Grade 4 — Weekly review — Module 3 Week 2

Date: 2027-01-08

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Remainders and division problems

1. Divide 139 by 3. Give a quotient and remainder. (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

ELA — Track evidence across paragraphs

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Physical Sciences — Light: visibility & color

1. Why can we see a non-glowing object? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Social Studies — Geography and settlement patterns

W2 background: Water, land, resources, transport, and hazards affect choices. No; technology, history, culture, and other factors also matter. This is an assessment background note written for this packet, not

an actual historical primary-source quotation.

1. Model two factors affecting settlement. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Art — Pitch and melody

Read before you begin

Pitch concerns how high or low a sound is perceived. Melody arranges pitches over time. Voices and instruments have different ranges and qualities.

1. What is melodic contour? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Sciences — Norms and customs

Read before you begin

Norms are shared expectations; customs are repeated community practices. Both vary and change. Describing a difference does not establish that one community is better than another.

1. Are customs universal? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Computer Science — Decomposition and patterns

Read before you begin

Decomposition divides a large problem into smaller tasks. Patterns can suggest reusable solutions. The plan must explain how the parts fit together.

1. What is decomposition? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Skills — Soil, drainage, and compost

Read before you begin

Soil structure affects water and air around roots. Compost is decomposed organic material. Suitable ingredients and handling matter; roots can be harmed by waterlogged conditions.

1. Why does drainage matter? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
