Grade 4 — Weekly review — Module 9 Week 2 — TEACHER KEY

Date: 2027-07-02

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Factors and patterns review

1. Continue: 4, 8, 12, ___, ___. (1 points)

Expected answer / rubric: 16, 20

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Plan a research/writing portfolio

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Investigation/model build

1. Why include labels in a scientific model? (1 points)

Expected answer / rubric: They clarify what parts, arrows, and quantities represent.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Maps/data/research

W2 background: Labels clarify place, measure, units, and purpose. Memory or copying may introduce errors. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Plan a map/data research check. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Trace a claim to its source, check labels/date/context, and record corrections.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Create and document

Read before you begin

Process records reveal choices and experiments that finished work may hide. Record unsuccessful changes honestly as well as successful ones.

1. Why document making? (2 points)

Expected answer / rubric: To show decisions, experiments, and revisions.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Comparing explanations

Read before you begin

Different explanations may fit one observation. Compare their evidence, assumptions, and limits. Confidence or elaborate detail does not automatically establish reliability.

1. How can competing explanations be compared? (2 points)

Expected answer / rubric: Examine how well evidence supports each and test their assumptions.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Project plans and versions

Read before you begin

Plans specify requirements, steps, and completion checks. Versioned copies support recovery and comparison. Small tested changes are easier to understand than many untested changes.

1. Why save versions? (2 points)

Expected answer / rubric: To support comparison and recovery after mistakes.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Planning steps and supplies

Read before you begin

Project plans include requirements, materials, time, sequence, and completion checks. Dependencies mean some steps need others first. Include alternatives when supplies change.

1. What is a dependency? (2 points)

Expected answer / rubric: A task requiring another task or condition first.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
