Add a key and a title.

Record: your finished map with a key and title.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 2.5, Part A. Then check with your teacher.

1. Where did the Chickasaw live?
2. What was the title of the Natchez leader?
3. Which nation defeated the French at the Battle of Ackia in 1736?

WORDS & MORE

REMEMBER

LESSON 2.6
Week 3 · Lesson 2 of 2

Unit 2: Mississippi's People: Past and Present

Lesson 2.6: Europeans Arrive

TODAY'S GOAL

I can explain when and why Europeans came to Mississippi and how their arrival changed life for American Indians.

Standards: C3 D2.His.1.3-5, D2.His.14.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 2.6 in this book with your teacher.
- [ ] Do the Activity activity: Timeline Strip.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.6, Part A.
- [ ] Complete the rest of Workbook Lesson 2.6 (Parts B–D).

1 Get Ready

THINK ABOUT IT

Imagine strangers arrive in your town with animals, tools, and diseases you've never seen. What might change?

2 Learn

The first Europeans in Mississippi were Spanish. In 1540–1541, Hernando de Soto led an expedition of soldiers through the region looking for gold. They fought with American Indian nations and, in 1541, became the first

WORDS & MORE

WORDS TO KNOW

explorer
A person who travels to learn about new places.

expedition
A long journey made for a purpose.

colony
A place ruled by a faraway country.

claim
To say that something belongs to you.

REMEMBER

Europeans known to see the Mississippi River. They found no gold.

The Spanish also brought diseases, such as smallpox, that American Indians had never had. Their bodies had no protection, so the diseases spread quickly and many thousands of people died.

Next came the French. In 1682, René-Robert Cavelier, Sieur de La Salle traveled down the Mississippi River and claimed the whole river valley for France, naming it Louisiana. In 1699, Pierre Le Moyne d'Iberville built Fort Maurepas, at today's Ocean Springs, the first European settlement in Mississippi. The French traded with American Indians and brought enslaved Africans to work on farms.

Year	Event
1540–1541	Hernando de Soto's Spanish expedition crosses the region and reaches the Mississippi River.
1682	La Salle claims the Mississippi River valley for France.
1699	Iberville builds Fort Maurepas at Ocean Springs.
1716	The French build Fort Rosalie at Natchez.
1763	France loses a war and gives the land to Great Britain.

KEY IDEA

Spanish explorers came first, bringing war and disease. The French claimed the river valley, built forts, and traded. Europeans' arrival changed American Indian life forever.

WATCH OUT

When Europeans "claimed" land, American Indian nations were already living on it. The land was their home long before any European arrived.

ACTIVITY · TIMELINE STRIP

In what order did these events happen?

You need: a long strip of paper; a ruler; markers.

1. Draw a line across the strip and mark years from 1500 to 1800.
2. Add each event from the chart at the right place.
3. Draw a small picture for each event.
4. Circle the event you think changed life most for American Indians and explain why.

Record: your timeline and a sentence explaining your circled event.

WORDS & MORE

REMEMBER

✓ REMEMBER

Spanish and French explorers came, bringing disease, forts, and trade, and changing American Indian life.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 2.6, Part A. Then check with your teacher.

1. Who led the first Spanish expedition through Mississippi?
2. What did Iberville build in 1699?
3. Why did European diseases spread so quickly among American Indians?

WORDS & MORE

REMEMBER

LESSON 2.7
Week 4 · Lesson 1 of 2

Unit 2: Mississippi's People: Past and Present

Lesson 2.7: Statehood and Indian Removal

TODAY'S GOAL

I can explain how Mississippi became a state and how American Indian nations were forced to leave.

Standards: C3 D2.His.2.3-5, D2.Civ.2.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 2.7 in this book with your teacher.
- [ ] Do the Activity activity: Points of View.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.7, Part A.
- [ ] Complete the rest of Workbook Lesson 2.7 (Parts B–D).

1 Get Ready

THINK ABOUT IT

How would you feel if you were told you had to leave your home and move hundreds of miles away?

2 Learn

After the American Revolution, the land that is now Mississippi became part of the United States. In 1798, it became the Mississippi Territory. More settlers came, and on December 10, 1817, Mississippi became the 20th state. In 1822, the capital moved to Jackson, near the center of the state.

WORDS & MORE

WORDS TO KNOW

territory
Land that belongs to a country but is not yet a state.

treaty
A written agreement between nations.

removal
Forcing people to leave their homeland.

enslaved
Forced to work for no pay and kept from being free.

REMEMBER

Settlers wanted the rich land of the Choctaw and Chickasaw to grow cotton. The United States government pressured the nations to sign treaties giving up their land. In the Treaty of Dancing Rabbit Creek (1830), the Choctaw gave up their last land in Mississippi. In 1832, the Chickasaw signed the Treaty of Pontotoc Creek.

