Grade 4 — Weekly review — Module 9 Week 3 — TEACHER KEY

Date: 2027-07-09

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Fraction and decimal review

1. Find 3/8 + 2/8. (1 points)

Expected answer / rubric: 5/8

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Revise and edit a selected piece

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — CER/lab report

1. What does reasoning add to a lab report? (1 points)

Expected answer / rubric: It connects evidence to a claim using scientific ideas.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Create final product

W3 background: A clear question/claim, relevant evidence, geographic relationships, and sources. Feedback can reveal unclear reasoning or inaccurate information. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Outline a final product with a revision step. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Organized content, map/data, supporting sources, and a specific check or improvement.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Refine and explain

Read before you begin

Refinement uses feedback and evaluation. Artist statements explain choices without requiring every viewer to feel the same. Support claims with observable features.

1. Must all viewers interpret identically? (2 points)

Expected answer / rubric: No; different interpretations can be evidence-based.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Reasoned reflection

Read before you begin

Reflection explains how evidence and reasons shape conclusions. Students can evaluate reasoning without announcing religious identities or changing beliefs. Honest reflection can include uncertainty.

1. Must reflection claim certainty? (2 points)

Expected answer / rubric: No; justified uncertainty is appropriate.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Documentation

Read before you begin

Documentation explains a project's purpose, inputs, outputs, operation, and limits. Write for a person who did not build it. Test whether the guide works without extra coaching.

1. Who needs documentation? (2 points)

Expected answer / rubric: Users and future maintainers who need to understand the project.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Independent task demonstration

Read before you begin

Responsible independence includes completing suitable tasks and recognizing when help is needed. Check results against agreed standards and explain limitations honestly.

1. Does independence mean never asking for help? (2 points)

Expected answer / rubric: No; recognizing when help is needed is part of independence.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
