Grade 7 — Module assessment — Module 1 Week 4 — TEACHER KEY

Date: 2026-11-06

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Proportional reasoning applications

1. Simplify the ratio 18:24. (1 points)

Expected answer / rubric: 3:4

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Central ideas, theme, and development

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Biodiversity, food webs & ecosystem services

1. Why does biodiversity matter in a food web? (1 points)

Expected answer / rubric: Multiple interacting species support ecosystem functions and responses to change.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Sumer/Babylon: writing, law, government

W4 background: A writing system using wedge-shaped marks, associated with ancient Mesopotamia. They show rules/ideals and authority, but not necessarily how every case was handled. This is an

assessment background note written for this packet, not an actual historical primary-source quotation.

1. Compare a law text with evidence of everyday life. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Different evidence types, each source's limits, and one question for corroboration.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Composition and revision

Read before you begin

Composition arranges elements within a work. Balance, emphasis, and negative space affect interpretation. Revision tests purposeful changes.

1. What is negative space? (2 points)

Expected answer / rubric: Space around and between represented objects.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Emotions and behavior

Read before you begin

Emotions provide information about experiences but do not establish facts about other people. Naming a feeling and pausing can help a person choose a response. People may experience the same event differently.

1. Can people feel differently about the same event? (2 points)

Expected answer / rubric: Yes; their experiences and interpretations can differ.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Files and folders

Read before you begin

A file stores information; folders organize files. Clear names and predictable locations make work easier to find. Save copies before major changes and check where downloads go.

1. Why use descriptive filenames? (2 points)

Expected answer / rubric: To identify content and versions and retrieve work reliably.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Organizing shared spaces

Read before you begin

Organization groups items by use and makes them easy to find. Shared spaces require agreed responsibilities. Test whether someone else can locate and return supplies.

1. How can organization be tested? (2 points)

Expected answer / rubric: Another person can find and return items correctly.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
