Grade 7 — Module assessment — Module 2 Week 4 — TEACHER KEY

Date: 2026-12-11

Eight-subject review of taught work; practical evidence may replace a written response. Friday remains flexible.

Math — Percent applications and review

1. Find 15% of $80. (1 points)

Expected answer / rubric: $12.00

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

ELA — Noun usage and writing application

1. Write a short response to today’s Khan reading or grammar lesson. Include a specific example. (3 points)

Expected answer / rubric: Relevant response and an accurate example of the day’s skill.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Physical Sciences — Body-system models and evidence

Read before you begin

A physiological model explains selected functions and makes testable predictions. Evaluate what the model represents and omits. Avoid diagnoses from classroom measurements.

1. Why state model limitations? (2 points)

Expected answer / rubric: A model simplifies a system and cannot explain or predict every detail.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Social Studies — Compare river-valley civilizations

W4 background: Understand similar environmental opportunities and different social responses. People developed different institutions, beliefs, and choices. This is an assessment background note written for this packet, not an actual historical primary-source quotation.

1. Compare two river-valley societies. (3 points)

Expected answer / rubric: Rubric (3): accurate relevant content (1); supported comparison/relationship (1); clear organization and source/evidence awareness (1). Same criteria, two similarities/differences, and one limitation of the comparison.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Art — Design and communication

Read before you begin

Design solves a communication problem for an audience. A symbol or label must be understandable as well as attractive. Test the message with users.

1. How is clarity tested? (2 points)

Expected answer / rubric: Ask intended users to explain the message or action.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Sciences — Support and help-seeking

Read before you begin

People use relationships and routines to handle challenges. Asking a trusted adult for help is a practical skill. Private experiences need not be shared to demonstrate learning.

1. What makes a help request useful? (2 points)

Expected answer / rubric: It identifies the problem and the kind of support needed.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Computer Science — Search and source evaluation

Read before you begin

Search ranking does not guarantee truth. Check authorship, evidence, date, and purpose. Compare important claims with other reliable sources.

1. Does appearing first in search establish accuracy? (2 points)

Expected answer / rubric: No; ranking is not evidence of truth.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.

Life Skills — Recurring chores and responsibility

Read before you begin

Recurring tasks need schedules and completion standards. Fair responsibility can consider time, ability, and availability rather than only the number of tasks.

1. Does equal task count mean equal effort? (2 points)

Expected answer / rubric: No; tasks differ in difficulty, duration, and support needed.

2. Select evidence from two different weeks of this module. Explain a concept or practical skill and one improvement. (2 points)

Expected answer / rubric: Award 1 point for relevant completed evidence and 1 for an accurate explanation of a revision or improvement. Do not assess personal beliefs, diagnoses, or disclosures.
