Grade 7 — Module assessment — Module 1 Week 4

Date: 2026-11-06

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Proportional reasoning applications

1. Simplify the ratio 18:24. (1 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

ELA — Central ideas, theme, and development

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Physical Sciences — Biodiversity, food webs & ecosystem services

1. Why does biodiversity matter in a food web? (1 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Social Studies — Sumer/Babylon: writing, law, government

W4 background: A writing system using wedge-shaped marks, associated with ancient Mesopotamia. They show rules/ideals and authority, but not necessarily how every case was handled. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Compare a law text with evidence of everyday life. (3 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Art — Composition and revision

Read before you begin

Composition arranges elements within a work. Balance, emphasis, and negative space affect interpretation. Revision tests purposeful changes.

1. What is negative space? (2 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Life Sciences — Emotions and behavior

Read before you begin

Emotions provide information about experiences but do not establish facts about other people. Naming a feeling and pausing can help a person choose a response. People may experience the same event differently.

1. Can people feel differently about the same event? (2 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Computer Science — Files and folders

Read before you begin

A file stores information; folders organize files. Clear names and predictable locations make work easier to find. Save copies before major changes and check where downloads go.

1. Why use descriptive filenames? (2 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Life Skills — Organizing shared spaces

Read before you begin

Organization groups items by use and makes them easy to find. Shared spaces require agreed responsibilities. Test whether someone else can locate and return supplies.

1. How can organization be tested? (2 points)

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)
