Grade 4 — Weekly review — Module 5 Week 3 — TEACHER KEY

Date: 2027-03-12

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Multiply fractions by whole numbers

1. 1/4 x 3 = ? (1 points)

Expected answer / rubric: 3/4

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Compare structure and viewpoint

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Forces and motion

Read before you begin

A force is a push or pull. Forces can change motion; compare like objects under similar conditions.

1. What is a force? (2 points)

Expected answer / rubric: A push or pull.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Southeast culture/economy

W3 background: Resources, transport, population, skills, history, and decisions vary. Exchange of goods/services among people or places. This is an assessment background note written for this packet,

not an actual historical primary-source quotation.

1. Show an economic connection between two places. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Goods/service, reason for exchange, and a transport/communication connection.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Symbols and meanings

Read before you begin

Symbols gain meanings through context and use; meanings are not universal. Avoid copying sacred or culturally restricted designs without understanding the context.

1. Are symbols universal? (2 points)

Expected answer / rubric: No; meanings depend on community and context.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Consent and everyday respect

Read before you begin

Respect includes listening to boundaries. Permission for one action is not permission for every action, and permission can be withdrawn. Borrowing objects provides an ordinary example.

1. Can permission be withdrawn? (2 points)

Expected answer / rubric: Yes; someone can change their mind.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Randomness and simulation

Read before you begin

Simulations model selected rules of a system. Random choices represent variation but do not guarantee equal short-run outcomes. Repeat trials before comparing patterns.

1. Does a short trial guarantee an even distribution? (2 points)

Expected answer / rubric: No; short runs can vary substantially.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Sleep, rest, and wellness

Read before you begin

Consistent rest routines support daily functioning. Needs vary with age and individual circumstances. Ongoing health concerns belong with trusted adults and qualified clinicians, not worksheet diagnoses.

1. Why avoid diagnosing from one observation? (2 points)

Expected answer / rubric: Health assessment needs professional evaluation and context.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