Thousands of Choctaw and Chickasaw were forced to walk or travel hundreds of miles west to Indian Territory, in what is now Oklahoma. Many died of cold, hunger, and sickness on the way. This sad journey is part of what is called the Trail of Tears. Some Choctaw stayed in Mississippi, and their descendants are the Mississippi Band of Choctaw Indians.

Cotton farms called plantations grew huge, and they depended on the work of enslaved African Americans. By 1860, more than half of the people in Mississippi were enslaved. Enslaved people built much of Mississippi's wealth but were denied their freedom, their pay, and often their families.

Year	Event
1798	The Mississippi Territory is created.
1817	Mississippi becomes the 20th state (December 10).
1822	The capital moves to Jackson.
1830	Choctaw land is given up in the Treaty of Dancing Rabbit Creek.
1832	Chickasaw land is given up in the Treaty of Pontotoc Creek.

KEY IDEA

Mississippi became the 20th state in 1817. Treaties forced the Choctaw and Chickasaw to give up their land and move west, and cotton plantations depended on enslaved people.

ACTIVITY · POINTS OF VIEW

How did people see the same event differently?

You need: paper folded into three columns; a pencil.

1. Label the columns: a cotton settler, a Choctaw family, an enslaved person.
2. In each column, write what that person wanted or hoped for in the 1830s.
3. Write how the events of this lesson affected each person.
4. Talk with your teacher about why points of view are different.

WORDS & MORE

REMEMBER

✓ REMEMBER

Mississippi became a state in 1817; treaties forced the Choctaw and Chickasaw west; plantations depended on enslaved people.

Record: your three-column chart.

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 2.7, Part A. Then check with your teacher.

1. When did Mississippi become a state?
2. Which treaty took the Choctaw's last land in Mississippi?
3. Where were the Choctaw and Chickasaw forced to move?

WORDS & MORE

REMEMBER

LESSON 2.8
Week 4 · Lesson 2 of 2

Unit 2: Mississippi's People: Past and Present

Lesson 2.8: Settlement Patterns: Why People Live Where They Do

TODAY'S GOAL

I can explain how rivers, soil, railroads, and roads shaped where Mississippi's towns and cities grew.

Standards: C3 D2.Geo.4.3-5, D2.Geo.7.3-5

TODAY'S ASSIGNMENT

- [ ] Read Lesson 2.8 in this book with your teacher.
- [ ] Do the Activity activity: Build a Town.
- [ ] Answer the Check Your Understanding questions in Workbook Lesson 2.8, Part A.
- [ ] Complete the rest of Workbook Lesson 2.8 (Parts B–D).

1 Get Ready

THINK ABOUT IT

If you were starting a new town 200 years ago, where would you build it? What would you need nearby?

2 Learn

Towns don't grow just anywhere. People choose places with what they need: water, good land, and ways to travel and trade. The way towns are spread across the land is called a settlement pattern.

WORDS & MORE

WORDS TO KNOW

settlement
A place where people make a home and build a community.

settlement pattern
The way towns and cities are spread across the land.

port
A town where ships load and unload goods.

railroad
A track for trains that carry people and goods.

REMEMBER

WORDS & MORE

Reason	Why people settled there	Mississippi examples
rivers	water, fish, and boat travel for trade	Natchez and Vicksburg on the Mississippi River
the Gulf	ports for ships; seafood	Biloxi, Gulfport, Pascagoula
rich soil	farming	Delta towns such as Greenville and Clarksdale
railroads (1800s)	trains carried lumber and cotton to market	Hattiesburg and Meridian grew as railroad towns
highways (1900s–today)	cars and trucks move people and goods	Southaven and towns along I-55 and I-20

Early towns grew beside rivers because boats were the easiest way to move goods. In the late 1800s, railroads crossed the state, and new towns sprang up along the tracks. Today, many people live near interstate highways and the suburbs around cities like Jackson and Memphis.

LOOK CLOSER · EXPLAIN A CITY'S LOCATION

Why did Gulfport grow where it did?

1 Look at the map: Gulfport is on the Gulf of Mexico.

2 A port lets ships load lumber and other goods.

3 A railroad brought lumber from the Piney Woods to the port.

Answer: Gulfport grew where a railroad met the Gulf, so goods could move from trains to ships.

KEY IDEA

People settle where they can find water, good land, and ways to travel and trade. Rivers, the Gulf, railroads, and highways shaped where Mississippi's towns grew.

ACTIVITY · BUILD A TOWN

Where is the best place to start a town?

You need: a large sheet of paper; markers.

1 Draw a river, a coast, a forest, and a flat field.

2 Choose a spot for your town and draw it.

3 Add a road or railroad that connects your town to another place.

4 Write three reasons you chose that spot.

Record: your town map and three reasons.

✓ REMEMBER

Water, soil, railroads, and highways shaped where Mississippi's towns grew.

