Grade 4 — Module assessment — Module 1 Week 4 — TEACHER KEY

Date: 2026-11-06

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Whole-number addition and subtraction

1. 23,615 + 14,435 = ? (1 points)

Expected answer / rubric: 38050

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Apply vocabulary in writing

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Circulatory/skeletal systems & healthy choices

1. What does the circulatory system transport? (1 points)

Expected answer / rubric: Blood carries oxygen, nutrients, and other substances through the body.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Natural resources & regional economy

W4 background: Something from the natural environment people use. They affect possible industries, jobs, production, and trade. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Show a resource-to-product-to-job chain. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Correct resource, useful product, and associated work; e.g., timber to lumber to construction.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Composition and revision

Read before you begin

Composition arranges elements within a work. Balance, emphasis, and negative space affect interpretation. Revision tests purposeful changes.

1. What is negative space? (2 points)

Expected answer / rubric: Space around and between represented objects.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Emotions and behavior

Read before you begin

Emotions provide information about experiences but do not establish facts about other people. Naming a feeling and pausing can help a person choose a response. People may experience the same event differently.

1. Can people feel differently about the same event? (2 points)

Expected answer / rubric: Yes; their experiences and interpretations can differ.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Files and folders

Read before you begin

A file stores information; folders organize files. Clear names and predictable locations make work easier to find. Save copies before major changes and check where downloads go.

1. Why use descriptive filenames? (2 points)

Expected answer / rubric: To identify content and versions and retrieve work reliably.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Organizing shared spaces

Read before you begin

Organization groups items by use and makes them easy to find. Shared spaces require agreed responsibilities. Test whether someone else can locate and return supplies.

1. How can organization be tested? (2 points)

Expected answer / rubric: Another person can find and return items correctly.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
