# Grade 4 — Weekly review — Module 6 Week 1

Date: 2027-04-02

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

## Math — Tenths and decimals

1. Write 4/10 as a decimal. (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## ELA — Compare related sources

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Physical Sciences — Water cycle model

1. What drives much of the water cycle? (1 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Social Studies — Northeast region

W1 background: Coasts/rivers supported travel, trade, settlement, and industry. Human decisions and changes over time also shape communities. This is an assessment background note written for this

packet, not an actual historical primary-source quotation.

1. Compare two Northeast states using a labeled map or table. (3 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Art — Theatre and character

***Read before you begin***

Actions, speech, and goals shape a scene. Performance interprets rather than simply recites text. Different choices may support different reasonable interpretations.

1. How can performance change interpretation? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Life Sciences — Studying religions and worldviews

***Read before you begin***

Religious studies describes beliefs, practices, histories, and communities without asking learners to adopt them. Traditions are internally diverse and change over time. Nonreligious perspectives also merit respectful study.

1. How does studying a religion differ from practicing it? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Computer Science — Game goals and rules

***Read before you begin***

Games need understandable goals, rules, and feedback. Plan winning, losing, and restarting. Fair challenge differs from an impossible task.

1. Why test rule clarity? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

## Life Skills — Puberty and variation

***Read before you begin***

Puberty includes physical, emotional, and social changes as bodies mature. Timing and pace vary. Use correct terms and trusted-adult support; no student needs to describe personal development.

1. Does everyone begin puberty at the same age? (2 points)

2. Show one piece of this week's work and explain one correction or improvement. (2 points)