REMEMBER

WORDS & MORE

3 Check Your Understanding

✎ CHECK YOUR UNDERSTANDING

Directions: Answer each question. Write your answers in Workbook Lesson 2.8, Part A. Then check with your teacher.

1. Why did early towns grow beside rivers?
2. Name a Mississippi town that grew because of the railroad.
3. What is a settlement pattern?

UNIT 2 REVIEW

Unit 2 Study Guide

Use this page to get ready for the unit test. Read each big idea, then try the review pages in your workbook.

Lesson	Remember…
2.1	Mississippi has urban, suburban, and rural communities; each has its own way of life.
2.2	Culture is a way of life; Mississippi's includes music, food, writers, and traditions from many groups.
2.3	Early peoples hunted, gathered, and farmed; the Mississippians built great mounds.
2.4	The Choctaw farmed, hunted, and played stickball; their nation still lives in Mississippi.
2.5	The Chickasaw defended the northeast; the Natchez, led by the Great Sun, lived along the river.
2.6	Spanish and French explorers came, bringing disease, forts, and trade, and changing American Indian life.
2.7	Mississippi became a state in 1817; treaties forced the Choctaw and Chickasaw west; plantations depended on enslaved people.
2.8	Water, soil, railroads, and highways shaped where Mississippi's towns grew.

Glossary

absolute location	The exact location of a place, given by latitude and longitude.
alluvial	Made of soil left behind by rivers.
archaeologist	A scientist who studies artifacts to learn about the past.
artifact	An object made by people long ago.
blues	A kind of music that grew from the songs of Black Mississippians in the Delta.
bluff	A high, steep bank, often along a river.
chief	A leader of an American Indian nation or town.
claim	To say that something belongs to you.
clan	A large group of families related to one another.
colony	A place ruled by a faraway country.
community	A place where people live, work, and play together.
compare	To tell how things are alike.
compass rose	Shows directions on a map.
conservation	Careful use and protection of resources.
contrast	To tell how things are different.
county	One of the parts a state is divided into for local government.
culture	A group's way of life.
economy	The way people make, buy, sell, and use goods and services.
elevation	How high land is above sea level.
enslaved	Forced to work for no pay and kept from being free.
expedition	A long journey made for a purpose.
explorer	A person who travels to learn about new places.
fertile	Able to grow many plants; rich soil.
globe	A model of Earth shaped like a ball.
goods	Things made or grown to sell.
Grand Village	The main ceremonial town of the Natchez, near today's city of Natchez.
Great Sun	The title of the most powerful leader of the Natchez.
hemisphere	Half of Earth.

heritage	Traditions and history handed down from earlier generations.
landform	A natural shape of the land, such as a hill, plain, or valley.
latitude	Lines measuring distance north or south of the equator.
longitude	Imaginary lines that run north and south and measure distance east or west of the prime meridian.
map key	A box that explains the symbols on a map (also called a legend).
map scale	A line that shows how distance on the map compares with real distance.
mound	A large hill of earth built by people, often for ceremonies or leaders' homes.
nation	A group with its own land, government, and way of life.
natural resource	Something from nature people use.
nonrenewable resource	A resource that cannot be replaced once it is used up, or takes millions of years to form.
physical map	A map that shows natural features such as rivers, mountains, and elevation.
plain	A large area of flat land.
political map	A map that shows human-made boundaries, states, counties, and cities.
population	The number of people who live in a place.
port	A town where ships load and unload goods.
prehistory	The time before people wrote down history.
producer	A person or business that makes goods or provides services.
railroad	A track for trains that carry people and goods.
region	An area with shared features.
relative location	Where a place is compared with other places.
removal	Forcing people to leave their homeland.
renewable resource	A resource that can be replaced naturally or by people in a reasonable time.

territory	Land that is not yet a state.
Three Sisters	Corn, beans, and squash, grown together.
timber	Trees cut for wood and wood products.
tradition	Something people do the same way for many years and pass down.
treaty	A written agreement between nations.
tributary	A smaller river or stream that flows into a larger one.
urban	In or about a city, where many people live close together.

Grade 4 Social Studies

Student Textbook

A full year of Grade 4 social studies. Students read maps, weigh primary and secondary sources, build timelines, and connect geography, history, government, and economics to the people and places that shaped our world.

This Student Textbook teaches every lesson: the big idea, key vocabulary, models and examples, and a short set of practice problems to check understanding. It pairs with the Student Workbook and the Teacher Edition.

INSIDE THIS YEAR

01 Mississippi: Land and Regions

02 Mississippi's People: Past and Present

IN THIS BOOK

- Clear lesson goals: “I can…” statements
- Key vocabulary with student-friendly definitions
- Models, examples, and Key Idea summaries
- A study guide and glossary for every unit

THE COMPLETE SET

Textbook

You are holding this book

Workbook

Teacher Edition

Each lesson has the same number in all three books, so the textbook, workbook, and teacher pages always match.
