Grade 4 — Weekly review — Module 4 Week 3 — TEACHER KEY

Date: 2027-02-12

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Compare fractions

1. Insert <, >, or =: 1/2 ___ 3/4. (1 points)

Expected answer / rubric: <

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Explain purpose and viewpoint

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Simple circuits & energy transformations

1. Why does a simple circuit need a closed path? (1 points)

Expected answer / rubric: Charge must have a complete path through the circuit for current to flow.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Symbols, traditions & public institutions

W3 background: Shared history, identity, ideals, or institutions, interpreted in context. They serve public/community purposes and are organized for those roles. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Explain one public institution’s purpose. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Institution, service, people served, and a reason it matters.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Music and cultural context

Read before you begin

Music serves purposes including celebration, worship, storytelling, and protest. Describe a named tradition with reliable context instead of treating a continent as one style.

1. Why identify a specific tradition? (2 points)

Expected answer / rubric: Broad labels can hide significant diversity.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Arguments and counterexamples

Read before you begin

An argument connects reasons to a conclusion. A counterexample challenges a broad claim with a case it cannot explain. Respectful disagreement can improve reasoning.

1. What is a counterexample? (2 points)

Expected answer / rubric: A case showing that a general claim is not always true.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Loops and repetition

Read before you begin

A loop repeats instructions. Some loops count repetitions; others depend on a condition. Loops can express repetition clearly with less duplicate code.

1. Why use a loop? (2 points)

Expected answer / rubric: To express repetition and reduce duplicated instructions.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Nutrition and meal planning

Read before you begin

Foods supply different nutrients. Meal planning should consider varied foods, individual needs, allergies, access, and cultural practices. Avoid judging health from body size.

1. Why check allergies? (2 points)

Expected answer / rubric: An ingredient can cause a serious reaction for someone with that allergy.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
