Grade 4 — Module assessment — Module 3 Week 4

Date: 2027-01-22

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Number patterns and review

1. Continue: 4, 8, 12, ___, ___. (1 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

ELA — Write an organized passage response

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Physical Sciences — Light investigation + claim/evidence

1. Why should a light investigation change one factor at a time? (1 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Social Studies — Short regional history project

W4 background: Evidence used to learn about the past, such as documents, objects, maps, or accounts. Each source can offer limited or different evidence. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Create a short regional-history project plan. (3 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Art — Musical form

Read before you begin

Form organizes musical sections. ABA returns to an initial section after a contrasting one. Repetition and contrast help listeners follow a piece.

1. What returns in ABA? (2 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Life Sciences — Stereotypes and samples

Read before you begin

A stereotype applies an oversimplified idea to a whole group. A small or biased sample may misrepresent a population. Group membership does not determine an individual's character.

1. Why can one person not establish what a whole group is like? (2 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Computer Science — Pixels and images

Read before you begin

A digital image can be represented as a grid of pixels holding color information. More pixels can support detail but do not guarantee better artistic composition.

1. What is a pixel? (2 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Life Skills — Garden care and harvesting

Read before you begin

Plant care depends on observation and appropriate timing. Identify plants reliably before touching or eating them. Use local guidance for weather, pests, and harvest readiness.

1. Is an unknown garden plant safe to taste? (2 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)
