Grade 4 — Weekly review — Module 4 Week 1

Date: 2027-01-29

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Fraction models and number lines

1. A whole is divided into 8 equal parts. One part is what fraction? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

ELA — Interpret words and phrases

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Physical Sciences — Sound: vibration, pitch, volume

1. What produces sound? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Social Studies — State/local government basics

W1 background: Make/enforce laws, provide services, protect rights, or manage public decisions. State government addresses statewide matters; local governments address communities within their authority.

This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Compare one state service and one local service. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Art — Notation and duration

Read before you begin

Notation records selected musical features. Values depend on the stated system and context. Count durations rather than assuming all symbols last the same time.

1. Why state the notation system? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Sciences — Philosophical questions and reasons

Read before you begin

Philosophy examines questions about knowledge, reality, meaning, and how to live. A claim states a position; a reason supports it. Asking for reasons differs from attacking a person.

1. How do a claim and a reason differ? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Computer Science — Scratch sequences

Read before you begin

Connected Scratch blocks form scripts. Start with a small instruction sequence and test it before adding complexity. Order affects behavior.

1. Why does order matter? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Skills — Kitchen tools and food hygiene

Read before you begin

Safe cooking starts with clean hands, suitable tools, and an organized space. Separate raw and ready-to-eat foods appropriately. Adults supervise blades, heat, and unfamiliar equipment.

1. Why separate raw and ready-to-eat food? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
