Grade 4 — Weekly review — Module 6 Week 1 — TEACHER KEY

Date: 2027-04-02

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Tenths and decimals

1. Write 4/10 as a decimal. (1 points)

Expected answer / rubric: 0.4

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Compare related sources

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Water cycle model

1. What drives much of the water cycle? (1 points)

Expected answer / rubric: Solar energy helps evaporate water; gravity moves precipitation and runoff.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Northeast region

W1 background: Coasts/rivers supported travel, trade, settlement, and industry. Human decisions and changes over time also shape communities. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Compare two Northeast states using a labeled map or table. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Two relevant shared/different features and clearly named sources/criteria.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Theatre and character

Read before you begin

Actions, speech, and goals shape a scene. Performance interprets rather than simply recites text. Different choices may support different reasonable interpretations.

1. How can performance change interpretation? (2 points)

Expected answer / rubric: Through voice, movement, pacing, and emphasis.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Studying religions and worldviews

Read before you begin

Religious studies describes beliefs, practices, histories, and communities without asking learners to adopt them. Traditions are internally diverse and change over time. Nonreligious perspectives also merit respectful study.

1. How does studying a religion differ from practicing it? (2 points)

Expected answer / rubric: Study describes and analyzes; practice involves participating in its commitments or worship.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Game goals and rules

Read before you begin

Games need understandable goals, rules, and feedback. Plan winning, losing, and restarting. Fair challenge differs from an impossible task.

1. Why test rule clarity? (2 points)

Expected answer / rubric: Players need to understand how actions connect to outcomes.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Puberty and variation

Read before you begin

Puberty includes physical, emotional, and social changes as bodies mature. Timing and pace vary. Use correct terms and trusted-adult support; no student needs to describe personal development.

1. Does everyone begin puberty at the same age? (2 points)

Expected answer / rubric: No; timing and pace vary.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
