Grade 4 — Weekly review — Module 4 Week 2 — TEACHER KEY

Date: 2027-02-05

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Equivalent fractions

1. Complete: 1/2 = ___/8. (1 points)

Expected answer / rubric: 4

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Analyze text structure

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Electricity, conductors & insulators

1. What is a conductor? (1 points)

Expected answer / rubric: A material that allows electric charge to move relatively easily.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Civic roles & responsibilities

W2 background: An action supporting community/public life, such as following laws or participating responsibly. Learn about issues, discuss respectfully, help a community project, or communicate ideas. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Plan a civic action suitable for a student. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Defined concern, appropriate action, affected people, and a way to evaluate results.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Harmony and accompaniment

Read before you begin

Accompaniment supports a main line; harmony concerns relationships among pitches heard or implied together. A supporting pattern need not duplicate the melody.

1. Must accompaniment copy the melody? (2 points)

Expected answer / rubric: No; it can support with a different pattern.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Evidence and uncertainty

Read before you begin

Evidence supports claims with varying strength. A reasonable conclusion may need revision when better evidence appears. Saying that something is uncertain can be more accurate than claiming certainty.

1. Why might a reasonable conclusion change? (2 points)

Expected answer / rubric: New or better evidence changes its support.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Events and interaction

Read before you begin

An event triggers instructions, such as a click or key press. Programs may have several event-driven scripts. State which event starts each action.

1. What is an event in a program? (2 points)

Expected answer / rubric: A trigger that starts or affects instructions.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Recipe fractions and measuring

Read before you begin

Recipes specify quantities, units, and order. Use appropriate marked tools. Scaling changes ingredient amounts consistently, but cooking time needs separate judgment.

1. When doubling a recipe, what changes? (2 points)

Expected answer / rubric: Ingredient amounts double; cooking time is not automatically doubled.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
