Grade 7 — Weekly review — Module 1 Week 2 — TEACHER KEY

Date: 2026-10-23

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Proportional tables and constants

1. Table: x = 1, 2, 3; y = 6, 12, 18. Find constant k in y = kx. (1 points)

Expected answer / rubric: 6

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Vocabulary in context

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Oxygen/nitrogen cycles

1. What do nitrogen-fixing microorganisms do? (1 points)

Expected answer / rubric: Convert atmospheric nitrogen into forms that can enter biological pathways.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Agricultural revolution

W2 background: It supported more permanent settlements and changed work, resources, and social organization. No; crops, environments, timing, and choices varied. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Compare foraging and early farming. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Food production, movement/settlement, benefits, costs, and recognition of variation.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Shape, form, and proportion

Read before you begin

Shape is two-dimensional; form occupies or suggests three dimensions. Proportion compares parts with each other or a whole. Artists may use realistic or intentionally altered proportions.

1. How do shape and form differ? (2 points)

Expected answer / rubric: Shape is flat; form has or suggests depth.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Attention and distractions

Read before you begin

Attention selects some information for processing. Distractions compete for attention. A fair comparison keeps tasks similar and changes one feature; one trial cannot establish a rule about everyone.

1. What should stay similar in a fair comparison? (2 points)

Expected answer / rubric: The task difficulty, length, timing, and instructions.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Typing and keyboard skills

Read before you begin

Accurate typing improves through short regular practice. Locate Shift, Enter, Backspace, and space. Comfortable posture and breaks matter more than racing a timer.

1. What is a useful typing goal? (2 points)

Expected answer / rubric: Improved accuracy with comfortable posture and short practice.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Time and task estimates

Read before you begin

Estimates predict approximate time or amount. Compare estimates with observations to improve planning. Include setup and cleanup as well as the main task.

1. Why compare estimates and observations? (2 points)

Expected answer / rubric: To improve planning and identify omitted steps.

2. Show one piece of this week's work and explain one correction or improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
