Grade 4 — Weekly review — Module 5 Week 3

Date: 2027-03-12

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Multiply fractions by whole numbers

1. 1/4 x 3 = ? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

ELA — Compare structure and viewpoint

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Physical Sciences — Forces and motion

Read before you begin

A force is a push or pull. Forces can change motion; compare like objects under similar conditions.

1. What is a force? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Social Studies — Southeast culture/economy

W3 background: Resources, transport, population, skills, history, and decisions vary. Exchange of goods/services among people or places. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Show an economic connection between two places. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Art — Symbols and meanings

Read before you begin

Symbols gain meanings through context and use; meanings are not universal. Avoid copying sacred or culturally restricted designs without understanding the context.

1. Are symbols universal? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Sciences — Consent and everyday respect

Read before you begin

Respect includes listening to boundaries. Permission for one action is not permission for every action, and permission can be withdrawn. Borrowing objects provides an ordinary example.

1. Can permission be withdrawn? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Computer Science — Randomness and simulation

Read before you begin

Simulations model selected rules of a system. Random choices represent variation but do not guarantee equal short-run outcomes. Repeat trials before comparing patterns.

1. Does a short trial guarantee an even distribution? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Life Skills — Sleep, rest, and wellness

Read before you begin

Consistent rest routines support daily functioning. Needs vary with age and individual circumstances. Ongoing health concerns belong with trusted adults and qualified clinicians, not worksheet diagnoses.

1. Why avoid diagnosing from one observation? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
