Grade 4 — Weekly review — Module 2 Week 1 — TEACHER KEY

Date: 2026-11-13

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Multiply using models and partial products

1. 178 x 6 = ? (1 points)

Expected answer / rubric: 1068

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Find text evidence

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Body-system interactions

1. Why does the heart beat faster during activity? (1 points)

Expected answer / rubric: Working tissues need increased transport of oxygen and nutrients.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Agriculture & natural resources

W1 background: Crop growth depends on suitable soil, water, and other conditions. No; renewal takes time and use can exceed replacement. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Compare two agricultural choices for a region. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Relevant soil/water/climate needs, possible benefit, and a resource constraint.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Pattern and symmetry

Read before you begin

Patterns repeat according to a rule. Symmetry relates parts through a transformation such as reflection. Repetition can be varied for interest.

1. Must every pattern be symmetrical? (2 points)

Expected answer / rubric: No; repetition and symmetry are distinct.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Growth across a lifetime

Read before you begin

Development includes physical, cognitive, emotional, and social changes. People develop at different rates. Stages describe broad patterns rather than rigid rules for every individual.

1. Why are development stages not rigid predictions? (2 points)

Expected answer / rubric: Individual experiences, opportunities, and rates of development vary.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Passwords and privacy

Read before you begin

Addresses, identifying details, and passwords can be private information. Strong unique credentials and appropriate account protections reduce risk. Never put real passwords in a worksheet.

1. Should a real password go on a worksheet? (2 points)

Expected answer / rubric: No; practice with made-up examples and keep credentials private.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Cleaning and product safety

Read before you begin

Cleaning removes dirt; disinfecting targets germs according to product instructions. Products are not interchangeable. Use parent-approved methods and never mix cleaners.

1. Why must cleaners not be mixed? (2 points)

Expected answer / rubric: Mixtures can create hazardous reactions or fumes.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
