# Grade 4 — Weekly review — Module 5 Week 2

Date: 2027-03-05

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

## Math — Mixed numbers and regrouping

1. Write 2 3/4 as an improper fraction. (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## ELA — Read a longer informational text

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Physical Sciences — Conduction/insulation investigations

1. What is conduction? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Social Studies — Southeast climate/resources

W2 background: Temperature and precipitation influence crops, water needs, energy use, and other activities. No; climate uses long-term patterns. This is an assessment background note written for this

packet, not an actual historical primary-source quotation.

1. Compare climate and resources in two Southeast locations. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Art — Architecture and geometry

***Read before you begin***

Architecture combines function, materials, structure, and appearance. Drawings and models simplify buildings. Geometry and measurement communicate design choices.

1. Why model before construction? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Life Sciences — Consequences and duties

***Read before you begin***

Some ethical approaches emphasize outcomes; others emphasize duties or rights. Careful decisions consider who is affected and which commitments matter. Good intentions do not guarantee good outcomes.

1. What is a consequence? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Computer Science — Coordinates and movement

### *Read before you begin*

Coordinates locate positions with ordered values. On a standard plane, x is horizontal and y vertical. State units and scale when they matter.

1. What does changing x usually represent? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Life Skills — Movement and physical activity

### *Read before you begin*

Physical activity includes play, dance, walking, and sports. Choose safe accessible movement with rest as needed. The goal is participation rather than comparing bodies.

1. Must activity be identical for everyone? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
