Grade 4 — Weekly review — Module 1 Week 3 — TEACHER KEY

Date: 2026-10-30

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Round and estimate

1. Round 346,078 to the nearest 100. (1 points)

Expected answer / rubric: 346100

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Practice grade-level vocabulary

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Digestive + respiratory systems

1. What is the main role of the digestive system? (1 points)

Expected answer / rubric: Break down food so nutrients can be absorbed.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Compare two Mississippi regions

W3 background: Comparison reveals similarities and differences using common criteria. They can provide water, transport, fertile land, or risk from flooding. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Compare a river plain and a hilly region. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Use landform/water features and one plausible effect on settlement or work.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Color and contrast

Read before you begin

Color relationships guide attention and mood. Contrast uses differences such as light/dark or warm/cool. Interpretation depends on context and varies among viewers.

1. What can contrast do? (2 points)

Expected answer / rubric: Create differences that guide attention or emphasis.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Memory and retrieval

Read before you begin

Memory involves encoding, storing, and retrieving information. Grouping material and recalling it without looking can support learning. Forgetting does not establish that someone is incapable.

1. How can grouping help recall? (2 points)

Expected answer / rubric: It organizes information and supplies meaningful retrieval cues.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Mouse, windows, and accessibility

Read before you begin

Selecting, scrolling, and changing windows are interface skills. Zoom, captions, and keyboard navigation provide different ways to use a system.

1. Why provide accessibility features? (2 points)

Expected answer / rubric: People need different ways to perceive and operate interfaces.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Pet care

Read before you begin

Animals need species-appropriate food, water, shelter, exercise, and health care. Follow adult-approved care plans rather than guessing. Wash hands after appropriate animal-care tasks.

1. Do all pets need identical care? (2 points)

Expected answer / rubric: No; needs depend on species, age, and individual health.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
